

WOMAN'S AUXILIARY.

The W.A. to the D. and F. Missions held its usual monthly meeting the last Tuesday in February. The president in the chair. Receipts for the month \$23.19. Six new members were reported from St. John's parish and one from St. Alban's. The subjects for discussion were Columbia, B.C. and China. Lady Joly read an article on the 'Ku-Shan Monastery'; the recording secretary an article on China; and the president several interesting items about missionary work in China and Columbia. The treasurer asked that subscribers to the Leaflet would pay in their subscriptions for the new year. As it is very probable that the president of Ottawa diocese will be absent in June, the first annual meeting of the W.A. in this diocese will be held in April. The annual meeting of the Ottawa branch will be held

March 30th. And the next regular monthly meeting will be on March 26th (the third Tuesday in the month).

We regret having to record the serious illness of the Revs. J. M. Swenson and A. W. Hannington. La grippe is no respecter of persons, evidently, as both these clergymen have had a severe attack. All the services in St. George's have in consequence been taken by the curate, Rev. W. Southam, while the city clergy have come to the aid of Mr. Hannington.

Dr. Grenfell, superintendent of the Royal National Mission to Deep Sea Fishermen has been in the city recently. He held a drawing-room meeting and also gave a most interesting lecture, illustrated by lime-light views, concerning the life and work among the fishermen, on the Labrador coast. We trust this work will commend itself to many of our readers.
