**THOROLD CEMENTS**

always on hand.

**NOTICE.**

We do not handle any of the cheap grades of Scotch Pipe which are offered in the market to-day. All our stock is made up of first-class Ohio (American) and Standard (Canadian) pipe, all of which is made from fire-clay, highly vitrified and salt-glazed, and have stood the severest strain and smoke tests, and will not decay in the ground by sewer gas.

**"SILICOLITE," (Patent)****A CHEAP FIRE AND WATER-PROOF ELASTIC FOR PLASTERING HOUSES.**

Is not liable to crack under any strain, and requires no special preparation for painting either in oil or water color. Being a non-conductor of heat, it makes a house cooler in summer and warmer in winter, and its weight is from 15 to 20 times less than any other plastering in use. It adheres to any kind of surface, and when applied to stone or brick on outside walls will protect them against the action of frost. It is applied in the usual way of plastering, and can be highly finished on one or two coats either with the ordinary tool or with sand paper.

**A. J. PIGEON,** - No. 304 Richmond Square, Montreal.

Over 13,500 in use.

**THE DUNNING - BOILER,**

**Patent Steam and Hot Water Heater**

Made entirely of Wrought Iron or Steel, with  
Self-Feeding Coal Magazine or Surface  
Heater; is the oldest and best for Low  
Pressure Steam and Hot Water  
Heating, and insures a warm  
home day and night.
