CONGER COAL COMPANY, Lt'd General Office, 6 King St. East

A safeguard against infectious diseases. Sold by chemists throughout the world. W.G. DUNN & CO. Works—Croydon, England.

### PUBLIC OPINION.

The Hamilton Spectator: That greatest nation on top of earth, the United States, seems to have finally reached the lowest depth of meanness by cancelling the pensions of soldiers and soldiers' widows who reside in Canada. Fifty thousand Canadians fought in the Federal army during the war, and, at that time, the great American nation was gladenough to secure the service of the Canadenough the service enough to secure the service of the Canadians; but gratitude is a virtue that don't belong to the United States, and the petty pensions of the Canadian soldiers' widows, is now to be cut off. Uncle Sam ought to be ashamed of himself.

The Montreal Daily Witness: Canadians should know what influential American papers say about them and their country. The St. John (N. B.) corres-pondence of the New York 'Times' is about the silliest and most misleading that we have yet seen. It is probably the work of some needy person who has written just what he knows would find a market in the United States. That the Mari-time Provinces are not prosperous is, unhappily, true, but the same is true of the adjoining New England States, and the great trouble with both the Canadian Provinces, and the American States is, that they are dependent upon agriculthat they are dependent upon agricul-ture and shipping for their prosperity, and both of these have been oppressed, the latter to the point of extinction, by the now happily discredited policy of protection, which the United States has already condemned at the polls, and which Canadians, after a sickening experience, are ready also to condemn on the first opportunity.

The London Free Press: The General Manager of the Molsons Bank, Mr. F. Wolferstan Thomas, has, through the medium of the Winnipeg branch, obtained reports from seventy-five points in Manitoba, relating to the condition of the growing crops. The reports cover elevator points on the main line, and branches of the Canadian Pacific Railway, the Northern Pacific and Manitoba Railway, and coming down to the way, the Northern Pacific and Manitoba Railway, and coming down to the first week in July, they afford the latest and most reliable information of harvest prospects yet gathered. The reports are most gratifying from all quarters. According to the last bulletin issued by the Department of Agriculture of Manitoba, the acreage under cultivation in the province is as follows:-

Wheat, acres	1892. 875,990 332,974	1893. 1,003,640 388,529
Barley, acres	97,644 27,501 1,334,109	114,762 33,306 1,540,237

The increased acreage this year is 206,-128 acres, or about 16 per cent. Though the spring was late in opening, the seed, under the influence of hot sun and show-ers, germinated quickly, and the growth since has been rapid and uninterrupted, and on July 8th was considered ahead of and on July 8th was considered ahead of last year in some districts. So far, the damage reported, is of a trifling nature—a few insects on odd farms, weeds on others, and a little drought about the middle of the Province. With continued fine weather, the yield should be very heavy, and the crop one of the best, if not the very best ever gathered. Live stock the very best ever gathered. Live stock is increasing in numbers throughout the Province.

### A CHILDLESS HOME.

Smith and his wife have every luxury that money can buy, but there is one thing lacking to their happiness. Both are fond of children, but no little voices prattle, no little feet patter in their beautiful home. "I would give ten years of my life if I could have one healthy, living child of my own," Smith often says to himself. No woman can be the mother of healthy offspring unless she is herself in good health. If she suffers from female weakness, general debility, bearing-down pains, and functional derangements, her physical condition is such that she cannot hope to have healthy children. Dr. Pierce's Favorite Prescription is a sovereign and guaranteed remedy for all these ailments. See guarantee printed on bottle-wrapper.

YET ANOTHER

Books for Public or Private Lib raries, for Merchants, Lawyers, Doo tors, Teachers and Professional men generally, and in great variety for young people.
