

(b) any additional operating costs resulting from such independent activity will be borne by the appropriate Canadian authorities.

12. *Canadian Immigration and Customs Regulations*

(a) Except as otherwise agreed, the direct entry of United States personnel from outside Canada shall be in accordance with Canadian customs and immigration procedures which will be administered by local Canadian officials designated by Canada.

(b) Canada will take the necessary steps to facilitate the admission into the territory of Canada of such United States co-operating agency personnel as may be assigned to visit or participate in the operation of the station.

13. *Taxes*

The Canadian Government shall grant remission of customs duties and excise taxes on goods imported and of federal sales and excise taxes on goods purchased in Canada which are or are to become the property of the United States Government and are to be used in the construction and/or operation of the installations, as well as refunds by way of drawback of the customs duty paid on goods imported by Canadian manufacturers and used in the manufacture or production of goods purchased by or on behalf of the United States Government and to become the property of the United States Government for the construction or operation of the installations.

14. *Supplementary Arrangements and Administrative Agreements*

Supplementary arrangements or administrative agreements between the co-operating agencies of the two Governments may be made from time to time for purposes of carrying out the intent of this Agreement.

10. *Telecommunications*

For the communications between the station and the corresponding stations in the United States, the United States Government shall provide the necessary facilities and equipment, and shall be responsible for the maintenance and operation of such facilities and equipment. The Canadian Government shall provide the necessary facilities and equipment for the reception and transmission of such communications, and shall be responsible for the maintenance and operation of such facilities and equipment.

11. *Scientific Information*

All scientific information obtained by the station shall be made available to the Canadian Government and the United States Government. The Canadian Government shall be responsible for the dissemination of such information to the Canadian public, and the United States Government shall be responsible for the dissemination of such information to the United States public.
