## PRINCE ARTHUR COMING EAST AT HEAD-OF-LAKE-TOWNS

Fort William and Port Arthur Citizens Turn Out to Welcome His Father's Son.

Fort Arthur, April 13.—H.R.H. Prince Arthur of Connaught visited the twin cities to-day.

Arriving at Fort William, he was greeted by the mayor and council, High School Cadets and band and hundreds of citizens and presented with a civic address, which, in part, said:

"We invite you to inspect the immense terminal works which have been erected for the handling of the vast trade of this western country in our town, which, the 2000 miles from the sea-board, is yet, by its peculiar natural advantages, able to rank as a seaport, and we feel sure that nothing can give your royal highness a clearer conception of the great future that lies before the Dominion."

At Port Arthur a cordial reception was tendered the royal visitor. The address presented said, in part:

"The history of this place dates from the landing of troops of the Red River expedition, the name, Prince Arthur's Landing, being bestowed upon it then in honor of your father, then a popular soldier serving in Canada. This name was appreciated and continued when the place was incorporated as a town. Hence it is an additional pleasure in greeting you on this your first visit to us."

A Pleasure. To which Prince Arthur replied: "I gladly receive your address of welcome, and am only sorry that time will not permit me to see more of your town, which possesses a special interest for me, in that it bears the name of my dear father, whose stay in Canada, I am pleased to find, is thus held in remembrance. I can assure you that he, on his part, retains the happiest recollections of his associations with the Dominion. I thank you for your kind wishes for my future, and hope that Prince Arthur may be blessed with an abundant share in the prosperity pervading the great west, of which I have recently witnessed such gratifying proofs."

Two pretty little girls presented the prince and Gen. Sir Thomas Kelly Kennedy each with a bouquet of flowers. The royal train started east at 12.50 p.m.

**Spring Medicine For the Blood**  
DRIVES AWAY THAT TIRED, RUN-DOWN FEELING; MAKES YOU FEEL BRISK AND SMART.

With the spring is sure to come that tired, exhausted feeling. Your blood is thin, weak and debilitated. Circulation is slow, and in consequence the system is congested with poisons and wastes that should be driven off. The sensible person acts on the teachings of experience and cleanses his system with a course of Dr. Hamilton's Pills of Mandrake and Butternut.

For the ill of springtime no medicine can be more certain to quickly cure. Convenient to take, just one pill at bedtime; safe, because entirely vegetable; unfailing, because proved by thousands that Dr. Hamilton's Pills set you up in a few days.

From Chebogue Pt., N.S., comes the following from Mrs. W. A. Reynolds: "A year ago my health began to fail. I lost appetite, became nervous and sleepless. My weight ran down, I became thin, hollow-cheeked and had black rings under my eyes. I really felt as if the charm of life had left me, and when springtime arrived I was in the 'blues.' I read of Dr. Hamilton's Pills and got five boxes at once. Within a month my appetite and color were good. I gained strength and felt like a new woman. New life and vigor returned and my friends scarcely knew me. A medicine that will do this should be in every home."

Good health means much to you. Success and happiness depend upon it. The maintenance and source of health is found in Dr. Hamilton's Pills, 25c. per box, or five boxes for \$1.25 at all dealers, or by mail from N. C. Pollock & Co., Hartford, Conn., U.S.A., and Kingston, Ont.

## IMMIGRANTS' HAPPY LINE IN MIDST OF STRANGERS

Unable to Get Suitable Accommodation—Some Side Lights on Immigration Work in Toronto.

The heavy influx of immigrants has brought to notice a number of incidents of pathos more or less striking. About 2 o'clock yesterday morning two families were found by Night-watchman Jim McCracken at the corner of Yonge and Wellington-streets, sitting on the door step. There were two men, their wives and nine children, one an infant in arms. "Elig-Hearted Jim" found them shelter and procured a hot tea for them, and when a World reporter went to see them the children were all stretched out side by side on the floor sound asleep. Wm. Hart, one of the unfortunates, stated that he had arrived with the train load of immigrants the night before and both he and the other man, Chas. John Spurgeon, had registered at the Ontario Immigration office. They had gone as directed to the Grand Central Hotel to seek a night's lodging, but even the proprietors there, who are wont to stretch the capacity of the house to the utmost to oblige the wayfarers, were unable to find them room, so great was the demand for accommodation. The men had received the same reply at another hotel. Hart came from Bournemouth, England, and Spurgeon from London.

Government Immigration Commissioner Southworth explained that the Grand Central had been unable to take in the three families thru lack of room, and that they had been advised to go to the Albion. One family stopped there for the night, but in the case of the other two the men refused to accept the terms, altho having money.

Mr. Southworth saw that the families were comfortably quartered at the Grand Central last night.

**In a Strange Land.**  
A Roumanian sat all day long Thursday and day before in a corner behind a door at the Union Station. He appeared to be friendless and alone and couldn't speak English. Finally a couple of Jews took him home about 10.30 p.m. Thursday night, stating that they would give him work in a bake shop, but he was back the next day. Similar cases frequently are noticeable around the depot, where the policeman has often to send up town for some countryman who can speak the same language and request him to take care of the homeless one or find him work if possible. In the case of the Jew or Italian, however, there are generally three or four at the train ready to meet one of their own kin.

**City Called on to Relieve.**  
The report of City Relief Officer Taylor, prepared for Dr. Bryce, superintendent of immigration, shows that there are many of these immigrants who have to apply for protection to the city.

In a little over a year this officer reports that he has had no less than 350 applications for relief and 67 applications for hospital accommodation from immigrants.

**Doing Good Work.**  
The government immigration people in Toronto are doing splendid work and I do not consider they are to blame. It was the emphatic statement made yesterday by Commissioner Coombs of the Salvation Army, regarding instances that have come to light where immigrants spent their first night in Toronto without a sheltering roof.

The commissioner was inclined to think the blame might rest upon the new arrivals themselves. Some of them were disposed to be obstinate and to show perverseness in respect to the arrangements made for their well being on arrival. Hence there might arise tales of immigrants who spent the night on a doorstep under the starry canopy.

"We have always found Mr. Southworth and his assistants most kind and painstaking," testified Major Morris, whose duties lie in the Army's immigration department.

That the immigrant is often not without a guide is the opinion of Mr. Coombs. He referred to the species of individual who on landing made plea that he was without a cent and got meals and lodging gratis.

"Shake his stocking and usually something will fall out of it," said the commissioner sagely.

In spite of the fact that the Army has handled 5000 immigrants this early in the year, it is a hopeful sign that the department has not been overrun with demands for help from stranded ones. Commissioner Coombs says there has been no particular trouble of this kind. Work on the farm is too plentiful. There are hundreds of applications from farmers neatly filed, and the man who turns up with a hard-luck story finds a job ready-made waiting for him in Ontario.

**West Wants Men.**  
Then there is always the insistent call of the West.

"Why don't you send us along 500 men?" is a request that has come from the Winnipeg and Brandon branches. There is a note of complaint about it for the demand is a long-standing one. Immigration naturally brings with it a lot of the foetism and jetsam of human kind. The army has its small problems. One of them lately came with the advent of a colored man with a white wife and a father-in-law. The printed forms of classification do not cover the matter of color. The trio couldn't be placed in Toronto, to St. Catharines they were then sent, but Major Morris says, the hotels wouldn't take them in, and they are back in Toronto.

**Don't Want to "Bite Out."**  
The commissioner tells that there are many immigrants who honestly wish to settle down to farming, and who would go to make up the bone and sinew of the country, but are not specially attracted by the thought of being hired out. From consideration he has evolved a colonization scheme. This he has explained to The World.

## WOMEN WHO SUFFER SHOULD READ THIS

She Was Cured of Female Troubles by Dodd's Kidney Pills.

They Made a New Woman of Her and She Blesses the Day She First Heard of Them.

Newmarket, Ont., April 13.—(Special.) The case reported below is another of the many thousands of instances of Dodd's Kidney Pills coming to the rescue of weak, suffering women. Mrs. M. Doner of this place says:—"For more than three years I suffered from weakness and female trouble brought on through my kidneys failing to act properly. I was bothered with pains in the small of my back, headache, dizzy spells, heart flutterings, depression, loss of sleep, poor appetite and a terrible dragging sensation as if a weight was fastened round my loins. I tried doctors and took all kinds of medicines, but nothing seemed to do me any good. Then a neighbor told me of Dodd's Kidney Pills and advised me to try them. I did so and after taking six boxes I am entirely cured."

## KILLED ON RAILWAY TRACK.

Cobalt Man While Asleep Meets With Fatal Death.

Cobalt, April 13.—(Special.)—The lifeless body of Archie McDonald, formerly manager of the King Edward Hotel here, was found at 7 o'clock this morning by Section Foreman Hughes between the rails on the T. & N. O. Railway track.

Police Chief Caldwell was notified, and had the body removed to the fire hall at Halleybury. Coroner Codd was notified. The body was badly mutilated, one arm was cut off, one leg broken in several places, and only one side of the face gave any possibility of identification. Mayor Farr ordered a coffin to be made, and steps were taken to preserve the body so as to enable an identification.

A prospector, named O'Donnell, who had been looking all morning for his mate, gave the required clue, and the proprietor of the boarding-house went to the hall and identified the body. O'Donnell claimed, when making his enquiries, that he and McDonald had started last night to walk to Cobalt, but that he decided to return, as it was too late and too dark. He tried to induce the deceased to return, but without avail.

It is supposed the dead man, who was tired after tramping in the bush for two days, sat down to rest and fell asleep. He was killed at mile-post 20, between Argente and Cobalt. A gold watch, \$1.08 in money, and a small flask of liquor were found on him. The flask had not been opened, and the seal had not been disturbed, his clothes were nearly torn off.

McDonald came from Cornwall, where his wife and family are living. He was a kindly man, and he had many friends in Cobalt.

## Matches in Mail Parcels HERE'S WARNING IN TIME

Postal Authorities Threaten Stern Punishment for This Serious Violation of Regulations.

Ottawa, April 13.—(Special.)—The general postoffice, London, has lately called attention to several cases of parcels mailed in Canada, addressed to the United Kingdom, on being opened at Liverpool for customs examination, have been found to contain matches.

It is pointed out that this is a most serious offence, as it is liable to endanger the safety of vessels and the lives of passengers. It is, in fact, an offence for which the guilty party might become liable to imprisonment for life.

On enquiring into these cases, the most frivolous reasons have been assigned, but the offence has been committed so repeatedly of late, and the danger to life and property is so serious, that the postoffice department has decided to take strong steps to put a stop to such acts.
