

THE CITY.

H.M.S. GARNET goes over to Westminster on Monday to do her part toward making the exhibition a great success.

STRAKES PRINCE LOUIS left for North-eastern port last evening with small freight and passenger list.

The twelve of the Montreal lacrosse club defeated in six straight by the Victorias, was the same identical that met the Capitals, of Ottawa.

JOHN MAQUIE, for 15 years one of the best known theatre managers of the West, returns to the stage this fall, playing the leading part in Killarney.

TENDERS are now being received by the Chief Commissioner of Lands and Works for the erection of a public school at Strawberry Vale, Victoria district.

HARVEST home services will be held at St. John's church on October 1. In the meantime the ladies are preparing to have the church very prettily decorated.

ADOLPH KREIC has changed his mind about going back to Seattle, the news from St. Paul yesterday being that he had engaged counsel and begun habeas corpus proceedings, which will come up to-day.

THE agent of certain property on Johnson street has been summoned to appear in the Police court this morning, the complainant, Mr. Samuel Clay, alleging that the public health is endangered by the presence of a pool of stagnant water on the property for which the defendant is suing.

THE Ladies' Aid Society of St. Paul's Presbyterian church, Victoria West, will offer for sale on Tuesday next in the Public hall, Craigflower road, a large quantity and variety of useful and fancy work, the result of their season's labor. Luncheon will be served from 5 to 8 o'clock.

In the City Police court yesterday three drunks paid the orthodox fines, and George Steer, an Indian, was sentenced to two months' imprisonment for the theft of a coat and vest. Agnes Woodruff had been committed for malicious damage to clothing owned by George Hanover. As the latter did not appear the case was dismissed.

THE ladies of the Centennial Methodist church were "at home" last night at the residence of Mrs. A. J. McEllan, on the Gorge road, and the large number of friends who responded to the invitation to be present were well entertained in consequence.

A CHIEF excursion is to be run from Victoria to the annual exhibition at Westminster, the favorite steamer Yosemite being advertised to leave here on Wednesday and Friday of next week, returning the following day for the low price of \$1.50, which includes admission to the fair grounds. Besides this, special round trip tickets, good for the whole of the fair week, will be issued for \$5, including admission to the grounds. The latter tickets will be good for either the regular boat to Vancouver, or for the special trips of the Yosemite, which will be from here to Westminster direct.

THE project of establishing a "Merchant's Exchange club" in connection with the Board of Trade, which was first discussed when the new Board of Trade building itself was decided upon, has now been taken up by energetic hands and will be quickly carried to a successful conclusion. It is proposed to conduct the club upon lines similar to those of kindred organizations in the East and South, the fund-raising being established in connection, and the membership fee being a very modest one. How the new club is received may be gathered from the fact that 200 subscriptions were secured from 11 o'clock yesterday morning to 5 in the afternoon.

SOMETIME between Tuesday's dusk and yesterday's dawn the "ransom act" was once more executed with neatness and ability, the scene of operations being the "Westside," J. Hutchinson & Co.'s dry goods establishment, on Government street. When the robbery was committed it was a subject of doubt; how it was, is told by the packing case left standing in front of the premises, and the open window above the street door. The plunder secured consisted of upwards of \$7 in cash, the loose change in the till, gloves, handkerchiefs, etc., to the total value of about \$50. The fame of the "Westside" kid gloves, the firm explains, must have been the original nature of the burglary; "the people must have seen if they have to steal 'em." How burglars can be thus committed on the main street, while it at the same time is patrolled by police and nightwatchmen, is a matter of wonder. The patrolmen themselves blame the big silver badges which they are compelled to wear on the outside of their uniforms for spoiling half their work; the badges shine like electric lights when reflecting the rays of the latter, and disclose the identity of the officers while they are yet blocks away.

MANITOBA papers chronicle the disheartening experience of a young resident of this city named Alexander Ferguson. He came to British Columbia from Scotland some seven years ago, and being a canny lad, saved money—living in the hope of soon being able to send home for the girl he left behind him. This spring he decided that he could afford to take the plunge, and Margaret being willing, he sent her a draft sufficient to cover all her travelling expenses until he should meet her at Vancouver, where the marriage was to be solemnized. The lassie packed her trunks, and biding her friends good bye, started for her new home. She was fortunate in finding among her travelling companions a young man who was kind enough to look after her comfort and convenience on the way over, and still more fortunate to have him still with her on the long journey by train. Being an appreciative young woman she was grateful; not having seen Ferguson for seven years his image was rather dim and indistinct. In the end, a proposal was favorably considered from the knight on the scene, and the marriage was celebrated soon after. Mr. Ferguson has received a draft for the amount of his advance and the "regrets" of his bride that was to have been.

KITCHEN SURPRISED.

TO THE EDITOR:—Mr. Kitchen passed down here on his way below. He says he is going to stay round the "160" and perhaps go to Chilootin. Asked, "Wasn't he going to the fair at Chilliwack, or was he going to let Mr. Davis have all his own way there?" he said he could not get down in time and did not see how Mr. Davis was going to be by the 20th. He did not think there would be any public meetings as people did not care to talk politics at fair time.

THE CITY COUNCIL.

A Scheme for Improving the Source and Supply of Water—Immediate Report Wanted.

Discussion on a Report From a Committee—Tenders for Drains—Eagles for the Park.

The City Council had a special meeting last evening, Mayor Beaven in the chair, and all the members present, except Ald. McTavish, who is out of town.

ALD. ROBERTSON moved, seconded by Ald. Baker, for a return of all correspondence and papers relating to the extension of Broad street and the assessments for the work. Adopted.

THE WATER SUPPLY.

ALD. ROBERTSON moved, seconded by Ald. Munn: "That the Waterworks Engineer be instructed to prepare a scheme to improve and enlarge the supply of water from Elk Lake and Beaver Lake; the said scheme to include the extension of the 24-inch main, or a main, or mains, as he deems necessary, to the head works; damming Elk Lake from Beaver Lake, clearing out Beaver Lake, bringing in water from Elk Lake to filter beds while Beaver Lake is being cleaned; building a dam that will raise and increase the supply of water to its reasonable highest capacity; also a complete system of filter beds and a water tower on top of high ground on Cook street, with hydraulic rain and separate pipes to supply higher levels; to give a detailed statement of all requirements to make the water works successful; and also a statement in detail of cost, so that a by-law can be submitted to the ratepayers for raising the funds for carrying out the work."

The mover advocated that steps be immediately taken to purify Elk Lake, from which he believed a thoroughly pure supply could be procured. A scheme agreed upon by a competent engineer could supply all the city from this source, without danger of interruption on the higher levels, and would also give water for irrigating the gardens about the town.

ALD. BRAGO would like to have the information asked for returned before the next election, for use when the aldermen went to the polls.

ALD. BELTZA said many people believed that Elk Lake had not water enough and had not head enough, to supply the probable wants of the city, and until this was ascertained, no large expenditure in the direction proposed would be justifiable.

ALD. MCKILLIGAN referred to the expense now involved in maintaining hydraulic pressure for the service of the higher levels, and considered that it would be well to avoid the expense by procuring a supply, if feasible, from a higher source.

ALD. BAKER would like to see in the resolution a certain time named for the report to come in from the engineer. It was, he said, a known fact that the water now supplied was not good, but there was in Elk Lake abundance of water to supply the city for the next twenty years.

ALD. MURN thought it quite proper that the City Engineer should be asked to suggest a scheme for a better water supply, but he did not think the Council should outline the scheme to him. The engineer's report of last year showed that at the rate of consumption in the early part of last year the storage capacity of the lake is not sufficient for a year's supply. If steps were taken to increase the capacity of the lake, he thought the supply there would be found to be sufficient for many years to come.

ALD. ROBERTSON spoke in further explanation of his scheme, and said he had in drawing it up made all the inquiries possible. He was willing, however, that the engineer should suggest any alterations he thought proper.

ALD. BRAGO rose to move an amendment, but sat down when the Mayor reminded him that he had already spoken.

ALD. HENDERSON moved to amend the resolution by providing that the information asked for be furnished by the 1st of December.

The resolution, with this amendment, was then carried unanimously.

THE MOHUN INVESTIGATION.

The special committee, consisting of Ald. Henderson, Munn and Bragg, presented their report re the Mohun investigation, as follows:

"We do not find sufficient grounds for instituting an investigation into the manner in which Mr. Edward Mohun performed his late duties of sanitary engineer, more particularly in connection with the McBean contract for construction. Nor do we think that anything which may have been said by Ald. Baker or any other alderman at Council meetings, was intended to reflect on the character or ability of Mr. Mohun as an engineer, and could not seriously affect his standing, unless borne out by the results of his work, which so far as we are acquainted, has not been the case."

ALD. BELTZA—"That is a great deal of whitewash." He moved that the report lie on the table "till we all get a chance to look at it." Ald. McKilligan seconded the resolution.

ALD. STYLES moved in amendment that the report be adopted.

ALD. BELTZA moved to know if the report referred to the commissioners. He had not heard them mentioned.

ALD. HENDERSON explained that the investigating committee did not see why they should go into such an inquiry as had been asked for, as it would have proved very tedious and expensive. He thought it would save a great deal of bother to adopt the report.

THE MAYOR—"This report does not place much importance upon what was said at the Council meeting."

ALD. MURN did not think that Mr. Mohun had any more right to an investigation than had any of the aldermen or any other public servant.

ALD. BAKER had to thank the committee for "letting him down as light as they have." At the same time he had not one word to take back of all he had said about Mr. Mohun. Look for instance at what the papers were saying about himself, which he had to stand by; this was much worse than anything Mr. Mohun had ever got.

ALD. ROBERTSON thought that the less Mr. Mohun said the better for himself. He said that a great many years ago, when he first knew Mr. Mohun, that gentleman had actually proposed a system of sewers made of cedar planks. He had his own opinion of any man who would make such a recommendation.

ALD. BELTZA said the committee had complied in saying that nothing said in this Council could affect Mr. Mohun. He thought that both the engineer and the commissioners were entitled to ask for an investigation into charges made by Ald. Baker at the Council, especially such statements as that Mr. Mohun favored the contractor at the expense of the city. He

thought the committee had better take the report back and put some other dress upon it.

ALD. BAKER, in explanation, denied that he had said that Mohun was employed by or had anything to do with the contractor. He had stated, and he still held, that in his opinion the engineer favored the contractor at the expense of the city, and Ald. Henderson had said the same. As to the commissioners, he did not consider that they were entitled to any praise, seeing that the business part of the city was not sewered.

The amendment was carried, Ald. Styles, Bragg, Henderson, Munn and Robertson voting yes, and Ald. McKilligan and Belyea nay. Ald. Baker did not vote.

DRAIN TENDERS.

Tenders for the Work Estate surface drain were opened, and found to be as follows: Robert Dinale, \$28,579; Coughlan & Mayo, \$26,244.40; McGregor & Jeeves, \$25,523; H. H. McDonald & Co., \$28,736; Elford & Smith, \$29,550.50; Frederick Adams, \$37,738.10. An unassigned tender enclosed with the last mentioned was for \$33,438.10.

ALD. MCKILLIGAN moved, and Ald. Styles seconded, that the tenders should be referred to the Engineer for verification.

ALD. BAKER wished the Council to settle the matter immediately, as the clerk could make up the figures for a cost per foot.

WOMAN'S WORLD IN PARAGRAPHS.

The Squabble of the Women Managers at Chicago.

One paper says these squabbles have dealt "a terrible blow" to the cause of women. Another man editor, who certainly must have been lunching off mince pie and buttermilk, gravely observes, "It is certain that the conduct of the board of lady managers has been such as to create an unfavorable impression of the advisability of calling on women to take an active part in the management of great public undertakings."

Dear! And when a few weeks ago the members of the British parliament indulged in a free fight in the midst of a meeting, and gouged one another's cheeks, and blinced one another's eyes, and smashed hats down over faces promisingly, and rolled over one another in the dust, clawing like cats and howling like hyenas, that did not "create an unfavorable impression of the advisability of calling on men to take active part in the management of great public undertakings," did it? Oh, no, for the animals in that management were men. Go to! The meetings of the lady managers at Chicago were no worse than men's meetings are every day in the week, and that is the worst that can be said of them. That is had enough. But why men should expect women, without knowledge of parliamentary usage or speech-making, and without experience in organization, to do better than they do themselves is something past finding out. It is to be deeply regretted that some ladies are so quarrelsome and so bent on their own way that they do not mind even making a holy show of themselves. But the woman cause has received no blow from the stormiest of the meetings at Chicago. Only through struggle and defeat can come victory. Women will learn from the experience at Chicago some more of their needs, among other things that just now they need most of all to control their exuberant likes and dislikes, and learn parliamentary usage. Yes, ladies, in the name of heaven, humanity and common sense, learn self-control and parliamentary usage.

Miss Margaret Brainard does a fine business by shipping early violets, daffodils and jessamines from her Mississippi home to the northern states in spring.

A California widow is educating her four boys off the proceeds of a farm of 86 acres which she had set in prunes, cherries and apricots several years ago. She attends to all the pruning of the trees herself and is her own foreman.

One lady in California has two farms—one of 10 acres, the other of 12. From the apricots, cherries and vegetables which she raises on these two patches of land she gets an income of \$5,000 a year. Is not that better than clerking for some man at \$7 a week?

In various little sea trips this summer I have had occasion to notice many husbands and wives taking an outing together. The difference in their physical appearance is striking. Take, say, a husband and wife about the same age, and of the same height, and the husband is a little taller, and the wife is a little shorter, and the husband is a little heavier, and the wife is a little lighter, and the husband is a little more robust, and the wife is a little more delicate, and the husband is a little more manly, and the wife is a little more womanly, and the husband is a little more masculine, and the wife is a little more feminine, and the husband is a little more virile, and the wife is a little more matronly, and the husband is a little more powerful, and the wife is a little more graceful, and the husband is a little more dignified, and the wife is a little more demure, and the husband is a little more commanding, and the wife is a little more submissive, and the husband is a little more assertive, and the wife is a little more passive, and the husband is a little more energetic, and the wife is a little more languid, and the husband is a little more vigorous, and the wife is a little more delicate, and the husband is a little more robust, and the wife is a little more slender, and the husband is a little more muscular, and the wife is a little more plump, and the husband is a little more athletic, and the wife is a little more sedate, and the husband is a little more active, and the wife is a little more reserved, and the husband is a little more outgoing, and the wife is a little more retiring, and the husband is a little more adventurous, and the wife is a little more cautious, and the husband is a little more daring, and the wife is a little more timid, and the husband is a little more bold, and the wife is a little more shy, and the husband is a little more confident, and the wife is a little more diffident, and the
