SUBMARINES SCOUR QUITE SMALL AREA

All Sinkings Occur in Important
Shipping Lane of United
States.

Washington, June 9.—All sinkings reported to the navy department since the submarines left the New Jersey coast district last Sunday have occurred off the coast of Maryland and Virginia, with several of them due east of Cape Henry. This indicates that the U-boats are operating over a very limited area probably of not more than a few hundred square miles, but in a very important shipping lane.

BIG PATRIOTIC DRIVE NOW FULLY LAUNCHED

Hamilton, June 9.—The big allied drive to raise \$125,000 in aid of different war causes during this week was launched at a mass meeting in Loew's tonight. The principal address was delivered by Hon. Henry MacFarland of Washington, D.C., who expressed admiration for the work Canadians had done in the war and for the spirit of giving shown in this country in the contributions given to the different war relief funds, and said that the large sum raised in one week in the United States for the service of the Red Cross was striking evidence that the campaign was in the very end. He urged upon his hearers the necessity of giving to the point of sacrifice in the campaign now being launched, if for no other reason than to show the Kaiser, the embodiment of selfishness and the exponent of autocracy, what lovers of freedom and unselfishness will do for the cause they espouse.

NO DELEGATES ABOARD TORPEDOED STEAMER

London, June 9.—Alfred Lord Newton, head of the British delegation to the prisoners of war conference at the Hague, states he refuses to believe that the hospital ship Konigin Regentes was torpedoed. The weight of evidence seems to leave very little doubt but that the ship was the victim of a U-boat attack. It transpires that it had been given out that the British delegates to the prisoners of war conference were to travel by the Konigin Regentes, with a view to evading possible espionage agents they finally made the voyage in the steamer Sinda.

The writ calls for a declaration that certain wells in the Tilbury fields are still the property of the Maple City Oil and Gas Company, in which the plaintiffs have an interest as stockholders and also calls for an accounting of all monies in the hands of the Glenwood Company which should be to the credit of the Maple City Company, which is now controlled by the Glenwood Company.

BEACHES BEECH AVENUE PASTOR PREACHES GOOD SERMON

"Are They Few That Be Saved?" Such was the title of a rather pointed sermon by Rev. A. P. Addison of Beach Avenue Methodist Church last night, in which he said that deeds, not words, indicate the way the soul is going. It is better to trust to the deeds of life than all the creeds in Christendom. Men do not happen into the Kingdom of Heaven. It is only as a man struggles and agonizes, after counting the cost that he enters the Kingdom, for the way of the Lord is not the way of the world. It is a hard thing to be a Christian, and only heroic souls with determination attain to it, as a man does not just happen to be good. It was a continual warfare with evil, and it was our business to strive to win the Kingdom as a runner strives to win a race. It is a personal thing, he said, when a man is asked: "How about yourself?" You must never relax your efforts, as it will take all that a man can do to attain the victory, said the speaker.

Neumarket HEAD-ON COLLISION SMASHES MOTOR CAR

In a head-on collision which took place at the corner of Eagle and Yonge streets, just outside the corporation of Newmarket, on Saturday afternoon, a Shearer of Pefferlaw and a companion who were riding on a motorcycle, suffered severe injuries, the former being removed to Dr. Wesley's surgery, while his companion was able to go to his own home. Shearer, who was driving the motorcycle, was just turning on to Yonge street at a point opposite the Industrial Home, when a motor, driven, it is said, by a Toronto dentist, who refused to give his name, was proceeding north, and the head-on collision was so terrific that the motorcycle was crushed easily and no serious results are anticipated.

CRITICS IN GERMANY OF U-BOAT POLICY

London, June 9.—A Reuter despatch from Amsterdam says that the policy of sending U-boats to raid shipping on the American coast has critics in Germany. This attitude is revealed in a telegram from Berlin to the Cologne Gazette, in which the newspaper's correspondent believes it necessary to try to combat objections to this particular submarine campaign. These objections, he assumes, are based on the view that the war spirit and fury of the Americans are likely to be increased by such raids.

SUBMARINE CAPTAIN SPARES WHALING SHIP

New Bedford, Mass., June 9.—Two whalers which arrived here today reported they had been held up by a German submarine. The whaler, Captain J. T. Consoles, of the schooner A. M.
