Not Trying to Learn More—selling for Future Delivery Upheld—Officers Elected by the Western Dalrymen.

London, Ont., Jan. 21.—At the opening session of the Cheese and Butter Association this morning, Mr. J. A. Ruddick, principal of the Kingston Dairy School, discussed butter. He said that the quality of butter was decided on flavor, body or grain and salt finish. Flavor was the most important, and was influenced by food, period of lactation and bacteria. Even good food, if not wissly fed would make infortor flavor.

Mayor Shaw delivered a brief address. His Worship's Speech.

He urged the necessity of work and harmony and phophasied success for the Conservative standard—bearer if all hands wild unite and push the campaign with zent campaign with zent time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the government of oritario and the Toronto Conservatives must set time had come for a change in the government of oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Government of Oritario and the Toronto Conservatives must set time had come for a change in the Gov sait fibish. Flavor was the most important, and was influenced by food, period of lactation and bacteria. Even good food, if not wisely fed, would make inferior flavor. Milk exposed in the stables or to the old of foods of strong flavor, such as ensilage, would absorb bad odors. Butter from cows long in milk was inclined to be tallow. He reviewed exhaustively the subjects of washing, salting and packing, which led to a useful discussion among the members.

Butter for Expert.

Professor Robertson introduced the question of how to obtain the proper body of butter for the expert trade. He strongly contended that to obtain the right quality the butter should be worked twice. Witnout this the proper waxiness would not be found when the butter was a month old.

Mr. Letteh Atter the Farmers.

Resolutions were adopted thanking the Mayor and corporation of London for the handsome donation of \$150 towards the expenses of holding this convention; also that in the opinion of this meeting no law should be enacted to prevent the sale of cheese for future delivery until such time as the Dalrymen's Boards of Trade in Canada have had ample opportunity for considering and expressing their view on the BANGERS OF CLERICALISM same.

the confession, as given to the detective, should be thrown out, as it was probable that the officer had taken advantage of Tom's highly nervous temperament to secure an admission of his guilt. The judge decided that the defence should be given the benefit of the doubt and ruled out the confession.

Detective McCaskill Said the Prisoner Was a "Jumper" and the Confession Was Thrown Out.

Joliette, Que., Jan, 21.—In the Nulty murder trial yesterday afternoon Detective McCaskill was put on the stand. In answer to a question by the defence, the witness stated that the prisoner was a "jumper," or one who would yell out and jump when shouted at or nudged, when taken off his guard. The defence thereupon claimed that the confession, as given to the detective,

decided that the defence should be given the benefit of the doubt and ruled out the confession.

At this morning's session High Constable Le Vesque was examined. He was driving towards Joliette with Detective McCaskill and the prisoner, when the latter confessed to having committed the crime. Witness did not think any undue influence had been used to obtain the confession.

Detective McCaskill was recalled. He had found the white shirt which Tom wore on the morning of the murders rolled up and laid across a rafter in the garret of his home, while his pants and vest were found in a tin trunk.

The deposition of Mrs. Boudrier, the prisoner's sister, taken by Royal commission, was read. In it she told of her brother's visit on the same morning as the murders, when he had cooly informed her of the death of the sister Eizabeth, saying her throat had been cut. He made no mention of the fate of the others. The case is still in progress.

Tuesday, January 25th. Tuesday, January 25th.

The reserved seats have gone very rapidly this year, and, to meet the demand and give the people of Toronto a chance to hear one of the best Scottish concerts ever given by the society, the committee have made arrangements to have a limited number of chair seats which can be secured at the Gardens on the night of the concert.

Pressure has been brought to bear on the committee to have them reserve a greater number of seats on the ground floor, but they have decided not to do so, feeling that it would not be fair to those who have been in the habit of patronizing the 25 cent seats, to curtail their privileges. There will therefore be the usual number of 25 cent seats. First come first served.
