IT WAS MRS. GUILFORD

Detective Carpenter Settles the Question Beyond a Doubt.

Has a Photo of the Woman Which Tallies With the "Mrs. Wilbur."

Who Sailed on the Vancouver—

Railway Men Return From New

York—Sir William Van Horne on a

Tour of Inspection.

Montreal, Sept. 29.—(Special.)—Detective

Carpenter has settled beyond any doubt the question of the identity of the woman who sailed from this port on the Vancouver on Friday, the 17th inst., under the name of Mrs. Wilbur. It was Mrs. Guilford, wanted at Bridgeport, Conn., for the killing of Emma Gill.

While some thought that Mrs. Wilbur and Mrs. Guilford were one and the same person, there was nothing positive known until now. Mr. Carpenter received a photo of Mrs. Guilford last evening, which was identified beyond the slightest question as that of the woman who was at the Place Vigor Hotel on Friday, the 17th inst., under the name of Mrs. Wilbur. She was charged with a second-class passage on the Vancouver at 6.30 p.m. and later in the evening went on board.

The charge upon which Mrs. Guilford will be held is manslaughter, not murder, as has been supposed. There is no law upon the Connecticut way following the charge made against her in connection with Emma Gill's death. The indictment penalty for the crime is a fine of \$100 and six months in the State Penitentiary.

Dr. Nancy Guilford disappeared from her home, No. 51 Gilmer-street, Bridgeport, Conn., on Friday, Sept. 17, and was found, the finding of the body of Emma Gill's body, and arrived in Montreal on the night of the 15th.

Railway Men Back From Gotham.

Mr. McNeill, passenger traffic manager of the C.P.R., and Mr. W. E. Davis, general passenger agent, returned to this city from New York, where they were attending meetings of the Trans-Canada Passenger Committee, which had under consideration a number of important railway matters.

A great deal of curiosity has been aroused as to the intentions of the C.P.R. with regard to the local cut rates, which were not restored at the time of the trans-continental rate. Mr. McNeill states that the matter stands just as it did when the local cut rates were put into effect, as the cause for the action is considered to be just as much in evidence now as it was then. He gave it to be understood that as long as the Grand Trunk showed a disposition to play into the hands of the American railways, the C.P.R. would not trade with the Canadian Northwest, by diverting traffic to the United States, so long would the present form of punishment for the Grand Trunk be maintained.

Sir William Van Horne, President of the C.P.R., starts out tomorrow morning on his annual tour of inspection of the line from Montreal to the Pacific Coast. As is customary, Sir William will take a party of friends with him, the personnel of which will be: Prof. Peterson, Principal of McGill University; Messrs. R. B. Angus and E. B. Oiler, directors of the railway, and Mr. W. W. Ogilvie, the well-known journalist, who will start out over the short line to Ottawa by special train, and continue the trip by daylight, visiting the Crow's Nest Pass Railway en route.

The Empire Again in Front.

The Empire Typewriter was awarded the silver medal at Toronto Industrial Exhibition this year, being two years in succession that it has carried off the honors over all competitors. This is something to be proud of in view of the fact that it had to compete with other machines costing \$150. The Empire is the only high-grade typewriter made that is sold at a reasonable price, \$35, and is guaranteed up to one of the oldest and wealthiest firms in Canada, namely, the Williams Manufacturing Company, Limited, who during the past 40 years have built up a reputation second to none with their famous New Williams sewing machines, which are to be found in every quarter of the globe. If you are interested in a typewriter or a sewing machine, call at our office, 64 King-street west, and let us show you the simplest and best.

High-Class Tailoring.

Score's, the high-class tailors, 77 King-west, have for so many years been recognized as the leaders in all that is strictly high-class and up-to-date that it is almost superfluous to remind our readers of the fact. This season their reputations for the quality of their work are more than ever justified, for they have secured the most skillful and experienced tailors in the city, and they are now making up the new season's styles. It is quite evident, judging by the beautiful woolsens we saw in Score's, that these visiting the British manufacturers twice a year is wonderfully advantageous to Canadians who want garments of a thoroughly up-to-date nature in design, coloring, and style. We cannot help but emphasize their \$24 Scotch tweed suitings. Such values we never before saw. They are marvelous and we would suggest it as a wise act to come part to call and see them without delay.

See that the cork from the bottle is brushed when you call for Mr. Clemens Sprudel Water.

SPANISH SECRECY.

An Air of Mystery Surrounds All Their Movements in Cuba.

Just Now.

Havana, Sept. 29.—Mystery and secrecy surround all the official acts of the Spanish Government. Especially was this the case in examining the remains of Columbus, and this fact has caused much unfavorable comment and given rise to grave rumors which, though unconfirmed, appear to have some foundation, as there has been no attempt at denial from any source. The removal of the remains, which should certainly have been a public ceremony, was veiled in the deepest mystery, and was effected behind the closed doors of the Cathedral, which were guarded by an armed force. Few of the authorities were present, the names of those who were to attend being handed to the Chief of Police the night before in General Blanco's own handwriting. The fact that the remains were to be removed was made by the press upon the secrecy of the proceedings, and asked whether it would not be advisable to allow representatives of the papers to be present. To this General Blanco emphatically refused to accede, telling the Chief of Police to limit himself exclusively to the list of guests which had been handed him.

No official account of the ceremony or statement regarding the condition of the remains has been made public, but it has leaked out from an almost authoritative source that they are not in exactly the same condition as they were when they were first discovered. When the remains were placed in the mausoleum a small casket was enclosed, containing coins, gold and silver medals, precious stones and colls of parchment. It was then the custom upon the occasion of a burial. It appears that this casket has been tampered with and that its contents—further, that only portions of the remains are left. Gossip, scandal and speculation are rife, the exact truth of which the authorities make no effort to affirm or contradict.

Further explanation, however, is to the effect that secrecy was given to the ceremony because a cable despatch, received here, reported that General Toral had been murdered in Madrid the day before, and that the remains of the deceased might occur if the public and military came together in great numbers.

Some of the more rabid Spaniards go so far as to say that the whole ceremony was a farce.

The distress, disease, death, hunger and starvation at Matanzas continue unabated. The daily average of deaths upon the street corners exceeds twenty, and the condition of the poor in Havana is not much better than at Matanzas. Mothers, gaunt and famished, hugging the shadows of skeleton children to their breasts, beg food and fuel by the wayside, but the Government refuses to admit the gravity of the situation, and has closed the soup kitchens, proclaiming to the world that want and destitution no longer exists here.

The Colonial Cabinet is making a record worthy of its Spanish predecessors. The wholesale pardoning of criminals lately by the Colonial Secretary has caused a great sensation.

Criminals of the deepest dye, sentenced to death for horrible crimes, are daily pardoned by the Colonial Cabinet. This causes the gravest fears in every rank of society, and distrust and apprehension as to the future more than any other agency, reacts in favor of annexation by the United States as the first step in the directing, autonomic and preserving of law and order by turning loose criminals upon the community.

General Blanco has signed a decree releasing all political prisoners confined in the fortresses of the island; but the edict has not yet been published.

Paris, Sept. 29.—The United States Peace Commission held another session this morning, after which, accompanied by the United States Ambassador, General Horace Porter, they left for the Hotel de Ville, where the American Commissioners met and breakfasted with the Spanish Commission.

The French newspapers continue to comment upon the difficulties which the two commissions will have to face, by reason of their different positions, beyond which, it is said, they cannot go.

GOING TO WASHINGTON.

Senate Has to Be Consulted Every Step—Commissioners Over Anxious to Conclude the Treaty.

Quebec, Sept. 29.—(Special.)—It is reported here that the conference will shortly adjourn to meet in Washington.

The reason for the adjournment to Washington is to enable the conference to be in closer touch with the Senate of the United States, which has to be consulted at every step, so that consent is necessary before any treaty can be ratified. It is for this reason that the business will have to be done in the United States. It is reported that the Canadian commissioners are over-anxious to conclude the treaty, and that they are in a hurry to get to Washington to present to arrangements which they own judgment would not approve of. The Government is so anxious to get the treaty ratified that it is anxious to get it through in the least possible time, and it is thought that it may go beyond what it otherwise would do, in order to get a reciprocity treaty of some kind.

Insurance Agents Convene.

The Canadian agents of the Metropolitan Life Insurance Company, to the number of 200, arrived in this city yesterday and held their annual meeting at the Ross House. Mr. Haley Fiske of New York, president of the company, presided, and among those present were Major Conlin, chief supervisor of Canada; New York; J. M. Oraig, secretary; Indiana; J. J. Scott, immediate director; F. O. Ares, Mr. Standish, Chief Supervisor for Canada; Dr. W. E. Hilliard, Berlin; Sir James Grant, Ottawa; Dr. P. Lord, Lewis, Que. Dr. W. G. Walker, Stratford. The members were welcomed to the city by His Worship Mayor Shaw, and addresses were also made by Hon. J. M. Gibson, Dr. Pyne, M.L.A., Sir James Grant and others. The business transacted was of interest to the members alone.

The market was rather slow, and prices had a downward tendency. Prime beefs sold at about 4 1/2c per lb. Pretty good stock at from 3 1/2c to 4c. Common dry cows and thin young stock from 2 1/2c to 3 1/2c, and the usual range of small calves from 20c to 30c. Calves sold from \$2.50 to \$12 each, or from \$10 to \$15 per lb. East Buffalo Cattle Market.

East Buffalo, N.Y., Sept. 29.—Cattle—There was only one head sold and no improvement in the situation in price or demand. The market is still dull with a generally uncertain feeling. The supply of cattle is rather light, and the demand is steady at the quoted figures. Choice to extra, \$6.75 to \$7; good to choice, \$6 to \$7.25; common to fair, \$4 to \$4.75. Sheep—Choice to extra, \$4.25 to \$4.50; good to choice, \$4 to \$4.25; common to fair, \$3 to \$3.50. Hogs—The trade was unsettled, and prices generally on a lower basis. A couple of loads of Yorkers and mediums sold early at \$4.00, but after that price was \$4 to \$4.05 and \$3.50 to \$3.60 for the best pigs. Hogs, \$3 to \$3.65. At the close prices were barely steady.
