AT LONDONDERRY HOUSE.

Guests Who Wear Fine Dresses and Jewels Received.

London, March 13.—Londonderry House was again the scene of a brilliant gathering to-night. Everybody regretted Lady Londonderry's absence, as she had left town to recruit after a sharp attack of influenza.

The dresses were gorgeous, and the jewels very fine. Lord Londonderry and his daughter, Lady St. Albans, and the Duchess of Roxburgh, in black, with a profusion of diamonds; the Duchess of Marlborough, in the palest sea green, with many roses of pearls around her neck.

Promptness in Using

Paine's Celery Compound Means Quick Restoration to Health.

IT IS THE GREAT SPRING MEDICINE USED IN THE HOMES OF OUR BEST PEOPLE.

Refuse All Substitutes and Imitations That May Be Offered to You.

If in the spring time people acted with more promptness, decision and wisdom, suffering and misery would be vastly reduced.

To put off the work of regulating and strengthening the nerves, purifying the blood and regulating digestion at this time of the year is a very serious mistake.

Ruinous, weak, nervous and diseased men and women cannot, with safety refuse to take Paine's Celery Compound, the greatest of vitalizers and health builders.

It is of the greatest importance that every sick person should get just what they ask for from their druggist or dealer.

Stylish Coats and the Tailor-Made Gown

Throwing off the fur jacket and putting on of the tailor-made gown—the comfortable and correct thing to wear in fur is the medium length scarf or the long, bob—we're showing a great range of these stylish pieces just fresh from our workrooms—they're a most becoming adornment to the reigning spring modes—and a double argument for buying now is the fact that these lines are the correct things for next winter—and the prices at least a third under value—

YORK COUNTY AND SUBURBS

Special Meeting of Toronto Junction Council Will Deal With Prittie's Suit.

SETTLEMENT TO BE ARRIVED AT

In Which Claimant is to Get \$1750 in Cash and Retain Certain Lands.

Toronto Junction, March 13.—A special meeting of the Town Council will be held at 4 o'clock to-morrow afternoon. The meeting is called to effect a settlement with R. W. Prittie, who has had a long standing suit against the town. Mr. Prittie is a large purchaser at the Junction tax sales, and has lots in all parts of the town. Some years ago, Mr. Prittie purchased a portion of the town. The Council thought the time might come when the municipality would need the right-of-way through these ravines, as an outlet for sewer mains, and as Mr. Prittie had not paid the taxes on the lots, they were again advertised at tax sale. The lots were bought in for the town, and there was a feeling of jubilation when Mr. Prittie allowed the necessary time to elapse in which to redeem the lots, and the Town Solicitor got deeds registered in the name of the town. Mr. Prittie objected to the tax sale, and moved to upset it. He also claimed damage to the property, because of the pollution of a stream by drainage from the Subway. The Council thought Mr. Prittie had no claim. The lots, they said, had not been paid for, and, in any event, they had been legally purchased at the tax sale. So content was the town of the ground, the Council frequently refused to make any settlement with Mr. Prittie, and Mr. Armour, K.C., was engaged as counsel for the town. Recently the town had a private bill before the legislature, and a clause was inserted which makes void all lands sold at tax sales, despite any errors in the sale, and in the case of tax sale, Mr. Prittie objected to this clause in the private bill, as it would have legislative force, and in the case of the town, the clause was not intended to be applied to the town. The Council were thus face to face with the Prittie claim, and the Council frequently refused to make any settlement. It is understood that Mr. Prittie is to receive \$1750 cash; that he will give up his right to land in the ravines; that he will retain the high lands bought by the town; that he gives up his claim to the lands sold by the town to the Union Stock Yards Company, and that that party pay its own legal costs. This settlement will likely be ratified at the special Council meeting to-morrow.

DAIRY CONVENTION.

Harrison, March 13.—A very successful and enterprising dairy convention, under the auspices of the Dairymen's Association of Western Ontario, was held in the afternoon and evening at the Harrison Hotel. The object of the convention was to discuss with farmers the conditions necessary to success in dairy products and best methods to remedy the defects. The speakers were Mr. J. H. Brown, who spoke on cheese and butter; Mr. A. Elliott, Galt, who discussed the bi-products, milk, cream and how to make most out of them; Mr. I. W. Steinhoff, Stratford, who touched on winter dairying, and Mr. Eagle, of Attercliffe on general farming, besides other local speakers. Musical and vocal selections were added to the program.

"The Climbers."

For the second half of this week the play at the Princess is "The Climbers," a most successful and charming drama from the pen of Clyde Fitch, and presented by Miss Amelia Bingham. There is much to be commended, both in the piece and in the presentation. It treats of the struggle for social position, for wealth and for happiness, the desire of one poor man to obtain his first dollar for his family, and his final disgrace. Unsuccessful investments in the stock market, and the loss of a fortune, loomed up large in the life of these seekers for wealth or climbers of the social ladder. The play is being none too pleasant to witness, nor quite usual. The cast is a large one, and the production is of a high order. A most important work falling on Miss Jennie A. Eastman, as Mrs. Sterling, and Mr. Charles Kent, as her erring husband. Their speculations she loses entire trust in him, and the curtain falls on the scene with the husband in the bed of a sleeping draught. Mr. James Carey as Edward Warden entered the role with great satisfaction. There were several exceedingly vivacious and clever women who enacted several bright and fascinating scenes, a vein of comedy running through the play owing to the presence of a charming widow, who marries a wealthy youth she had originally intended for her own daughter in order to repair their shattered fortunes and enable them to retain their position in the world. The production is of a high order, and a snowstorm scene was quite realistic. Altogether "The Climbers" is a play of every class, and a production in this city, bidding fair to notch another success in the list of high-class attractions given at this theatre. There were numerous curtain raisers, the conclusion of every act, Miss Margarette St. John, who played the role of Mrs. Hunter, was a favorite and stellar attraction here some years ago in the old English comedies with her own company. She appeared in the first dramatic performance given in the Princess, then the Academy of Music.

Prince Henry's Son. Berlin, March 13.—Wallenmar, the eldest son of Prince Henry of Prussia, will in a few days go with his tutor to Dr. Sahmann's sanitarium at White-stark, near Dresden. One of Dr. Sahmann's specialties is nervous diseases, but why Wallenmar should be sent to this sanitarium mystifies persons near the court. One such person repeats the gossip that Wallenmar develops slowly mentally. He is 12 years old and physically fine looking. He spends much of his time at home, in his father, when the latter is at home, in out-door sports.
