the Day of Atonement, the greatest fast in the Jewish year. From sunset this evening until sunset of the 22nd the observant Jew neither eats nor drinks, but devotes the day to fervent worship. Yom Kippur is distinctive among Jewish holidays, for it is not associated with nature or with history. It is a day for the searching of the heart to find peace with God.

The fast originated in Biblical times, and is described in the sixteenth chapter of the book of Leviticus. In those days the people fasted and afflicted themselves while the high priest made atonement for the entire house of israel. This atonement was made in ancient fashion by sacrifices, and especially by the symbolic rite of driving the scapegoat into the wilderness to bear away the sins of the people.
