KING WINTER GIVES OFFICIAL WARNING

Icy Blasts and Carpet of Snow
Greets Londoners Today.

A foretaste of the return of winter was afforded London people yesterday and last night, when low temperatures prevailed. With the gloom and dreariness of yesterday, the temperature dropped to only 20 degrees minimum, and during the day attained a maximum of only 40 degrees. Two degrees nearer zero were registered last night, when the minimum temperature was 18 and the maximum only 32.

An ample covering of snow carpeted the streets and sidewalks, and this morning pedestrians and horses, alike taken by surprise, were slipping and sprawling at many icy sidewalks. Bright sunshine streaming from a clearer sky, and rising temperatures, had, however, dissipated all the snow by noon today.

FEAR MEN ARE LOST.

Buffalo, N. Y., Nov. 12.—(Lat. Harv. Colter of the tug Nellie put into Port Colborne last night and reported that he had been compelled to abandon two derelict scows six miles off port when the tug's tow lines parted in a storm. Each scow carried two men. All were from Cleveland.

The tug Georgia, with a lifesaving crew sent out from Buffalo was reported early today several miles off Port Colborne, and it was feared there that they had capsized.

J. W. BRUCE TO SPEAK AT FORUM MEETING

Veterans' Council Asked to
Appoint Members for Labor
Organization.

John W. Bruce of Toronto, general organizer for plumbers and steamfitters, and a member of the labor appeal board, and formerly a member of the industrial relations commission, will be the principal speaker at the next meeting of the Labor Forum to be held on Friday, November 19, in the Labor Temple, 288 1/2 Dundas street.

Mr. Bruce will have as his subject one that is of general interest to all workers, "Housing and Health for the Workers." He will deal with the conditions as they are in Canada, and will advance many plans for the betterment of the social conditions of the workingmen.

The Central Veterans' Council has been asked to appoint three members to the Labor Forum, to represent the veterans, as soldier questions will probably be dealt with at the Labor Forum meetings.

A strong and stringent constitution has been prepared by the committee, which deals mainly with the subjects and the speakers who will be asked to address the gatherings that will be held monthly.

The powers and functions of the committee shall be as follows:

To choose speakers for the meetings

of the Labor Forum. No speaker can be selected for any meeting of the forum whose views on current topics are, in the opinion of the committee, of such a character as to rank that speaker as unfriendly to the interests of organized or unorganized labor.

To select or approve of subjects which are to be dealt with at meetings of the forum. As the purpose of the forum is to assist in the education of the industrial workers, only topics conducive to this end may be chosen for public treatment. All subjects, the discussion of which might lead to racial or religious animosities or might tend to bring about a dismemberment of the ranks of labor, are strictly debatable from consideration at meetings of the forum.

To prepare rules of procedure for the meetings of the forum. These rules must be drawn up in such a fashion that free and open discussion will be allowed to all persons who are members of the audience. The committee shall have the right to appoint a chairman for each meeting of the forum to whom it will give instructions relative to the conduct of the meeting. All other questions connected with the program for each forum meeting shall be arranged by the committee.

To authorize the collection and disbursement of such funds as are necessary to meet the incidental and extraordinary expenses of the Labor Forum.

RESERVOIR COMPLETED BY SATURDAY NIGHT

Few Finishing Touches Yet To
Be Made.

OFFICIAL CEREMONIES
Will Mark Completion of the
Undertaking Before End
of Month.

Concrete work on the Springbank reservoir will be completed Saturday night, General Manager E. Y. Buchanan said today. Only a few more sections remain to be finished and the work on these is being rapidly carried through.

A few finishing touches will then be required before the huge basin is ready to become part of the city's water supply system. A concrete rim will be placed around the top and other minor details added.

Pipes connecting the reservoir with the pump-house have not been connected. This work will require several days. It is expected that by that time the concrete will have "set" in spite of the low temperature, and that it will be ready for the water. Pumping will commence during the latter part of next week. Plenty of water is available. The reservoir is full to the brim and some of the pumps are not running. When all of them are in operation the new reservoir can be filled in a very short space of time. Official ceremonies to mark the completion of the work likely will take place before the end of the month.

MEMORIAL METHODIST

Issues invitation to Rev. J. H. Johnston, Parkhill, to succeed Rev. B. H. Robinson.

The quarterly board of the George Robinson Memorial Church has issued an invitation to Rev. J. H. Robinson of Parkhill to succeed Rev. B. H. Robinson, who goes to Leamington next June. The invitation has not yet been accepted.

Mr. Johnston was a former resident of Fingert, Elgin County, and before going to Parkhill was pastor of the McDougall Methodist Church in Edmonton.

NEW MUSICIANS FOR PRINCESS PATS BAND

Will Take Part in Farewell
Concert at Grand Opera
House Sunday Night.

Several new musicians have arrived from England during the past week to join the Princess Patricia's Band and will be heard at the band concert to be given in the Grand Opera House on Sunday evening under the auspices of the I. O. D. E. The collection to be given to patriotic purposes.

Among them is Sergt. F. Tucker, assistant solo cornet. Sergt. Tucker joined the Royal North Lancashire in November, 1918, and was made band sergeant in 1918 owing to his great ability, and had the distinction of being the youngest band sergeant in the British army. He went to France with his regiment in August, 1914, as bandmaster, and is one of the "Old Contemptibles." In 1918 he was recalled to England to form a band for the Tank Corps, in which position he remained until the end of the war. He was then recalled to England to form a band for the Tank Corps, in which position he remained until the end of the war. He was then recalled to England to form a band for the Tank Corps, in which position he remained until the end of the war.

Another new member is Bandman A. Leamy, double bass. A Leamy was a member of the West Yorks and went to France in August, 1914, and is also one of the "Old Contemptibles," wearing the Mons Star. He was offered a position in the Guard Band, but refused to join the P. P. C. L. I. Band, and has now arrived and will be heard on Sunday.

Still another is Bandman A. E. Gamble, E. Flat clarinet. Gamble was a member of the Essex Regiment Band, and also went to France in August, 1914. He obtained a Knighthall certificate for clarinet and also violin.

These additions to the excellent band of last Sunday will make the program of the coming Sunday evening, still more delightful.

The program over which Mayor E. S. Little will preside, includes: "Supper," "The Program," "Morning, Noon and Night," "Recollections of Gounod," "La Cinquintaine," "Marie," a Spanish Suite by Lacombe, and Rossini's "Grand Military Tattoo." There will also be a solo number by Sergt. R. W. Everson, "The Trumpeter," Airle Dix.

MEETS BROTHER AFTER SIX YEARS IN ARMY

Major D. V. Warner Walks In On
Armistice Day Celebration at
Cronyn Memorial Church.

Armistice celebrations had more than usual significance for the Rev. G. Q. Warner, rector of Cronyn Memorial Church, while he was attending a banquet in the parish house in commemoration of the day, his brother, Major D. V. Warner, who has been overseas since 1914 as a chaplain with the Canadian forces, arrived in the city.

They met for the first time in six years amid the rejoicing marking the second anniversary of the war's end. Major Warner, after being introduced to those present at the banquet, made a short address.

At the outbreak of the war he was at Shelburne, Nova Scotia. He resigned his charge and went overseas with the first Canadians. After the signing of the armistice he remained in England until a short time ago. He will visit for a few days with his brother here and will preach at the morning service next Sunday. He will then proceed to Montreal, where he will be rector of St. Matthias Church.

WORKING DAY FOR MAYOR IS EASILY OVER EIGHT HOURS

E. S. Little in Favor of Chief
Magistrate Devoting Entire
Time to City.

Mayor Little is quite in sympathy with the move to require the chief magistrate of the city to devote his whole time to civic duties and to receive a salary for his services.

"As anyone who has been in the mayor's chair will know, anything like that would make very little difference," he said. "Presumably, as this idea is said to have originated with organized labor, the mayor's working day will be fixed at eight hours. If mayors could be certain their working hours would be limited to eight hours they would hail the change with joy. The aggregate time devoted to city business by whoever is in the mayor's position easily averages eight hours a day and considerably more."

GREAT SEND-OFF IS EXPECTED BY YALE STUDENTS TONIGHT

New Haven, Conn., Nov. 12.—Undergraduate Yale will move as a body from the college precincts to the railroad station tonight as a token of confidence in the football team upon its departure for Princeton. The parade will be of old-time proportions and enthusiasm, if expectations are realized. Class formations will be marshaled by "Y" men, and the university band will lead off. The college will be cheered as the column winds around the buildings before the start, and as each player will get a salute upon arrival at the station. There will be a series of volleys for the team as the train pulls out.

The hard work of the Yale team ended yesterday, and only signal practice was to be carried through today.

MRS. MACSWINEY WILL COME TO U. S. TO TESTIFY

Washington, Nov. 12.—The committee of one hundred investigating the Irish question announced today that it had accepted the offer of Mrs. Mary MacSwiney, widow of the late Lord Mayor of Cork, to come to the United States to testify in the hearings which the committee plans to begin November 17.

Mrs. MacSwiney, the committee said, had been asked to reach the United States, if possible, not later than December 6.

The local drill of students yesterday was taken by more than a thousand at the bowl. Every night for a week hundreds have been singing Yale songs in mass, and at the Harvard game next week a mighty volume of sound will come from the Blue section. Hundreds of Yale men will be in Princeton tomorrow, and old-time vigor will mark the singing and cheering in the air of the Tigris.

SEARCH ABANDONED WELL FOR BODY OF MURDERED WOMAN

New Hampshire Youth Declares Father Killed
Stepmother.

Langdon, N. H., Nov. 12.—An abandoned well on the farm of William B. Whitney, which had been filled with rock and debris, was reopened today by county authorities in a search for the body of Whitney's second wife. The search was ordered by County Solicitor Henry N. Hurd, as a result of a declaration made to him by John Whitney, 15 years old, son of William B. Whitney, by a former marriage, that he saw his father strike down his stepmother in their home four years ago, take her body to the hay mow and later bury it in the well.

W. B. Whitney disappeared from town

BENEFIT OF DOUBT GIVEN TO DRIVER

Taximan Saved From Fine by
Companions.

COULD START CAR
Therefore, Lesser Degree of
Drunkenness Established
in Eyes of the Law.

As there are degrees of drunkenness and it is therefore hard at times for an officer to decide just at what point a man becomes incapable of caring for himself or driving a car, the benefit of the doubt was given to a local taxi-driver when he appeared before Magistrate Graydon this morning charged with driving a car while under the influence of liquor. The case was dismissed after the driver had received a lecture from the magistrate.

Along with two other taxi drivers the man was arrested on Thursday night, while he was driving north on Richmond street, by Sergt. Thomas Noonan and P. C. Thomas Fish. The three men were taken to the station, but as the other two men were not considered drunk enough for a charge to be preferred against them they were allowed to go.

Sergt. Noonan swore that the three men came out of a local cafe and started north before he could stop them. The taximan then called to P. C. Fish, who was down the street, to stop them. The driver of the car refused to get out when the officer requested him, so he was taken out. Sergt. Noonan said that there were many evidences that the man was very drunk.

P. C. Fish corroborated the story of the sergeant.

The accused said that he had nothing to drink since 4 o'clock in the afternoon. At that time he had taken three little drinks at the home of a friend. He denied that he was drunk, and claimed that he was well able to drive his car.

E. W. Flock, appearing for the prisoner succeeded in establishing the fact that the man started and stopped the car in the most approved style. The two companions of the accused were called as witnesses of the defence and corroborated his story.

PROTECTION POLICY REGARDED AS BEST

Tariff Commissioners Take
Evidence At Sherbrooke,
Que.

Sherbrooke, Que., Nov. 12.—The city, local manufacturers, and the board of trade were represented at the session of the tariff commission, which opened its hearings here in the courthouse this morning, and endorsed the continuance of a policy of protection as being in the interests of the city and the surrounding districts. In the absence of the mayor, who is not in the city, Pro-Mayor Tetreault presented the brief on behalf of the city, in which it is pointed out that Sherbrooke owes its phenomenal

Spats! Spats!

The new spats we have just received are carefully designed to fit both low and high-heeled shoes. Colors and materials offer a splendid opportunity for you to satisfy your personal preference.

The year-round use of low shoes has vastly increased the need for spats, and, in so doing, has created more becoming hues and greater variety.

Spats, when properly fitted, are a very necessary article of dress. We realize this, and are prepared to show you the best and the largest assortment, at prices ranging from

\$2.50 TO \$6

Asphalant's
THE GOOD SHOE SHOP

On October 30, after eight years' of residence here, in which he gained a reputation as a solid citizen. In his wake came bankruptcy petitions against him, and charges that he had duplicated mortgages on his home. With the departure of the father, his son, John, went to the county authorities with the story which, he said, he had kept secret under threat of death by his parent.

The family was originally named Donnelly, according to the son, and lived at Madison, Maine, where the mother died. The father was charged with passing a worthless check, is son said, and, calling his children to him, told them he was leaving for the west, and that their names thereafter would be Whitney. He went to Montana and lived there several years, returning east in 1912 with a second wife, and settled here.

For the rest of the season would cost very little and would perhaps save you thousands of dollars. Let us explain to you.

FLOWERS... THE UNIVERSAL GIFT. Dicks Flower Shop

Growth in the past few years to this number of manufacturers located here. This is the means of supplying a great part of the population with employment and generally improving conditions. The markets owe their success, in turn, to the fortunate working conditions that prevail. It is pointed out that the customs tariff is responsible for much of this industrial growth and property, and it is said that any difference in the fiscal policy would mean injury to the manufacturer situated here.

AWARDED NOBEL PRIZE.
Stockholm, Nov. 12.—Charles Edouard Guillaume Brestell, head of the International Bureau of Weights and Measures, has been awarded the Nobel prize for 1920 for physics by the Swedish Academy of Science. His discoveries relative to the alloys of nickel steel won him this honor.
