Chicago Gossip.

Marghall, Spader & Co. to J. G. Beat Marshall, Spader & Co. to J. G. Beaty at the close:

The news of all sorts to-day has been of a very bullish character, at times verging on the sensational. Wet weather in the Argentine, the high prices paid for cargoes abroad, and congestion caused by the large local holdings brought about a sharp rally early to vesterday's high point. It is not remarkable that profits should be taken on these bulges, but we doubt very much whether there is short interest now outstanding that will require anything more than a small proportion of the big line accumulated on the recent advance. 3c to 74c per bushel. Cats—Two hundred bushels sold at 51c. Peas—One load sold at 90c per bushef. Hay—Twenty-five loads sold at \$19 to

the big line accumulated on the recent advance.

Ennis & Stoppani wired to J. L. Mitchell at the close of the market:

Wheat—Closed Ic to 1½c higher. Late action in the market was interfered with by the delay in publication of government report. The early market, was under entire domination of an Argentine scare. There were several cables reporting rains and finally a Broomhall cable which said their agent cables that wheat crop had been badly damaged. The seaboard reported 50 loads going from Boston next week to Liverpool and news from N.W. and Canadian favored the balls. The Modern Miller reported Hes-Apples—Deliveries large, prices easier at \$1.75 to \$3 per barrel. The latter price was paid for a very good sample of spys. Good No. 2 spys sold at \$2.50 per barrel. Poultry—Receipts, light, prices a little firmer. Morgan Wheat—There was a very positive de-mand for wheat at the opening both from shorts and the leading long interest and offerings were very light, causing a rapid advance of over 2c. Liverpool openrapid advance of over 2c. Liverpool open-ed lower, owing to larger speculative of-ferings, but closed a penny higher on further reports of rain in Argentine and small weekly shipments from the latter country. India was reported to have bought more or less wheat from Austra-lla and will not figure this season among exporting countries. Argentine short stocks 258,000 bushels v. 743,000 bushels last year and exports will be restricted by transportation facilities from the interior for some time at least. Domestic position

Toronto trade reports to Bradstreet's say: Wholesalers interested express themselves as well satisfied with the business that has been done on account of the holiday trade. The retail rush is now in full swing, and all branches of trade are fair, altho in some lines there has been quite a falling off in the volume of business doing. The wholesale movement in men's clothing is light, to some extent owing to the fact that retailmovement in men's clothing is light, to some extent owing to the fact that retailers hard pressed for money have been cutting prices and taking all means to reduce stocks. The business in furs, too, has been light. Seasonable weather is helping the movement in drygoods sorting orders, altho it is hoped there will be considerable improvement in this regard about the middle of next month.
