FORETHOUGHT. We expect a higher price in all the merchandise which we buy and sell.

ACTION. We put into the markets of the world (minus those of our enemies), men and means unsurpassed; experienced buyers who were willing and ready to face the dangers of an Ocean voyage, in these tumultuous times, with sinews of money at their command.

RESULT. The combination of circumstances, of thought and endeavor, has terminated in placing in our Warehouse a stock in General Dry Goods, House and Men's Furnishings, an assortment and value which are satisfying the largest and keenest buyers, as well as the smallest. We are now showing a large and better assorted stock in Silks and Dress Goods than we have ever shown in the history of our House, and, therefore, make special mention of some of the textures and weaves at present greatly in demand,
