A NEW EPOCH IN IMPERIAL BANKING

Times Comments on the Appointment of Canadian to Bank of England Board.

London, March 28.—Discussing the nomination of E. R. Peacock, formerly of Toronto, for a directorship of the Bank of England, The Times this morning says that it marks a new epoch in imperial banking, and shows a fresh indication of the keen desire of the bank directors to secure the closer co-operation of business men from the dominions in the interests of imperial unity as well as of imperial trade. One result of the war, The Times adds, was to reveal a gap in the chain of imperial banking unity, which, until filled, must seriously interfere with the exchange of goods and services within the empire.

The Morning Post describes Mr. Peacock's nomination as another break with tradition by an institution noted for its conservatism. Such is the man of large interests, will, The Post adds, bring to the service of the Bank of England a special knowledge of Canadian affairs, and thus form the other link between our central banking institution and the Dominion.

FEDERAL SHIPPING WILL SHOW PROFIT

Disappointment for Those Who Thought Government Merchant Marine Had Deficit.

Ottawa, March 28.—(Can. Press).—A knockout awaits the pessimists who have been confidently predicting an operating deficit for the government merchant marine. Such is the official verdict of the department of marine. Speculation has placed the merchant marine's trial balance in the same plight as that of the National Railways, but the answer received by the Canadian Press today when the question was asked the department was: "There's a great disappointment awaiting those who have predicted a deficit."

Beyond this, nothing is ventured, although from semi-official sources the emphatic statement is that a substantial margin on the right side of the ledger will be announced in the house by Hon. C. C. Ballantyne this week.

INCOME TAX DECISIONS FAVOR U. S. GOVERNMENT

Washington, March 28.—The United States government won a string of victories today in income tax decisions handed down by the supreme court.

Solicitor General Frierden declared the government's position had been upheld completely. The effect of the rulings, he added, was that any gain derived from corporate bonds or capital asset investments was taxable as income, the amount of income subject to such taxation still to be estimated March 1, 1913.

RECORD FOR OPENING OF THE ST. LAWRENCE

Montreal, March 28.—With the arrival here this morning of the Canadian government ice breaker, Lady Gray, the earliest opening of navigation on the St. Lawrence for 40 years took place. The Lady Gray yesterday cracked the great ice bridge which forms at Three Rivers every year and within a few days the river was free. The average date for the clearing of the river is around April 20.

The above photo shows the big three of the club—left to right—Coach Dr. "Billy" Dafeo, Beattie Ramsay, captain and star defence player, and Manager Bruce West. ALL-ROUND MIX-UP OVER REFERENDUM

(Continued From Page 1).

dance. Early in the morning the registration officer had twenty applicants seeking information, but only added two names to his list. In one hour his list contained only seven new names.

Now that the influence of the Easter Monday holiday on both official and public is passed, there is some hope that matters may improve today. Judge Coatsworth said yesterday that his only object was the convenience of the public and to give every person an opportunity to get his vote. When it was found that the registration office was not well placed he would have no hesitation in making a change—but he said nothing about some of the "places" being closed.

As some of the West Toronto residents are complaining that they have to come to the city hall to register, they may find a little comfort in the judge's remarks.

There are altogether 46 revising officers and it is estimated that each registrar can deal with one thousand applicants during the six days of the election. It is expected that there will be 40,000 to 50,000 changes in the lists.

Both the referendum committee and the Citizens' Liberty League do not contemplate that the personal application decree—instead of the name being added to the lists en bloc—will have any great effect on the ultimate number of voters listed. It will, however, prevent a number of under-age youths and girls securing a vote, as it is stated was the case before the referendum. Neither the Citizens' Liberty League nor the referendum committee is, however, taking any of motor cars and are conveying their supporters to the revision courts to make application for their votes.

Closed Down Early.

The revisers for South and Centre Toronto and West York sat at the city hall, but they were not over-pressed by business. Only about 250 names were added to these lists during the day. Centre Toronto taking the majority. So bad was trade with the registration office that the closed down early, promising to renew business in the evening.

The revising officers are placing up notices asking applicants not to take up too much time as they are averaging four minutes to each voter in the hopes that as the work increases every one may be given attention. An instance of this was found in Parkdale, where a citizen took up 15 minutes and was then found to be in the wrong place. At West Toronto revision court there were so many wrong applicants that a man had to be placed at the door with a map to direct the would-be voter to his right division.

At the city hall only 15 names were put on in the first hour. St. Paul's Hall, North Toronto, had 30 votes at

KEY FURNISHED TO TREASURE HOUSE

How Best Aid to Wonderful Information May Be Secured.

What vast and mighty treasures of words full of rich meaning lie locked up in our language—hidden away from common use and enjoyed only by learned few. It is as if, possessing the mineral wealth of Mexico, mined and smelted and ready for the mint, we turned scornfully aside, revealing in a voluntary poverty.

A dictionary constitutes the treasure house of a language. As a people, we needlessly deprive ourselves of the helps at our command. In our daily tasks, not one of which can be performed without the use of words, we possess only the most primitive tools, when we might be equipped with the keenest and most efficient. If the dictionary be the barred and bolted treasure house we have mentioned, then the coupon we print daily in this paper is its key. For we have thus made it possible for every one to own a modern, first-class dictionary.

PROHIBITION OPPOSED BY LORD CHANCELLOR

London, March 28.—Alarm over the prospect of Great Britain going "dry" was depressed by Baron Bickenhead, lord chancellor, while speaking at the annual banquet of the Allied Brewery Traders' Association. He declared that members of the association did not, in his belief, have any cause for anxiety. "As to the apprehension of chance of a general move such as has taken place in America," he said, "I am one of those who do not believe that it is even conceivable a similar change can take place in Great Britain."

"I should most profoundly regret it if any such change did take place, because I am individualistic enough in my outlook, both upon private and public affairs, to resent profoundly attacks against the principles upon which is based the right of one individual to regulate his own private life."

WILL REDUCE WAGES ON ATLANTIC SHIPS

Washington, March 28.—Private shipowners and operators of government-owned ships will meet with the United States shipping board Friday to discuss a new agreement covering wages and working conditions for all classes of seamen employed on vessels on the Atlantic coast. Chairman Benson announced tonight.

All agreements with the men expire May 1 and the chairman stated that owners and operators have signed their intention of not renewing the existing contracts, but to effect reductions in wages, changes in hours and working conditions. Details of proposed changes, he added, will be worked out with the board after conferences between owners and operators in New York and then the employers will meet with the men to consider adoption of the new agreements.

TREND OF INDUSTRY DEFINITELY UPWARD

Detroit, March 28.—Belief that the trend of industry definitely is upward was reiterated here today by Henry Ford. "Indications everywhere are manifest," he said, "that the bottom of the business depression has been reached and passed." He predicted the Ford Company shortly would be operating on a full time production basis. Orders for automobiles, he said, numbered nearly 80,000, or 10,000 more than those for the month just closing.
