The Executive Committee will be glad to receive from the clergy any information or statements relative to Church work in their Parishes which may tend to make the Annual Report of the Society more interesting.

The Committee have the satisfaction of noting a large increase in the return of 1870 for general purposes, from the following places:—Albion Mines, Amherst (being \$54 more than in 1869), Annapolis, Antigonishe, Dartmouth (40.76 more than in 1869), Glace Bay, from which there was no return in 1869, has sent \$104. St. Paul's, Halifax, \$82.44 more than last year, and St. George's \$31.75 more than in 1869. St. Luke's has still further increased its contribution by \$234.53. Liverpool has sent \$30 more than last year. River John, \$11.25 more. Ship Harbor, \$21.67 in advance. Sydney, \$19 more, and from Louisburg (whence no return was sent last year) \$53.

The Committee cannot but regret to notice that the returns have not been made from several places which contributed last year.
