## SUPERIOR PAINLESS DENTISTRY!

"There is a world wide cry against the dentists that they torture their patients. Those of strong physique submit and endure the agony. With a second class this is simply impossible, and thousands of teeth are neglected and lost even though the patients may be able to pay for most skilful services. Then there is a third class who, after months of mental torture in anticipation, finally come into our hands, and, with nerves strung to a hurtful point, pass through the ordeal, but at what a cost! We do not sufficiently consider the consequences of shock in the dental chair, yet undoubtedly many suffer for months and even years from injuries to the nervous system received whilst in our hands."

The greatest duty of our profession today is to discover and adopt a mode of painlessly performing our operations.

NOTE.—The above is an abstract from a paper read by an eminent dentist of New York City before a society of dentists in Philadelphia. The famous Hale Method of painless dentistry, for which we are sole agents for Canada is the best Method on earth in the world today.

## STREET RAILWAY MAKING CHANGES

Re-Arrangement of Office  
Building—Preparing Cars  
for the Winter Service

The St. John Railway Company intend making extensive changes in their office building at the corner of Union Union and Dock streets. The offices will be moved from the ground floor to the second floor and the entire lower floor will be converted into a modern up-to-date fixture salesroom.

The basement floor is being remodelled also and will be devoted to supply business. In this connection, in order to take care of the wholesale supply department, the company is remodeling the Nelson street sheds and connecting them with the basement of the Union street building.

The cashier will have an office on the ground floor as heretofore, for the greater convenience of customers in paying bills. At the rear of the showrooms a darkroom will be fitted up and then fixtures can be shown with lights turned on to enable buyers to get the proper effect.

At the gas house, in the south end, a crew of men are engaged in putting a new slate roof on the big building. The closed cars have all been overhauled and painted ready for the approaching cold weather, and a new wing plow for use at west St. John is in the course of construction at the car sheds.

## SCHUMANN-HEINK CONCERT PRICES

The general impression seems to have gained ground that the price of tickets for the proposed great Schumann-Heink concert are \$50. Instead of this the scale is but \$3, \$2.50 and \$2, with \$1 for standing room and gallery. This brings the great opportunity within the reach of all. The subscription list is now at Landry's music store and should be visited immediately by all those who desire the appearance of Schumann-Heink in St. John. Excursion rates will be offered on all railroads, and out of town subscriptions are eagerly solicited. All communications should be addressed to E. G. Spencer, St. John.

## GETS RUSH ORDERS TO GO TO BRAZIL

O. E. Miller, Deputy American Consul Here, Promoted to Post in Bahia—Away Tonight

O. E. Miller, who has been deputy United States consul at this port, will leave tonight for Bahia, Brazil, where he will assume the duties of consul, pending the appointment of a regular consul by the United States government.

The order, which came as a great surprise to Mr. Miller, was received last night in a despatch from Washington. The consul at Bahia has resigned, and it will probably be some months before a permanent successor is appointed, and in the meantime Mr. Miller will perform the duties of the office. On a new consul being appointed, Mr. Miller will continue at Bahia as deputy consul, which position is a more important one than he has been occupying in this city and is the way of promotion. Mr. Miller will leave tonight for his home in Cleveland, Ohio, and will sail for Brazil on Saturday from New York.

He has been deputy consul here since July, 1908, and has been a popular and energetic official. Speaking to the Times this morning, he said the order had come as a great surprise and, while being pleased at his promotion, he was sorry to leave the many friends he had made during his stay in St. John.

Mr. Moarhead, the consul, said he was very sorry to have Mr. Miller, as he had been a very capable official. He had not yet received word as to who his successor in the office here would be, but he has asked the department at Washington to make an appointment as soon as possible, as it is a very busy time just now.

## THE WHIP IN SOME LIQUOR CASES URGED

Judge Ritchie Comes Out Strongly in the Porter Case in North End

John Porter, in the police court this morning, going to keep liquor for sale on his premises in Main street, and was fined \$50. Policeman Finley, who made the charge, said that he thought the practice had been going on for some time. He had found about thirteen bottles of whiskey, and gin in Porter's house, and these were ordered to be handed to Inspector Jones.

His Honor, in dealing with the case said to the prisoner: "This is a very serious charge, having liquor for sale in your house, and carrying it about on your person, giving it to you, unfortunately on the wharves, streets and probably in the Shamrock grounds."

"I have said that there is somebody in the city who is selling rum unlawfully. This year has been the worst for drunkenness, I have experienced for some time. It is quite a common occurrence to see young lads in knickerbockers drunk about the streets. Time and again I hear of mothers and sisters suffering from the infernal rum, given to their husbands or sons."

"The Hesper government has done something towards stamping out the evil, but I would like to see them go still farther and appoint a magistrate who could deliver a whipping at times."

## AMATEURS IN SATURDAY'S GAMES HERE?

If so There is Promise of Trouble Ahead—Moncton Paper's Statement.

Did any amateurs play in the ball games between Moncton and the Marston? If so there is trouble ahead. The following is from yesterday's Moncton Transcript:—

"Andrew Dunn returned this afternoon from Halifax where he has been attending the annual meeting of the M.P.A.A. Speaking of the meeting, Dunn said that the question of the Moncton ball players going to St. John to try for the maritime championship was brought up and he had been told by President Lidgow that if they played they would surely be suspended. The matter of allowing professional and amateur ball players to compete together came up but nothing was done, the meeting deciding that there should be no relationship between the two."

"A patched-up Moncton ball team, helped out by a couple of St. John players, lost two games to the Marston at St. John Saturday. The Moncton team was intended to have been representative of the city league, but a number of the best local players declined to endanger their amateur standing by playing against the suspended St. John players. As a result, the team which went from here was not as strong as it might have been. Hall and Tommy Howe of St. John helped out the locals."
