MAKING IT PLAIN

A common mistake which some people continue to make is to accept from a druggist an "extract" of cod livers thinking they will get the benefits of an emulsion of cod liver oil. The difference is very great. An "emulsion" contains real cod liver oil, which has had the hearty endorsement of the medical profession for many years, while an "extract" is a product which contains no oil and is highly alcoholic.

Scott's Emulsion is the standard emulsion of the world. It guarantees the highest grade of real cod liver oil, skillfully blended with glycerine and hypophosphites, and is endorsed by good physicians everywhere.

"CARRY ON" IN AUSTRALIA  
Melbourne, March 28, via Reuter's Ottawa Agency—Premier Hughes addressed a meeting of 8,000 people at Bendigo today. The audience was most enthusiastic. His announcement that the question of compulsory service might again be submitted to the electorate was continuously cheered. He eloquently appealed for whole-hearted co-operation of the people of Australia to assist in the conduct of the war with means, money and production. He urged organized efforts to increase the supply of foods and general products to help the empire.

The premier denounced the methods of the labor party caucus, declaring that every loyal Australian felt humiliated because the laborites in the senate had prevented Australian representation at the imperial conference in London. Mr. Hughes announced that the soldiers' vote on the conscription referendum was 72,000 for and 58,000 against. The announcement was loudly cheered.

Mr. Hughes said it was the intention of the government to see that the country's debt to the soldiers was fully paid. Widows and dependents would be provided for, those who could not be employed would be generously pensioned, and those who were maimed would be settled in suitable occupations. The government was now completing machinery for the carrying out of those schemes.

In conclusion, he said: "We stand for government by the people through their elected representatives as against government by secret and irresponsible juntas."

VERY REV. E. DOYLE  
OF MILTOWN, DEAD

For More Than 50 Years a Priest  
—Passed Away at Noon Today

Word was received in the city today announcing the death of the Rt. Rev. Monsignor Edmund Doyle, D.P., of Miltown. Monsignor Doyle was born in Ireland on the banks of the Blackwater, seventy-eight years ago and was ordained on June 29, 1866. He came at once to this country. Father Doyle labored for five years in St. John, fifteen years in St. George and thirty years in Miltown.

On Wednesday, July 13, 1916, Monsignor Doyle celebrated the fiftieth anniversary of his ordination to the priesthood. At that time a public celebration was tendered the aged priest. His Lordship Bishop LeBlanc and a large number of priests as well as the laity of his parish were present to extend their hearty congratulations.

Monsignor Doyle had been in ill health for some time and his death was not unexpected. The older generation in St. John will learn with deepest regret of his passing. He had endeavored himself to all while in this parish—he leaves behind him a memory that entitles about his name a feeling of deep reverence and admiration. The duties of his sacred calling during a long period of service were fulfilled with zeal, energy and devotion.
