All additional K. W. Hours per month @ 2.5c. per K. W. Hr.  
Minimum monthly charge \$1.00 per Horse Power of connected load.

The Above Rates are net, cash ten days. Delayed payment charge five per cent.

To those not now using our service, who would like to take advantage of the above reduction in rates and who do not feel like incurring the expense of wiring their homes, this Company makes the following offer:

We will pay for the wiring and equipping of any residence and will carry the account for such new consumer on the following terms:

10 per cent. of the cost of wiring and equipping in advance and the remaining 90 per cent. in nine equal monthly payments.

THE ABOVE SCHEDULE OF RATES WILL BECOME EFFECTIVE JANUARY 1, 1923

Bills rendered during the month of January, 1923, covering service furnished in part during December, 1922, will be computed by pro-rating the energy used during the billing period, charging December use at the present rate and the balance at the new rates.

In an effort to meet the views of the City we have (1) offered to sell the property at a fixed price (2) offered to submit the fixing of rates to arbitration and (3) offered to sell the property at a price to be fixed by arbitration. None of these proposals having been accepted we now announce a new schedule of rates. We ask you to accept this offer as an evidence of our desire to serve you. We hope it will make you feel that it will prove profitable to you to know us a little better.
