

SENATOR DENNIS LEFT AN ESTATE OF \$761,361

Donated Funds for Chair in
University of Dalhousie.

An estate of \$761,361.55, exclusive of his newspaper interests, was left by the late Senator Wm. H. Dennis, newspaper publisher of Halifax, who died there on July 12, 1920. The will was made just about one month before his death and is being filed for probate now.

The estate includes: Real estate, \$109,800.96; moneys secured by mortgages, \$20,888.35; book debts and promissory notes, \$19,466.09; securities for money, including life insurance and cash on hand and in banks, \$229,874.49; bank and other stocks, \$376,511.96; and miscellaneous assets, \$4,850.

Fifty thousand dollars in realty is situated in Ontario and is located on 167 Carling avenue, Ottawa.

Donations aggregating probably over \$200,000 are given to charitable institutions and to friends who have served him during his lifetime.

Fifty thousand dollars is given to charitable and philanthropic institutions in the city of Halifax, a chair in Dalhousie University, to which he had formerly given \$60,000, is now given another \$40,000. The chair was originally founded in memory of his son, Eric Dennis, who lost his life in the war, and is known as the "Eric Dennis chair of Government and Political Science." Two thousand dollars is also given the library of Dalhousie College.

Hector McInnes and Dugald McGillivray, two life-long, intimate friends of the deceased, are each named executors in conjunction with two others, and for their task are given the sum of \$25,000 each.

Forty-five per cent. of the capital stock of the Halifax Herald, Ltd., is given to his nephew, William H. Dennis, while his son, William Alexander Dennis, not yet of age, is given thirty-five per cent. of the same.

Stuart Robb, is given the remaining per cent. also in trust.

Hiram Weir, an old friend, connected with the late Senator Dennis for forty years in newspaper work, is bequeathed \$10,000, and another old friend, William R. McCurdy, associated with him for thirty years, is given \$6,000. A minor official, John Tudor, with him for forty-six years, is left \$1,000, and Miss Alice H. Houston, who was on the staff for twenty years, is also given \$1,000.

The will.

The will provides: "I nominate and appoint my dear wife, Agnes Dennis, my nephew, William H. Dennis, and my old friends, Hector McInnes and Dugald McGillivray, the executors of this my last will and testament."

"I have named two of my executors, Hector McInnes and Dugald McGillivray, in recognition of their confidence in their ability to render most valuable aid in the management of my estate, as I have discussed with them every detail and also as an appreciation of the sound counsel they have given me in their respective professions, and I hereby authorize and direct that they shall each be paid the sum of \$25,000 as executors, this sum to be paid in lieu of any commission."

To his wife he left the house and furniture on Coburg road, Halifax, and the house and furniture situated on Carling avenue, this city. "I give to my nephew, William H. Dennis, sufficient shares of the capital stock of the Halifax Herald, Ltd., so that with what shares he has at the date of my death, other in his own name or held for him by trustees, he shall become the owner of fifty-five per cent. of the issued capital stock."

"This bequest is made to my nephew in appreciation of his loyal services and tireless energy in relation to this work on the Herald and Mail and in placing these publications in the forefront of newspapers in Canada, as well as his devotion to me and my interests."

The \$50,000 given over to charitable and philanthropic institutions in Halifax were to be distributed according to the desires of his wife, Agnes Dennis, providing only that they were fairly distributed among Protestant, Roman Catholic and Salvation Army institutions.

Relatives of the family were not forgotten. His brother, Albert Dennis of Winnipeg, is given \$1,000; as is his brother's wife, Nina Dennis, another mentioned couple are left \$1,000, and the children of his brothers, George and Fritz are each left \$500. His sister, Jessie Hull, is left \$500; and another sister, Lily Dennis, \$500; and a third sister,

A REMARKABLE BUILDING BOOM

Long Island Expects to Beat
1912 Record This Year—
One Bright Spot.

(New York Times.)

Traffic officials of the Long Island Railroad state that in all probability the record for new buildings on Long Island this year will exceed the former high mark of 9,378 structures erected in 1912. The belief that the 1912 record will be exceeded by the close of 1921 is based on the following two facts:

First—During the last six months the Long Island Railroad has been called upon to move an enormous amount of lumber to Long Island points. In round numbers, the road has handled approximately 8,000 carloads of lumber between January 1 and June 30. In July and August it is estimated that 4,000 more carloads will be delivered, bringing the number of carloads for eight months up to 12,000 carloads.

While the layman may not readily grasp the enormity of this freight movement, and while he may not have the slightest idea how many new buildings 12,000 carloads of lumber will help to construct, the lumber dealer and building contractor know that this is the heaviest consignment of lumber ever received in Long Island; that it represents an expenditure of about \$12,000,000 for this single item of building material, and that it means Long Island is in the midst of an unprecedented boom.

Placed in one solid train, these 12,000 carloads of lumber would stretch out for a distance of over ninety miles, or from New York to Philadelphia on the Pennsylvania system's main line.

Second—The removal of building restrictions this year at Long Beach, and the sale of property to hundreds of individuals and large building operators. It is anticipated, will result in the erection of between 1,500 and 2,000 dwelling houses within the next year. In the village of Queens about 800 houses are now in the course of construction; at Hollis seventy-five more are going up or have been contracted for; all the South Side towns, including Rockville Centre, Baldwin, Lynbrook and Freeport, are the scenes of large building operations.

ICELAND PEBBLES
SEEM STRANGE CARGO

They Are Going to Gold Mines of Porcupine to Aid in Grinding Ore.

Montreal, Aug. 20.—Of the many strange cargoes which have come into the port of Montreal, none have stirred more curiosity than that which has been coming out of the holds of the Danish auxiliary schooner, Danekegne. This particular cargo is composed of pebbles—nice, round, shiny pebbles, 1,500 tons of them.

"Surely," would think the average Canadian, "there are quite enough pebbles in the country already to satisfy the needs of any reasonable being." But these pebbles are not ordinary pebbles. They belong to a special hand-picked variety known as "ice-land" pebbles, and are intended for a special use.

The next day or two will see them on their way to the gold mines in the Porcupine district, where they are destined to assist in the extraction of gold from the soil of Canada.

They will be used in the revolving tube mills to grind the ore in the secondary process, after it has already been through the jaw crushers and stamp batteries and before it passes on to the cyanide tanks. For this purpose the pebbles are said to be more satisfactory than steel balls.

Successful experiments have been made, in various forests of France, in cutting trees by means of electricity. A platinum wire is made white hot by an electric current, and used like a saw. In this way the tree is felled much easier and quicker than in the old way.

Rhinar's Liniment for Burns, etc.

Maude Jefferson, \$500. Five hundred dollars each is left to each of the following relatives: Eric Dennis, Grace Jefferson (niece), Dorothy Jefferson (niece), Wilhelmina Dennis, Lottie Foster, and Maude Cox.

The liabilities of the estate amounted to \$215,906.47.

EDUCATIONAL

Toronto Conservatory of Music

(University of Toronto)
SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., President.
A. S. VOGT, Mus. Doc., Principal.
RE-OPENS SEPTEMBER 14, 1921.
The most comprehensively equipped School of Music in the Dominion.

Highest Artistic Standards. Faculty of International Reputation. Unsurpassed facilities for complete courses of study in all branches of Music for Professional and Semi-Professional Students. Student free privileges include lectures in Harmony, History and Rudiments of Music, Piano Pedagogy, (Normal Class Work), Large Concert Organ and smaller Pipe Organs afford splendid opportunities for Organ Study. Two Concert Halls, Studios, Ensemble Classes, Weekly Recitals, etc.

Well appointed Residence for young women students. PUPILS MAY ENTER AT WOMEN'S RESIDENCE, Calendar and Calendar of the Margaret Eaton School of Literature and Expression will be sent to any address on request.

LOCAL EXAMINATIONS 1921-1922
will be held throughout the Dominion in May, June and July next. ADDRESS—Cor. College St. and University Ave., Toronto.

UNEMPLOYMENT IN FRANCE DECREASES

Paris, Aug. 2.—(Associated Press by Mail.)—Unemployment in France continues to decrease and, as far as the provinces are concerned, the recent crisis appears to have been completely overcome.

The latest figures show that the total number of unemployed in France is 47,266 and out of that number 31,429 belong to Paris and the Department of the Seine, leaving only 15,837 unemployed for the rest of France.

Compared with the census figures, the number of unemployed in France amounts to only 0.1 per cent. of the population.

EDUCATIONAL

ACADIA UNIVERSITY

WOLFVILLE, N.S. Acadia University, Nova Scotia. Departments: Arts and Sciences, Applied Science, Theology. Degrees: B.A., B.Sc., B.Th., M.A., and certificates admitting to the best technical schools. First two years in Agriculture given as electives in B.Sc. course. First year in Medicine, Law, and Theology given as electives in B.A. course.

Equipment: Largest undergraduate faculty in the Maritime Provinces. Three new and splendidly equipped Science Buildings. Modern gymnasium and physical training. Expenses light, and over \$2,000.00 given in prizes and scholarships yearly. Send for calendar to Rev. George B. Cutten, Ph.D., D.D., L.L.D., President.

VULGAR DANCES ARE NOW TABOO SAY TEACHERS

Prof. Sinclair Announces the
Death of Toddle—"Byng
Trot" Latest Step.

(Ottawa Journal.)
"Toddle," that offshoot of Terpsichorean inventions, is pronounced dead. No longer must persons execute the symmetrical contortions of that dance, if they desire to remain "tenth the approving glances of Dame Modesty or Convention." "Toddle," like "Shimmying," is now taboo, and forbidden in dance halls. To "Toddle" is to commit one of the most daring breaches of dancing etiquette, but fortunately its banishment is compensated by the introduction of several new dances, which, however, are most proper.

These new regulations were promulgated at the 27th annual convention of the International Association of Masters of Dancing, held in New York last week, from which Prof. F. H. Sinclair, of Ottawa, returned yesterday.

At its inception the Toddle was considered "quite the thing," but excessive abuse of that particular dance finally had it condemned as vulgar. In keeping with the true art of dancing, the Toddle, therefore, has been banished.

Among the latest importations of American dances into Ottawa, is the "Culture Walk," "Society Walk," and "Tango Trot," all of which are to Fox Trot and Tango. These dances, according to famous dancing masters are amply modest and becoming.

The "Byng Trot" is the most popular dance of today, said members of the Dancing Masters' Association, after visiting the leading cabarets and dancing institutions of New York during the convention. Then there is the "Byng Trot," which also ranks among the latest out. It should prove a winner in Ottawa. Professor and Mrs. Sinclair demonstrated the "Byng Trot" at the convention, and it is similar to the "Society Walk" as demonstrated by New York's greatest ballroom dancer, Arthur Kretlow.

"Dancing masters from all over urged the abolition of vulgar dances," said Prof. Sinclair. "Persons who could not dance, used to attend dance halls and there perform vulgar dances in a pretense at dancing. This is now forbidden and only the most proper and approved dances will be allowed," he said.

The new dances are graceful and stately, which is the true art of dancing, the principles of the minuet and are not difficult.

Classic dances, which appear to be gradually coming into vogue, were demonstrated by Vestoff Serova, Professor of Ballet and Miss Hamer, all famous American dancers.

The convention which Professor and Mrs. Sinclair attended was held at the Hotel McAlpine, New York, from August 8 to 13. About 250 members attended from all parts of the American continent.

HE IS A NICE BANDIT!
HE GETS NEW CLOTHES
Paw Paw, Mich., Aug. 20.—Mrs. Myrtle Rowe, a Cass county church worker, believes she has put a bandit on the way to reform.

While driving with her husband Sunday night they were held up by a lone man who hit Rowe on the head with the butt of his gun. At sight of blood the robber faltered, but finally took an overcoat and \$6. He said he needed both.

"I felt very sorry for the robber, he seemed so nice, and I invited him to our home to have a warm supper and to get some good clothes," Mrs. Rowe said. "I asked him to let me aid him to reform, then he said he could not accept my visiting invitation, but that he would consider the reform solicitation."

Mrs. Rowe's diamond ring was not demanded by the robber.

HAWAIIANS TOOK AIR FLIGHTS LONG AGO

Made Game of Jumping From Cliffs
With Crude Planes Into Sea.

Honolulu, T. H., Aug. 20.—Thrills of dying were enjoyed by Hawaiians centuries before aviation was invented, according to stories told by natives of today. Their ancestors got their aerial excitement by jumping off cliffs into the ocean in home-made "planes." They made a regular game of it, known as "lele pahi," or "jumping from the cliff."

It was played up to a hundred years or so ago by natives who lived near groves of loulou palms near high cliffs overlooking the ocean.

Details of the game have been obtained by William J. Cowbo, a former newspaper editor, now an officer of the Hale on a All Hawaii (House of Chiefs). This is what he says of the vanished sport:—

The game was played with huge contrivances built of light but stout sticks, overwoven with loulou palm leaves. Several of these affairs were made ready, the Hawaiian "aviators" took their seats and were pushed over towering cliffs at the same time. The adventurer who remained longest in the air was the winner. Often through carelessness or excitement a "plane" would execute a nose dive similar to those of twentieth century airplanes. Old Hawaiians say that their flying men were exceptionally skilful. The only means they had of guiding their crude appliances was to shift their weight to maintain balance as they sagged down towards the sea. A fleet of outrigger canoes was anchored off shore to pick up the sportsmen and retrieve the "planes."

Exceptionally during Hawaiians often "hopped off" cliffs on the mainland a thousand feet high, it is said.

TO UNVEIL PEACE GATE
ON CANADIAN BORDER
Dedication of a huge "peace portal" built across the Pacific Highway where

it crosses the boundary line between Canada and the United States at Blain Wash, will take place September 6. T portal was built to commemorate 1 century of peace between Canada and the United States. The dedication will be attended by representatives of the Canadian, French, American governments, as well as hundreds of residents of British Columbia and the Pacific Northwest.

The ceremonies will also include dedication of the Pacific Highway, which runs nearly 2,000 miles south from Vancouver, V. C., across Washington and California to Tinian, Lower California. The Pacific Highway will be paved its entire length by 1922. It is expected, making the first transcontinental road in the nation to hard surfaced throughout its entire length.

To make larger loaves from the same quantity of flour, and more loaves per barrel, use Purity Flour, the flour with the full strength of Western Canada Wheat.

Just as good for cakes and pastry as it is for bread.

PURITY FLOUR

"More Bread and Better Bread"

The Light for Bright Occasions

CORRECT and sufficient lighting is one of the greatest aids to the success of home entertaining. Good lighting will help to express your tastes in decorations—it will enhance the beauty of your furnishings—it will infuse a spirit of good cheer and enjoyment into your parties.

To accomplish these effects you should choose your electric lamps as carefully as you do your other party preparations. Plan now to have always LACO NITRO Lamps for your Bright Occasions.

They are high powered, efficient lamps, producing the quality of light that most closely approximates sunlight. Inside the LACO NITRO Lamp bulb the filament burns in a specially prepared gas instead of in a vacuum, as in other lamps.

Not only does this produce a brighter and more efficient light, but it prevents bulb-blackening, so common in poor lamps.

LACO NITRO Electric Lamps are sold in 50-75-100-150 watt sizes, convenient for household use.

Laco Nitro Lamps are made in Canada. Factory and Head Office—Montreal. They are sold by best Electrical and Hardware Dealers throughout the Dominion.
