ACID STOMACHS

ARE DANGEROUS

Nine-Tenths of All Stomach Trouble Said to Be Due to Acidity
A Physician's Advice on Cause and Cure.

A famous physician whose successful researches into the cause and cure of stomach and intestinal diseases have earned for him an international reputation, said in the course of a recent lecture that nearly all intestinal troubles as well as many diseases of the vital organs, were directly traceable to a deranged condition of the stomach which in turn was due nine times out of ten to excessive acidity, commonly termed sour stomach or heart burn, which not only irritated and inflamed the delicate lining of the stomach, but also set up gastritis and stomach ulcers. It is interesting to note that he condemns the use of patent medicines as well as of medical treatment for the stomach, stating that he and his colleagues have secured remarkable results by the use of ordinary biassed magnesia, which, by neutralizing the acidity of the food, removes the source of the trouble. He contends that it is as foolish to treat the stomach itself as it would be for a man who stepped on a tack to rub liniment on the foot without first removing the tack. Remove the tack and the foot will heal itself—neutralize the acid and stomach troubles will disappear. Irritating medicines and medical treatments are useless so long as the contents of the stomach remain acid; remove the acidity and there will be no need for medicine—the inflamed lining of the stomach will then heal itself. Sufferers from acidity, sour stomach or heart burn should get a small bottle of biassed magnesia from their druggist, and take a teaspoonful in a quarter of a glass of hot or cold water after meals, repeating in fifteen minutes, if necessary, this being the dose which the doctor has found most efficacious in all cases.

TODAY ANNIVERSARY OF BECKER CRIME

New York, July 16—Lieut. Becker and his gunmen in Sing Sing probably remember today, the anniversary of the murders of Rosenthal, the gambler, whose threats to expose the so-called police system of graft made him the victim of the murder plot which Becker instigated.

The year which has elapsed has been replete with even greater exposure of police conditions than might have come from Rosenthal's story, for his death started investigation and prosecution which resulted in a dozen convictions of the police and their allies in their alliances with criminals.

AGAINST SENDING FARMER TO THE PRISON FOR DEBT
Alberta Attorney-General Tells Wholesale Men That Government is Against It

Edmonton, July 16—Hon. Charles W. Cross, attorney-general of Alberta, informed a deputation of twenty representatives of wholesale houses in Edmonton that the provincial government is opposed to re-establishing the law of imprisonment for debt, also that the government would not make more stringent the law regarding debtors. He said it was absolutely necessary that the farmer's occupation be protected; that the primary purpose of the present law was to give the honest settler a chance by exempting his land and stock from seizure in settlement of debt. If the farmer had money to pay, the merchant could recover by the usual methods, adding that a farmer's land and stock were just as necessary to his capacity to earn a livelihood as the tools were to a gaspener.
Under the present certain limit, can not be taken for non-payment of debts.

THE I. C. R. DISPUTE

(Moncton Transcript.)
The pretence that the brakemen are sent back is not because, it is alleged, times are bad on the road, but owing to the permanent substitution of a new class of officials on the express trains and lengthening the trips. The men are unjustly treated. There is talk of a strike but the brotherhood's policy has always wisely been to discourage such. It is a double edged sword, but some times conditions are unendurable. Should however, there be a strike, public opinion locally, where the facts are known, would be overwhelmingly with the men. The ambition of the I. C. R. new management seems to be that of making the I. C. R. surplus two millions instead of one. The difference is made up from two sources, reducing the employment and increasing the freight rates.

TY COBB SUSPENDED

Detroit, Mich., July 16—As a result of his dispute with Umpire Hildebrand, during the Philadelphia-Detroit game, Monday afternoon, Ty Cobb, star outfielder and champion baseman, has been suspended. The dispute between player and umpire occurred in the ninth inning. Cobb, the Athletic's third baseman hit a liner to short centre field. Cobb raced in and apparently caught the ball from the ground, but Hildebrand ruled that the fielder had "trapped" it. Cobb was so insistent that the umpire ordered him from the game.

ANOTHER I. C. R. GRIEVANCE.
It is now the painters of the I. C. R. who have a grievance at Moncton. Recently first class painters were put to work at a seven hour day by order of the mechanical department, but yesterday they were given a chance to work a full nine hour day, on condition that they take second class work, and second class pay. At a meeting last night the men were unanimous in the decision to work only the seven hour day rather than the nine hour at second class work, and for only about 18 cents for the extra two hours.

KILL THE BIG ONES AND WHAT OF THE RACE?

Dr. Jordan Gives Address On Eugenics and War
London, July 16—Eugenics and war was the subject of an address yesterday by Dr. David Star Jordan, president of Stanford University, Cal., at Sunderland House, Mayfair, the residence of the Duchess of Warborough. Dr. Jordan put his point succinctly in these words:
"If a nation disposes in war of its men over six feet high, in time it will not have any men over six feet high. There is no nation which is today what it might have been if it had chosen its best men for survival instead of for slaughter."
"It may be that massacre is less harmful than war in the long run. If we had the skulls of all the men who died in the Napoleonic wars they would make a pyramid upwards of twenty-five times the height of any building in Europe."
"Dr. Jordan concluded with the axiom from Benjamin Franklin that wars are not paid for in war time, the bill comes later."

SAYS HE WAS OFFERED \$25,000 TO MANAGE BOSTON RED SOX
Portland, Ore., July 16—Fleider Jones, president of the Northwestern league, today admitted he had been offered \$25,000 to manage the Boston Red Sox. He will not accept, he said, and added: "There is another American league team in the field for a new manager."

Mrs. Tinker Improved.
Chicago, July 16—Mrs. Joseph Tinker, wife of the manager and shortstop of the Cincinnati Nationals, who is critically ill at her home in Napack, showed a slight improvement today. The physicians in attendance asserted there will be no need for a transfusion operation, for which Tinker expected to come to Chicago unless there is a change for the worse in her condition.

New York, July 16—Former Police Lieutenant Charles S. Becker and his gunmen in Sing Sing prison, today announced that they are celebrating the anniversary of the murder of Herman Rosenthal.
