News from Ottawa.

The Output of Minerals Shows an Increase of Over \$9,000,000

Leasing of Deadman's Island for a Sawmill Site-Mr. Maxwell's Action Approved.

Ottawa, March 2.-D. G. Macdonell, of Vancouver, is here to-day. He says that Mr. Maxwell, M.P., was acting for the best interests of the city of Vancouver when he recommended a sawmill on Deadman's Island. It would be a great benefit to the lumbering classes, and those who objected were in the residential part of the park.

Summary of the mineral product of the Dominion shows the output for 1888 to be \$37,700,000, over \$9,000,000 greater than the previous year. Of this amount \$7,500,000 has to be credited to the Yukon. British Columbia shows a considerable enlargement, and the outlook is excellent.

Major Drummond, military secretary to the Governor-General, is to-day for Washington to represent Lord Minto at the funeral of Lord Herschell.

WRECK OF THE LABRADOR. She Runs Ashore During a Fog and Goes to Pieces - Passengers and Crew Saved.

Taheremory, Scotland, March 2.-An investigation into the wreck of the British steamer Labrador, from St. John, N. B., on February 18, for Liverpool, shows that she ran ashore about four miles from Skerryvore on Wednesday morning.

Captain Erskine, her commander, has sent the following despatch to the agents of the steamer at Liverpool: The Labrador ran on Mackenzie rock in a thick fog at 7 o'clock yesterday morning, four miles from Skerryvore. The ship was caught amidst a heavy sea, and broke in two. The passengers were saved in the lifeboats. The crew were saved in the lifeboats. The Labrador was a good passenger until Sunday, when she struck the bank and lost her bearings. Skerryvore light was mistaken for Inistrahall light on the north of Ireland. Most of the passengers were still in bed when the steamer struck, and there was much excitement, but the passengers were calmed by the assurance of the captain. The boats were lowered without a hitch and all on board left the steamer in safety. The passengers and crew lost everything they possessed. Captain Erskine endeavored to get the boats to the shore, but was obliged to abandon them owing to the vessel breaking to pieces.

The women and children were in the first boat in charge of the British officer. The men were placed in the second boat, under the command of the second officer. The crew of the Labrador then took the other boats, and as they left the steamer was pouring into the sea. At 10 o'clock three and a half hours had expired the boats met the steamer Viking from Norway, which took them on board, though the operation was dangerous owing to the heavy swell, the seas breaking over the Viking's funnel. When the Labrador was last seen she was settling down by the stern.

The passengers of the wrecked steamer are full of praise for the British officers and crew, and for the conduct of the captain of the Viking. The passengers of the Labrador have been accommodated at the hotels here and at private houses.

The owners of the Labrador have caused a tug and divers to be despatched to the scene of the wreck in order to salvage the cargo of the steamer.

THE LATE LORD HERSHELL. No Arrangements Have Yet Been Made Regarding the Funeral of Deceased.

Washington, March 2.-Beyond a distinction to hold the funeral service in St. John's Episcopal Church sometime on Saturday afternoon, nothing has been determined regarding the funeral service over the late Lord Herschell.

The chaplain of the senate, in his invocation at the opening of today's session, paid a tribute to Lord Herschell, the shell of the high commission, who died in Washington yesterday. The prayer was ordered to be printed in the record.

INSANE MOTHER'S CRIME. She Commits Suicide After Forcing Her Three Children to Drink Laudanum.

Portland, Ore., March 2.-At Montaville, a suburb, Mrs. Laura Bryson, aged 30, blew out her brains after taking a dose of laudanum and forcing her three children, aged 10, 11 and 2, to take the drug. The two older children will probably recover, but the two-year-old child is likely to die. It is said that twenty drove the mother insane.

FATHER'S CHARGES ANSWERED. Perth, Ont., March 1.-Replying to Sir Charles Tupper's attack on the Canadian commissioners at Washington, Hon. Robert Sifton said in his speech last night that he did not know what more Sir Charles would have unless the commissioners had slammed the door which they went away. Hon. Mr. Sifton said when the general election came the Liberals would show a record of a billion and a half to the good of the country for their term of office.

REVISION BILL ADOPTED. Perth, March 1.-The French senate has adopted the trial revision bill.

A COLORADO BLIZZARD.

Many Railroads are Blocked-Families Living On Snowed Out a Day.

Leadville, Col., March 2.-Following a heavy snow fall for the last two days a furious blizzard set in, and has been in progress for 24 hours. Trains on the east got in with difficulty, and the railroads are blocked west of this city. The south park line and the Blue River roads are hopelessly snowed under and may not be opened for a month. A number of families in the interior are living on one meal a day, and that consists of bread, potatoes and water. No coal is to be had, and people are digging timber out of the snow and cutting it up for fuel.

For Senate Reform

Premier Hardy's Views on This Important and Much Discussed Subject.

He Proposes That Members of Both Houses Should Vote on Disputed Points.

Toronto, March 2.-In the legislature yesterday afternoon Premier Hardy gave notice of the following resolution: "That in the opinion of this house the provisions of the British North America Act respecting the constitution and powers of the senate of Canada are at variance with the well understood principles of responsible government, and should be brought more in harmony with these principles by an amendment to said act, substantially providing that in the case of a disagreement between the House of Commons and the Senate the point of difference shall be decided by a majority of the members of the two houses present, and voting in a joint meeting; further, that in the case of a tie in this house that the British North America Act should be so amended as to provide that the appointment of senators should be for a limited term of years, and not for life, as at present."

AGUINALDO'S TERMS.

He Will Release Spanish Clerical Prisoners if Their Property is Transferred to the Natives.

Manila, March 2.-It is reported that Aguinaldo will only release the Spanish clerical prisoners upon condition that all landed and other properties that they own shall be transferred to the rebels, and also that native priests shall be recognized.

Last night 12 rebels in two canoes were discovered paddling out from Parangue, and the rebels' searchlight was turned on them. The searchlight was taken off, and the rebels attempted to cross the bay, but a patrol overhauled them after a chase and took them prisoners to Manila.

Manila, March 2, 5:30 p.m.-This was the hottest day of the season, but fortunately all was quiet both inside and outside our lines, and the majority of the men kept in the shade. The United States transport Morgan City has arrived, but the wives of the officers and other women passengers were not allowed to land, the authorities considering the condition ashore too unsettled.

THE NEW ALLIANCE.

Paris Journal Sees a Bond of Union Between Britain, the United States and Germany.

Paris March 2.-The Temps in a leader to-day points out that there is a stronger bond between Britain, the United States and Germany than Frenchmen care to admit. The papers says the forbearance of Americans toward Germany in face of certain provocations and Germany's evident desire to make amends for her former appearance of hostility are indications of this. The article concludes with the warning that in view of the above it would be a dangerous undertaking for France to direct her policy towards a European coalition, against Britain and America.

SHE RECEIVED POISONED CANDY. New York, March 2.-The police of Brooklyn are to-day endeavoring to unravel a mysterious case. Miss Marie Ethel Timpany, a 17-year-old girl, received some candy and Cologne water, but became suspicious, and thereby saved her life. An examination showed that the candy contained poison, and the Cologne water vitriol. A curious feature of the case is that the candy was found in Miss Timpany's door and notices of her death were published in the daily papers.

TRAIN OVERTURNED. Two United States Soldiers Killed and Six Injured.

Jackson, Tenn., March 2.-News has just been received of a disastrous wreck near Tupelo, on the Mobile and Ohio railroad. Six cars loaded with soldiers overturned and two were killed and six others seriously hurt.

FATAL MINE EXPLOSION. Wilkesbarre, Pa., March 2.-An explosion of gas occurred in No. 2 shaft of the Edgemoor Coal Company's pit last night. David A. Thomas and Harry Evans were fatally burned, and W. Shadrack was probably killed, as his body has not been found. Thomas and Evans cannot recover.

Kipling's Condition.

He is Progressing Favorably and His Friends are Confident of Recovery.

Sad Domestic Afflictions-His Two Little Daughters are Stricken With Illness.

New York, March 2.-There were indications about the Kipling household early to-day that the physicians and friends of Rudyard Kipling were feeling a degree of confidence not hitherto experienced that the sick man is progressing toward recovery.

Dr. Janeway left the hotel about midnight and had not returned up to eight o'clock this morning.

Drs. Dunham and Onland remained in the hotel, but did not visit the patient's apartments during the night. Of this nurse was with Mr. Kipling throughout the night.

F. N. Doubleday, who had been a close watcher by the bedside of the poet, retired to his own room shortly after midnight to rest, remaining away from his self-appointed post up to the time of the present writing.

No bulletins have been issued since midnight. The following unsigned bulletin was issued at 9 a.m. "As no rapid change is expected in Kipling's condition a bulletin will not be issued until after 2:30 p. m. to-day, after Dr. Janeway has been in consultation."

Mr. Doubleday came down soon after the bulletin was issued. The author was enjoying a natural sleep. The signs of recovery which were very encouraging. All had been fairly quiet in the room last night. The patients' wants were few.

Illness of Kipling's Daughters. New York, March 2.-Mr. Doubleday this morning announced the serious illness of two of Mr. Kipling's children. They are the two girls, Josephine, six years old, and Elsie, three years old. Josephine was taken sick the day after her father, and she has now been ill for nine days. She has pneumonia and has been in a somewhat serious condition. Elsie immediately became sick and was taken from the hotel to the house of a friend. There Dr. Janeway has been visiting her and treating her. Though she is not in great danger her condition is serious. Elsie had a bronchial affection the day before yesterday, which was pronounced bronchitis. Now it is pneumonia. She was isolated from her father's apartment and taken to a room in another part of the hotel. Her mother was allowed to visit her. The child's condition is not at all good, but Dr. Conrad has been treating her since the beginning of the illness, and she is not dangerously ill.

The boy, John, two years old, the youngest of the family, has not been allowed to visit either of his sisters or to enter his father's room. He is very well and shows no signs of any illness.

Latest Bulletin. The following bulletin was issued at 2 p. m. "Mr. Kipling has made satisfactory progress. He is comfortable, though weak, and a resolution is taking place in the affected portions of the lungs."

Dr. Doubleday said that at this time the children were getting along nicely.

TORAL'S REWARD.

He is Arrested on a Charge of Capitulating to General Sarter at Santiago de Cuba.

Madrid, March 2.-General Toral, who commanded the Spanish troops at Santiago de Cuba, has been arrested and imprisoned previous to being tried by court martial on a charge of capitulating to General Sarter on July 14 last.

PNEUMONIA SERUM DISCOVERED.

Berlin, March 2.-Prof. Wassermann, one of Professor Koch's ablest pupils, is believed to have discovered a new serum for the cure of pneumonia. He inoculated rabbits with the pneumonia bacillus, which is generally believed to cause pneumonia, and with the serum thus gained he inoculated mice suffering from pneumonia. A subsequent series of experiments showed that the curative substance was in the red marrow taken from a human corpse after death from pneumonia, used as a serum. It is alleged, it was cured, infected with that disease. It is hoped this serum will have the same satisfactory results in human beings.

CHARGE AGAINST MOLINEAUX.

The Hearing of the Case Has Been Postponed for a Week.

New York, March 2.-Roland Burnham Molineux, indicted on a charge of murder in the first degree for the killing of Mrs. Katherine J. Adams by sending poison to Harry Cornish, was brought from the toms into a part of the general sessions court this morning for arraignment. The court was packed with people anxious to get a glimpse of him. Mr. Weeks, his counsel, asked that one week's time be given the defense before pleading. His application was granted.

DROWNED IN THE HARBOR.

The Body of an Unknown Sealer Found This Morning.

Constables Redgrave and Moutatt, and W. J. Hume, the undertaker. An inquest will be held to-morrow on the body of a sealer, in fact, as the corpse can be identified.

The only article which lives any clue to the man's identity is a pass book issued by E. Porter & Sons to Jesse Bousquet. This had been used by the deceased, and among the entries are the following: "Shipped on W. P. Seward, Jan. 20th, 1895. Reached Bonin island April 4th. Lowered boats for first time and got two seals, April 7th." Then follows a "consecutive record" of the catches until the 15th of May, when the deceased must have been a hunter on the W. P. Seward during that year. He had \$2.50 in his pockets, wore a dark coat, vest and pants, and a flannel shirt and a tie. He wore a pair of heavy boots. His hair was thick and black, prompting the supposition at first that he was a swish. The face was almost entirely gone from the action of the water, showing that the body had been in the water for some time.

THE POPE'S ILLNESS.

Roman Pontiff Passes a Good Night and is To-Day Without Any Pain.

Rome, March 2.-The Pope passed a good night. He took a little soup and brandy at midnight and then fell asleep. The fever increased somewhat during the night, but Dr. Lapponi says this is natural, and that sleep will restore the patient's strength. Dr. Mazzoni will dress the part operated upon this morning, although the condition of the Pontiff is not considered grave.

Cardinal Ledochowski, the prefect of the congregation of the Propaganda Fide, consulted yesterday with Cardinal Santo Stefano, dean of the Sacred College, and Camerlengo, of the Holy Roman church and prefect of the Congregation of Ceremonial, and Cardinal Metelli, vice-chancellor of the Holy Roman church, and first cardinal deacon, who, in connection with Cardinal Ledochowski, according to the apostolic constitution, would resume the government of the church in case of the Pope's death.

The following bulletin was issued at ten o'clock this morning: The Pope passed a tranquil night without pain, and slept as well as usual, taking nourishment. His respiration and circulation and digestion are normal. The wound has been dressed, and everything is taking the most regular course.

Later-The Pope's condition at 2:40 p. m. to-day is satisfactory. The circulation of the wound has commenced. The patient is much better and there is no fever.

A large number of additional inquiries and telegrams have been received at the Vatican from all parts of the world, expressing sympathy with His Holiness.

FROM VANCOUVER.

Floods in Cariboo-Another Volcano Story-Steve Tingley's Narrow Escape.

Vancouver, March 2.-A report received by the Province from Lac la Hache states that Steve Tingley, partner of Captain Irving, of Victoria, who was engaged securing several hundred horses for Atlin, has been seriously injured in a runaway. He was thrown from his center on the summit of a steep hill and rolled over a precipice, falling 50 feet. The deep snow saved him from being killed on the rocks below.

The inhabitants of the valley believe they have a veritable Vesuvius on a small scale right at their doors. Several days ago they noticed that the snow was melting on the sides of an unexplored mountain, as though a Chinook wind had licked it up. This phenomenon was accompanied by smoke or steam, which rolled in considerable volume from the top of the mountain. In itself, this was not so terrible, but when the inevitable result followed, the overflowing of the streams, which drain the valley, even the oldest inhabitants began to look at the matter in a serious light. The Moffat, Horsely and one hundred and eleven creeks and the Quenselle river are overflowing their banks, and the impression is rapidly gaining ground that destructive floods may occur at any time. Many outbuildings along the above named rivers and creeks are now submerged in the water. As the hills are covered with a number of families moving to the upper stories of their houses. Miles of the road from Horsely and Quenselle forks are covered by about 38 inches of snow on the level. It is believed that the snow here is very deep, and will be buried in Victoria, where his daughter is interred.

An English syndicate is said to be negotiating to purchase the Star Cannery at Stevenson, the Bessac Cannery at the North Arm and McMorrans & Castello's cannery.

FRENCH NAVAL MANOEUVRES.

Toulon, March 2.-Plans are being made for a series of elaborate manoeuvres by the French Mediterranean squadron shortly. They will include a surprise attack on Corsica.

QUEEN OF BELGIUM ILL.

Brussels, March 2.-The Queen of Belgium is gravely ill. Her Majesty is suffering from bronchial pneumonia.

Smart Weed and Belladonna, combined with the other ingredients used in the best Backache Plasters the best in the market. Price 25 cents.

Two sailing vessels have since last evening been towed into the Royal Roads. The Lorne brought in the British ship Flyodale, from Yokohama, after a comparatively good passage, and the Holyoke brought in the big British ship Drumbarton, Capt. Sparring, 163 days from London. The Flyodale is seeking and the Drumbarton brings a heavy cargo of general merchandise for Victoria and Vancouver merchants. Both vessels have been delayed off the Cape for several days by the rough weather.

This evening the familiar looking crowds of bluejackets will again be seen on the city streets. For the flagship is back from Comox and a general leave will be given her crew.

News Notes From Atlin

At the Orders of the Gold Commissioner All Building Has Been Stopped.

Parties Arriving at Atlin Daily From Teslin Lake and District.

(Special Correspondence of the Times) The Atlin of to-day has not the same busy time it had last week, before the arrival of the order from the gold commissioner, to the effect that all building must be stopped. The order was imperative and the citizens lab abiding, so all work has stopped, and the consequence is that many men are idle, many are suffering incalculable loss for want of shelter, and are obliged to live in tents. Tents are good enough on the trails, where nothing else can be obtained, but when one gets into a place like this, something better is expected, and when it cannot be had there is generally a little kicking. Cabins, small, smoky ones at that, are in big demand at \$20 or thereabouts, per month. Little work is being done on the creeks, especially at the new discoveries. A few men are working on Pine and Spruce, engaged principally in whipsawing lumber and preparing for summer.

Frank Franson has a small gang of men stinging on Spruce, and from good authority has been learned that he averages \$12 per day to the man.

Quite a number are said to be prospecting on Cariboo creek, 46 miles south of Atlin, and it is said, have fair prospects.

There seems to be no doubt but that this section of the country is all that it has been represented to be; and what Atlin district wants to-day is a large number of Canadian men, willing to venture out and prospect for new discoveries. There is room for thousands and it is the place where many a young man may make his start in life. Wages are bound to be good this year, as foreigners are barred from working the claims. At present wages for common laborers range from \$3 to \$6 per day, but from all indications are liable to go up very soon.

Dr. Munroe, the provincial health officer for this district, arrived here to-day, increasing the number of physicians in the district to three.

Food and clothing have gone down considerably in price during the last week, owing to the arrival of several teams, which came over the Toochit trail from Lake Galena, and over the Cariboo. Quite an effort was made by the people of Juneau to boom that route, and Fritz Miller, the discoverer of Pine creek, was induced to make the initial trip, which was accomplished in 32 days and was successful.

This, we believe, has given that way a black eye, and a deserving one, too, and now we hope that people will have sense enough to take the well-beaten and established trail from Skagway or Dyea in preference to any other.

Several parties are arriving daily from Teslin lake, hardened by weather, and with frost-bitten faces. They do indeed look pitiful. They are men, we must own them, have been on the road for nine months, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they are informed that their provisions are all gone, and that they must make their way to the coast, and in some cases nearly a year working hard, packing and pulling their provisions over a thousand miles of country and when they arrive here at Atlin they
