Admirals Have Decided to Hold Li Hung Chang on Board

Until the Powers Have Opened Negotiations With the Chinese.

Situation at Amoy is Causing Alarm and Japan Has Landed Troops.

(Associated Press.) London, Aug. 27. - International troops, resuming aggressive operations, have taken the district west of Pekin. This statement, based on Chinese auth-

"Evidence has been received here," says the Shanghai correspondent of the Standard, "going to show that General Yung Lu was the real author of the antioreign outbreak, the Empress Dowager, Prince Tuan and the others all having peen persuaded by him to take an extreme attitude, while he stood aside and

awaited developments." American refugee missionaries Amoy, according to the Hongkong corespondent of the Daily Mail, are anxous to return to the interior, but the United States consul has forbidden them do so, and urges them to go to the Philippines or return to America. Advices to the Daily Mail from Shang-

Paris, Aug. 28.-A special dispatch to Siecle from St. Petersburg says: "It s persistently rumored that the Russian government has received dispatches aserting that, after a fierce battle inside Pekin, the allies retreated, losing 1,800 mostly Russians. It is further said that the Chinese occupy fortified positions, from which they are bombarding

the allies in a murderous manner."

Dispatch From Conger. Washington, Aug. 27.-After several days' intermission in Chinese advices, the government to-day received two dispatches, which bring its advices up to the most recent date.

There are indications that the principal delays in the lines of communication are encountered between Tien Tsin and Pokin-a fact explainable by the newspaper advices that small bands of Boxers are ating on the line of communication of the Pekin campaign force. The fact that more than a week was covered by the last interruption gives rise to the belief here that these attacks upon lines of communication by the Boxers are more favorable than was supposed to be possible after the heavy losses inflicted upon them by the international force 'n its advance. He says the entire city between the marble bridge, the Imperial palace and Pei Tang bristled with entrenchments, desperately defended by heavy Chinese forces, and that the most difficult and exhausting street fighting was necessary to dislodge the enemy. Throughout the day M. Pichon, the French minister, and the legation staff marched beside Gen. Frey. Finally his columns occupied Charbon Hill.

The French had four men killed and two officers and three men wounded. The Russians and Japs also suffered. Gen. Frey pays a high tribute to the courage of the troops who accounted for more than five hundred Chinese dead left on the field.

The administration considers it of the greatest importance that in the negotiations for the settlement of the Chinese difficulties all the powers should act in powers, however, are slow to declare

themselves. The attitude of the United States is that Li Hung Chang's credentials to treat with the powers appear authentic. They were promulgated by what appeared to be a genuine imperial edict, duly transmitted through the accredited Chinese minister, Mr. Wu, and the United States is willing to accept them at their face value, at least for the present.

The administration, from the advices the Chinese receive, do not credit the eral Corbin has received a dispatch from rumors that Russia, Japan and Germany intend to declare war against China. Just what would be done in case some of the powers began war for the purpose of territorial aggrandisement is not known, and the administration is not disposed to cross that bridge until it reaches it. But a member of the cabinet stated to-day that if any of the European powers entered into such a programme, it probably would be rehinded by the United States that it had agreed to the "open door" policy, by which all the powers are to be placed in the matter of trade, etc., as the cor

The cabinet came to the conclusion that if any Chinese persons have interfered with the dispatches, the interfer ence must have occurred on wires b tween Chee Foo and Shanghai, as it was determined to re-open direct communication by means of a war vessel. Either the New Orleans or the Princeton, now at Shanghai, will be sent at once to Chee Foo, where a military cable system begins free from Chinese interference.

The administration has nothing tending to confirm the alarmist rumors regarding the situation at Pekin. Admiral Remey reports nothing disquieting, and it is assumed that if there was any prospec of the allies being attacked and hemmed in he would be in a position to hear o it and would promptly report it to Wash-
