DR. TELFORD APPEAL CASE IN FULL COURT

when common soap is used. Arguments Presented at the Vancouver Sitting by Counsel-Judgment Has Been Reserved.

All day Friday was occupied by the Full court in Vancouver with a continuation of the arguments in the appeal from the judgment of Mr. Justice Mar-rison confirming Dr. Telford in the possession of his certificate. E. P. Davis, K. C., and A. E. McPhillips, K. C., of The Lieut.-Governor expressed his gratitude, and said that the day would always be remembered by him with pleasure, and it would be associated in

On Thursday Mr. Davis quoted authorities to show the powers of a medical board to strike off names from the association, and also the right of appeal.

Ar. Martin pointed out that when this Mr. Martin pointed out that when this matter first came up at the coroner's could be struck off the list. the president of the country, the data of their country. He felt proud to think jury, some of the evidence taken in ney-general, Mayor Buscombe and all the first country. He felt proud to think the members of the Vancouver city that the work on the tunnel had been that the work on the tunnel had been grouncil, representatives of the New Westminster council, members of bench and bar, and leading representatives of would make capitalists in the outside that the work on the tunnel had been properly signed done by people in the province. Such feats made him feel that the province had a proud future before it, and it would make capitalists in the outside that he had only suggested that the offence might be created as a crime, and a crime could not be properly signed for the evidence taken in shorthand had not been properly signed done by people in the province had a proud future before it, and it would make capitalists in the outside that he had only suggested that the offence might be created that the was, however, quite willing to drop the word crime. He was westminster council, including representatives of and bar, and leading representatives of all the professions. industries and comevidence was inaccurate. Mr. Davis said that Mr. Martin's

> point at all. The gist of the case from his standpoint was that Dr. Telford performed a fake operation on a Vancouver lady, and had afterwards concealed the condition of the patient, a girl under age, from her parents. He quoted from a witness's evidence to show that the girl expected her father to pay for her treatment, which proved that she depended on her parents. He then related the crime by concealing the knowledge of the attempted abortion. It was not am Still he must have known that the resua a good-hearted act, the question was course of justice. simply a matter of law. It might be easily argued that an abortion was quite justifiable morally, but that did not excuse it in the eyes of the law. The medical profession ought not to be made a to save her name from disgrace, and he

tool for the concealment of crime. Resuming Friday, Mr. Davis continued his argument in favor of sustaining the decision of the medical council by read-ing extracts from the police court depositions of the witness McHarg. In answer to an objection from the bench that this evidence was not pertinent to to Sir Henri, saying to the crowd assembled along the banks of the dam below, that it was unnecessary to intro
Mayor Barnard said he felt at a little that this evidence was not pertinent to the present charge, Mr. Davis said he merely wished to show the danger of operating for appendicitis in order to con-

He had the Supreme court judge or the Full For his own part, he said a little later,

tunnel, the 200 people present raised a long, loud cheer.

When the stream had atfained its maximum, it half filled the tunnel.

Later luncheon was served. For it everything was arranged with admirable taste. Rows of evergreens and strings of flags added gaiety to the unwonted scene in the mountain solitudes. The place of each guest had been numbered and kept for him, and 200 sat down at the three long tables without crushing and kept for him, and 200 sat down at the three long tables without crushing and kept for him, and 200 sat down at the three long tables without crushing and satisfactions.

In the first place, the company must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they must win the respect of the men, by living true to their obligations, and they was really done by her request, and their judgment in the matter seemed to be of deceiving his patient, when it was really done by her request, and their judgment in the matter seemed to be views of the medical council as to was really done by her request, and their judgment in the matter seemed to be views of the medical council as to was really done by her request, and their judgment in the matter seemed to be views of the medical council as to was really done by her request, and their judgment in the matter seemed to be views of the same.

Tae court rose at 1 p.m. When the court reassembled, Mr. Martin took up the argument again, appealing to their Lorships to pronounce judgent on the case unbiased by the decision Premier, the members of the cabinet, gether and discuss matters and try to adjust them in a reasonable way.

Mr. Buntzen concluded by expressing to the Sanitarium guite independently of the Sanitarium guite independently of to the Sanitarium quite independently of her parents, that wr. Telford had no relations with the parents, and, therefore was under no obligation to reveal the girl's condition to them. He read from her lady friend's evidence to show that an hour and a half before going into the that her parents knew nothing about her Mr. Justice Duff said it seemed to him

that Dr. Telford had acted throughout n a way that would cast an imputation on the medical profession; at least such seemed to him to be the view taken by the medical council.

Mr. Martin said he would take up and criticise separately the opinions expressed by members of the medical council. It seemed to him that they had all along confined Dr. Te ford's duties towards his patient with his professional obligations. Mr. Martin continued that his learned

cod liver oil makes the stomach groan because it is irritating. Is the name given to Dr. Pierce's Compos have been sold. What is needed is an alterative extract made of roots and herbs, without the use of alcohol, that will assist the stomach in assimilating or taking up from the food such elements as are required for the blood, also an alterative that will assist Dr. R. V. Pierce, Buffalo, N. Y.

HOMAS A. EDISON, the inventor, in mapping out the problems of the future, gives first place to the necessity of fighting the bacteria which gives us our diseases. Next to the actual bacteria of disease, the mosquitos and flies are the most dangerous enemies of man. The mosquito with its bite injects into our veins malaria, yeland other fatal troubles. The fly with sponger

The bacteria of influenza, or grip, is shown on the right. These little organisms can point to victories by the million, which lie in such numbers in our cemeteries. Thus far scientists have not been able to fight these bacteria very well. The best thing we can possibly do individually at present is to keep ourselves in such a state of health as will enable us to fight the bacteria with our own vitality.

GOOD RED BLOOD OUR AMMUNITION.

The blood which flows through our veins and arteries should contain healthy red blood corpuscles which are capable of warding off the attack of the disease germs if they get into the system. While we keep our blood in good condition and our little army of fighters in order we can resist fairly well the attacks from the outside. In preparing ourselves

well the attacks from the outside. In preparing ourselves against bacterial attacks there are many important things to be thought of—proper nourishment of the blood, nerves, lungs, heart and liver. Important to us is proper food for the to be thought of—proper nourishment of the blood, nerves, land signature of the individual volunteering that publings, heart and liver. Important to us is proper food for the stomach, pure air for the lungs, exercise and cleanliness at sands which they are constantly publishing attesting the

ont of the food eaten, we at once weaken our deriested forces and the germs of catarrh, consumption or grip readily enter.

Dr. Pierce, the eminent physician of Buffalo, N. Y., says, "if each person will consider his system as an army of men which he controls as a general, and will see to its proper provisioning and that it has plenty of ammunition in the shape of good red blood, he will be able to overcome the enemy in the shape of the germs of disease." Every healthy person has five million red blood cells or corpuscles to corpuscles in the average human being is so great that it is almost incomprehensible. However, their numbers increase with health or decrease with illness or mal-nutrition. The best tonic for increasing the red blood corpuscles and building up healthy tissue is no doubt Dr. Pierce's Golden Medical Discovery. This medicine has been on the market for over third of a century and numbers its cures by the thousand.

A tonic made up largely of alcohol will shrink the corpuscles of the blood and make them weaker for resistance. A cod liver oil makes the stomach groan because it is irritating. "My husband contracted a severe cold last winter, result
