New Brunswick,

North eastern Division,

Richibucto February 8th., 1902.

Sir:-

In reply to official letter of 8th., instant I beg to state that no work has been done at the Burnt Church Public building on my authority. You have either misunderstood my letter or I have not expressed myself clearly. The work that has been done to this building was done by the Indians themselves, with the intention of finishing it at their own expense. Afterwards when they found they would be unable to complete it, they made application for the assistance already referred to. The work done as mentioned in my letter was that done by the Indians previous to this application.

Your obedient servant,

John A. Carter

Indian Superintendent.

The Secretary,

Department of Indian Affairs,
