EXHIBITS OF LIVE STOCK

TO BEGIN TO ARRIVE TODAY

All Entries Expected to be in Place by Nine O'Clock Monday Morning—Last Day of Preparations for the Big Fair

The exhibits of live stock will continue to arrive at the exhibition grounds tomorrow, and the space devoted to this very interesting part of the show will be rapidly filled. All entries are expected to be in place by 9 o'clock Monday morning. Several large herds of cattle that were a feature of the Halifax show will be entered here, and they will arrive by train either tomorrow night or Sunday morning. The poultry exhibits will all be in place tomorrow night, and as more than a thousand birds will be shown the building where the feathered folk hold forth should be a place of great interest. Some of the agricultural exhibits have already arrived, and more will doubtless make their appearance tomorrow, and all will be on show at an early hour on Monday.

Everywhere about the buildings can be heard the sound of hammer and saw as final preparations are being made. Out on the grounds men are busy at the fireworks shed getting the frames built for the big set pieces. It has been found necessary in order to have the big tank ready for the diving horses for the men to work day and night, and last night pick and shovel were kept going steadily, the work being carried on under the light of a big electric lamp. The digging has been found to be extremely difficult owing to the nature of the material encountered, a lot of solid masonry wall having been one of the obstacles, and the steady flow of water from a spring that was tapped being another. The workmen are now down about six or seven feet, but it is necessary to go to a depth of twelve feet before the work will be complete. All will be in readiness, however, for the first dive of the horses on Monday afternoon at 5 p.m.

WHOLE COUNTRY ABLAZE AROUND PORT ARTHUR

PORT ARTHUR, Ont., Sept. 10.—Bush fires around Port Arthur and Port William and all day yesterday fire fighting appliances of the two cities were engaged in fighting the flames. At one time the fire between the cities threatened several residences, but after a stubborn fight it was finally extinguished. At Mission, Squaw Bay Indians had a hard fight with the elements to save the village from destruction. The fire got right up to their back yards, and all yesterday men struggled to save their homes. Nothing was destroyed. The fire tug Dudley was sent to that point to save the plant of the Thunder Bay Contracting Company, and had a hard fight all afternoon to save the docks, etc. The section office department fought the bush fires near the Shuniah mines all yesterday afternoon. Several residences were threatened by fire, which was finally quenched. The whole country east and west of this place is ablaze, and the fire is gaining great headway being fanned by a heavy breeze. On Thunder Cape the whole section is lighted up with flames from forest fire. East of here along the C. P. R. it is reported that the worst forest fire in the history of the country are now raging, and that thousands of dollars worth of timber are ablaze. Along Duluth extension several villages are threatened. According to a report received the fire is only a short distance from the village of Hymers, and people there are very anxious lest it should spread to the place. From the international boundary to Hymers, a distance of 25 miles, the whole country is ablaze. The steamer America brought a report of great bush fires prevailing between Pigeon River and

Grand Marais. Capt. Hector reported having seen two very distinct fire on route. The whole country is ablaze and many places are threatened with extinction.

Surrounded With Fires

Grand Marais is surrounded with fire and all women and children were taken to Duluth on the America, on her return trip. People all along the shore are in a frenzied state. At the reservation all lumber camps have been burned and people had to flee to the lake to save themselves from the awful heat. Pigeon River Lumber Company, of this place, were heavy losers, as two of their camps at Pigeon River and thousands of feet of timber were burned. Forest fire destroyed the camp owned by George Mooring on Pigeon River yesterday, with complete outfit. Loss is \$5,000. One camp owned by the Pigeon River Company and located in Arrow River, was today totally destroyed, while another owned by the same company was partially destroyed with loss of about \$10,000. Equipment is included in both cases. Four men who left to take care of the Pigeon River Company's camps, were unable to block the progress of the flames, and saved only the horses.
