

St. John, N. B., June 14th, 1905.

Dr. J. E. March, Inventor Of Gas Producing Engine.

First set at Hampton Was Most Successful—A Larger Engine Will be Built at Once—Company to be Formed to Promote the Idea.

HAMPTON, Kings Co., June 9.—This afternoon a most interesting and successful test of a suction gas producing engine of marine type, built by George M. Wilson at the firm of Allan Brothers, gave it as his belief that within ten years ships would be crossing the ocean with power produced direct from their own coal, without the intervention of steam or any other driving medium...

PEACE BETWEEN RUSSIA AND JAPAN PRACTICALLY ASSURED.

Both Countries Will Appoint Plenipotentiaries at Once--Washington Will Not be Chosen as Meeting Place--Story of Battle of the Sea of Japan.

WASHINGTON, June 12.—Official assurance that the president's efforts to bring Russia and Japan together to discuss peace will be crowned with success, was brought to the White House today by Count Cassini, the Russian ambassador, who called by appointment, and in the name of Emperor Nicholas, formally accepted the president's offer of good will...

Suits to Measure! FROM PURE WOOL OXFORD TWEEDS at \$12 and \$13.50.

We have secured thirty-two pieces of Pure Wool Oxford N.S. Tweeds, of very neat and dresy patterns, and in order to get people to buy Made-in-Canada Cloths and to further introduce our tailoring, we will for a limited time make from these cloths Suits to Measure \$12 and \$13.50.

These are the best values yet offered in tailoring. J. N. HARVEY, Men's and Boys' Clothier, 199 and 201 Union St.

OFFICERS MADE TO RAISE \$100,000. A BIG HAUL.

Much Liquor Seized at Boundary Stores. his Amount Required by Church of England. For Mission Work in the Canadian West—Rev. Norman Tucker Preaches in St. John.

HOULTON, Me., June 12.—The proprietors of the boundary line liquor stores located three and one-half miles from this town, were very much surprised at an early hour Saturday morning, when officers from Maine and New Brunswick paid them an unexpected visit. The stores, three in number, are located on the line, dividing Maine from New Brunswick. They are owned by John Thompson, J. A. McLean and Jacob Wise. The first two named have been running for years, while Wise has been doing business a little over a year.

SANK SHIP AFTER SHIP.

The latter concentrated their fire on one ship until she was placed out of action and then on another, thus successfully sinking the Oslabya, Alexander III, and Kniaz Souwaroff. Some ships developed deplorable structural defects. The Oslabya sank without having a single hole below the waterline. Heavily seas entered the vessel through the mainmast and the water-tight compartments, which were changed several times during the voyage, did not stand the strain they had been calculated to stand and burst.

AMMUNITION EXHAUSTED.

Even the very morning of the battle while the buzing of the wireless instruments on the Russian ships showed that the Japanese scouts were communicating his dispositions to Admiral Togo, Admiral Hozetevsky continued his careless manoeuvring, and when the Japanese actually appeared, the Russians were caught in an impossible formation and were attacked on three fronts. Hozetevsky's position was cramped and his transports were badly placed and caused confusion while the Japanese were raining projectiles even from machine guns, onto the Russian ships. The latter were huddled together, blanketing each other's fire. Only the leaders of the columns could bring their guns to bear, and even those the untrained soldiers fired wildly. To render matters worse the mines and floating torpedoes sown in the paths of the Russian divisions added to the confusion.

A GREAT STORY.

VLADIVOSTOK, June 12.—A series of the Associated Press has had with naval officers who survived the battle of the Sea of Japan has developed a most sensational story of the causes of the Russian disaster. It is explained that the chief cause of the defeat was the complete demoralization which followed the sinking of the flagship Kniaz Souwaroff, and the wounding of Admiral Hozetevsky. It is explained that the Russian commander-in-chief, Admiral Mikoy, was a man of high ability and had to rely entirely on the signals of the flagship, Admiral Nebogatoff, on whom the command devolved.

GENERAL ASSEMBLY DECIDES TO MEET IN ONDON, ONT., NEXT YEAR.

(Special to the Sun.) KINGSTON, Ont., June 12.—In the forenoon of Monday the general assembly undertook the creation of new presbyteries, which the growth and progress of the church demanded. From sections of four former Presbyterian divisions a new organization was brought into being. The Presbyterian population having grown to such dimensions in two others they were divided into four with new Presbyterian machinery for better denominational management of the portions of the dominion in which they are situated.

SWIM, JUMPED IN THE HARBOR TO Save a Boy.

North End Man, Though He Couldn't Swim, Jumped in the Harbor to Save a Boy. Joseph Carr of north end had a great deal more valor than discretion on Saturday when he jumped over Ellwood's wharf, Strait Shore, to save a lad who had tumbled in whilst trying to fish his fishing pole out of the water. Nevertheless, Mr. Carr is deserving the unqualified praise for his promptitude, as the lad is alive and well today, which might not have been the case had the daring dive not been made.

TRAGIC END OF P. E. I. MAN

Daniel Matheson Accidentally Shoots Himself—News of the Island. CHARLOTTETOWN, P. E. I., June 12.—Daniel Matheson, aged 35, an unmarried, prosperous farmer of Midway, was instantly killed on Saturday afternoon by the accidental discharge of a gun. He left home in the afternoon to shoot crows, telling his sister he would return at five o'clock. Not returning, she became uneasy and went in search. She found his body lying on one side of the dyke. On the fence on the other side was the empty gun with the muzzle pointing toward him. The charge entered his breast just above the heart.

ANOTHER CALL AT WHITE HOUSE.

Count Cassini, the Russian ambassador, called at the White House tonight by appointment to discuss with the president the selection of a place for the peace conference. The subject had been discussed by the president in his conference with the Japanese minister during the afternoon. Count Cassini, however, was talking about the selection of a place for the plenipotentiaries, and not about the number of plenipotentiaries. Upon his return to the embassy the ambassador, it is understood, communicated this information to the government. On one point Count Cassini and Mr. Takahira are agreed, and that is the undesirability of Washington for a midsummer conference. Whatever the selection of a place for the conference is not known. Count Cassini felt that it was necessary to deliver this morning's press conference in writing tonight.
