d from noticing the fact patent to one that your personal attack upon s prompted by a desire on your part make political capital out of it. You nclude all your editorials with the same ught uppermost, viz., that I am "a as a representative" and that "iny ent activities have qualified me for re ent to private life at the earliest ortunity

Your paper's estimate of me has been lished broadcast ever since I became andidate in the recent by-election and no secret by this time. Permit me to say that it is fresh in the

inds of the electors of St. John county hat your paper, backed by the full rength of the present local government, avored with all the power at their mand to have the county endorse sentiments, but you failed. Your tions as to what the electorate will o in the future are as unreliable as they are at the time of the by-election. Your ersonal public attack is acting in this ad of the county, and wherever the cons are understood, as a boomerang order to save you the trouble of other editorial it may be well to con ss that we loaded half a million of lumr from the beach near Black River this It might be advisable for you send your automobile party up to take otographs of the beach to see if we ve damaged it in any way. Trusting that you will be as good as ur word and find space for this reply.
