CHEMIN DE FER INTERCOLONIAL

La Route directe entre l'Ouest et tous les
points du Bas du St. Laurent, de la Baie
des Chaleurs, province de Québec; ain-
si que le Nouveau-Brunswick, la Nou-
velle-Ecosse, l'île du Prince Édouard, le
Cap Breton, les îles de la Madeleine,
Terre-Neuve et St. Pierre.
Les trains express quittent Montréal et
Halifax, tous les jours (dimanches exceptés)
et se rendent à destination de tous ces
points, sans changement de train, en 27
heures et 30 minutes.
Les trains express de l'Intercolonial qui
viennent dans ces directions sont brillam-
ment éclairés par l'électricité et chauffés par
la vapeur de la locomotive. Tout cela donne
beaucoup d'avantages, de confort et de sa-
reté aux voyageurs.
A tous les trains directs sont attachés
chairs réfectoires et dortoirs, nouveaux et éle-
gants, de même que les chairs-salons pour le
jour.
On se rend par cette route à toutes les sta-
tions populaires de pêche et de bords du Ca-
nada sur le parcours de l'Intercolonial.
LIENS DES PASSAGERS ET DES MALLS
CANADIENS-ÉTRANGERS
Les passagers pour la Grande Bretagne ou
le Continent, quittant Montréal le jeudi
matin arriveront à temps pour prendre le
vapeur de la maille, le même soir à Rimouski.

DISCOVERY AND TRAINING METHOD
In spite of adulterated imitations which mislead
the public, the only reliable method of training the
memory is the Loissette's Discovery and Training Method.
This method is based on the principle of association of
ideas, and is the only method which has been demon-
strated to be the most effective and reliable method of
training the memory. It is the only method which has
been demonstrated to be the most effective and reliable
method of training the memory. It is the only method
which has been demonstrated to be the most effective
and reliable method of training the memory. It is the
only method which has been demonstrated to be the
most effective and reliable method of training the
memory. It is the only method which has been
demonstrated to be the most effective and reliable
method of training the memory. It is the only method
which has been demonstrated to be the most effective
and reliable method of training the memory. It is the
only method which has been demonstrated to be the
most effective and reliable method of training the
memory. It is the only method which has been
demonstrated to be the most effective and reliable
method of training the memory. It is the only method
which has been demonstrated to be the most effective
and reliable method of training the memory. It is the
only method which has been demonstrated to be the
most effective and reliable method of training the
memory. It is the only method which has been
demonstrated to be the most effective and reliable
method of training the memory. It is the only method
which has been demonstrated to be the most effective
and reliable method of training the memory. It is the
only method which has been demonstrated to be the
most effective and reliable method of training the
memory. It is the only method which has been
demonstrated to be the most effective and reliable
method of training the memory. It is the only method
which has been demonstrated to be the most effective
and reliable method of training the memory. It is the
only method which has been demonstrated to be the
most effective and reliable method of training the
memory. It is the only method which has been
demonstrated to be the most effective and reliable
method of training the memory. It is the only method
which has been demonstrated to be the most effective
and reliable method of training the memory. It is the
only method which has been demonstrated to be the
