

ITALIAN ARMY VICTORIOUS IN BIG OFFENSIVE TOWARD TRIESTE

About 5,000 More Prisoners Captured and 11 Guns—Carried Heights and Consolidate Lines North of Plava.

London, May 27.—The Italian army has been victorious again in its big offensive toward Trieste. Unwearied by previous efforts Gen. Cadorna's infantry Friday stormed large sections of the Austrian second line of defence on the rocky hills of the Carso plateau, and to the north held firmly against most violent counter-attacks all the captured ground on the Isonzo.

In this day of tremendous fighting the Italians took 5,000 fresh prisoners. Following up their successes Friday, the Italians on Saturday smashed through the Austro-Hungarian positions between Jamiano and the Gulf of Trieste, passing the Montefalcone-Duino railway north-east of San Giovanni, and establishing themselves within a few hundred yards of the village of Medezza. North of Plava the Italians carried the heights at the head of the Paliova valley, thus join-

ing their Mont Gucco lines with those on Hill 363. Eleven guns were captured, and more than 1,200 Austro-Hungarians were taken prisoner.

The surest testimony to the strength of the Italian offensive is that since the first attack on the Isonzo on May 14 these troops have captured 24,619 Austrians, of whom 487 are officers. This is a total of prisoners equal to that taken by either the British or French in their offensives, in a considerable longer space of time.

The Austrian general staff, too, bears witness to what a powerful machine the Italian army has now become, and what terrible blows it can deal. "Never in the two years of fighting just completed," says the Austrian official announcement, "has the heroic Isonzo army had to face greater efforts of the enemy."

TURKEY SWEEP BY FAMINE

100,000 Desertions From the Ottoman Army Already Reported.

A despatch from New York says: A news agency despatch from Paris, published here on Friday, says: Turkey is swept with famine and pestilence, her people are panic-stricken and her army's morale is utterly gone, according to information received here on Friday via Berlin. One hundred thousand desertions from the army are reported.

Realizing the loss of all Turkey's fighting power, 8,000 Austrian troops have recently been sent to Palestine to attempt bolstering up the army in front of the British expeditionary forces. Four thousand German troops are said to be guarding the Government buildings, factories and bridges in Constantinople, while hundreds in the city are dying each day.

Typus is sweeping over the whole country, the report declares.

The deserters from the Turkish army, 100,000 strong, are said to have fled into the Anatolian mountains, and to be existing through brigandage.

EASTERN COUNTRIES RAIDED BY ZEPPELINS

A despatch from London says: Four or five German airships raided the eastern counties of England Wednesday night, according to an official statement issued this morning. The airships dropped bombs and escaped, although pursued.

The official statement reads: "Four or five hostile airships approached East Anglia shortly before midnight last night. The weather was overcast, and a thick bank of rain clouds made observation difficult.

"Four airships appeared to have penetrated inland into the eastern counties. They followed erratic course, and dropped a number of bombs in country districts, apparently being unable to locate their position. The raiders were pursued by our airships, but clouds enabled them to make good their escape. One man was killed in a Norfolk village. The material damage is believed to be negligible."

BRAZIL TO POLICE SOUTH ATLANTIC

A despatch from Rio Janeiro says: According to The Journal do Commercio, it was decided at a meeting of the Parliamentary and Diplomatic Commissions, called Thursday by the Foreign Minister, to adopt the principle of revocation of Brazil's neutrality in the war between the United States and Germany, and to police the South Atlantic with the Brazilian fleet.

ITALIANS SMASH AUSTRIAN LINES MORE THAN 9,000 PRISONERS TAKEN

Many Important Heights and Several Villages Taken to Mark 2nd Anniversary of Italy's Entry Into the War.

A despatch from London says: On a front of nearly ten miles on the Carso plateau the Italian troops have smashed the Austrian line hard, and taken various positions from the town of Castagna Vizza to the head of the Gulf of Trieste. In their renewal of their offensive the Italians received valuable aid from some of the nine British batteries which have hauled their big guns down to the Isonzo front to help in the efforts aimed at the conquest of Trieste. Austria's big seaport on the Adriatic.

Not alone were the Italians successful in capturing numerous points of vantage, but more than 9,000 Austrian prisoners, including officers in excess of 300, were taken. The Austrians are declared to have been taken

ENEMY REPULSED ON THE ISONZO

More Important Positions Are Captured and Defences of Trieste Menaced.

A despatch from London says: From Plava, on the Isonzo, to the Adriatic Sea, the Italians and Austrians are fighting bitterly, and the troops of General Cadorna are making steady progress, especially on the southern end of the 21-mile front.

North and south of Jamiano, eight miles south of Gorizia, the Italians have driven the Austrians back and taken additional important positions. The gains here are a direct menace to the defences of Trieste. The fighting is made harder because of the barren, hilly country. Despite the difficulties of terrain and the stubbornness of the enemy resistance, however, Cadorna's men have taken two strongly fortified hills north of Jamiano and reached the outskirts of Verio.

The Austrians have attempted to check the Italians' advance on the Southern Carso by making violent counter-attacks south and east of Gorizia and along the Vodice sector. At all points of attack the Austrians were driven back with heavy losses, and east of Hill 652, on the Vodice, the Italians captured the position from which the Austrians emerged to the attack. The number of prisoners taken by General Cadorna's command since Wednesday morning has increased to 10,245, including more than 300 officers.

HEAVY LOSSES SUFFERED BY FOE

Attack French Salient to the North of the Ladies' Walk

A despatch from Paris says: North of the Chemin-de-Dames, in the region of Pantheon, the Germans in heavy attacks succeeded in entering French first-line trenches, according to the French official communication issued Friday evening. Immediate counter-attacks by the French, however, drove the forces of the German Crown Prince from most of the captured salient.

General Petain's forces have occupied most of the Chevreux wood east of Craonne, after inflicting heavy losses on the Germans and taking 30 prisoners. Two German battalions were almost annihilated by the French.

Brazil Promises to Enter the Paper Industry

A number of its trees have been found valuable for the purpose, and in view of the depletion of stocks in the United States and Canada capitalists in Brazil are taking steps to manufacture paper.

ADVANCE ON WESTERN FRONTS

Successful Minor Engagements—New Thrust in Preparation.

London, May 27.—On the two main battle-fronts, Arras and the Aisne, the past 24 hours have seen more fighting than for some time past. The same period, for there has been no engagement of magnitude. The series of local attacks, bombardments, trench raids and very considerable air activity seem to have been in preparation for heavier fighting, probably on the British front.

Though the French carried out an attack in the Champagne that gave them small local advantages, most of the fighting on their front consisted in the repulse of small German counter-attacks. These counter-attacks were made mostly on the Chemin-de-Dames ridge, but without success. Artillery fire also was active on the ridge and in the Champagne.

According to the German official statement, the attack the Crown Prince delivered Friday night, which Paris announced met with little success, took 544 prisoners, 15 machine guns and much material. Berlin claims no great gain in terrain, but says a French counter-attack was repulsed.
