

with a headline - '' Mackenzie King cites ten Benefits from the Ottawa Conference '' and said very little about the rest of your speech .

✓ From p 38 on to the end , p 67, I have nothing but admiration for the manner in which you have dealt with ways and means of promoting inter-empire and international trade. The opposing points of view of the two major parties are put in striking contrast, and the whole treatment of the subject is effective and convincing . If you propose to deal with the Conference at any length in South Huron, this is the portion of your speech that I think is best adapted for the purpose .

✓ When in Ottawa, I sent you two brief memoranda , one on the Imperial Conference as an issue in South Huron , and the other on Proportional Representation and the Alternative Vote. I note from this morning's paper that the third candidate, Mr. Cooper, has now withdrawn .

My very best wishes for success in your speeches. I know they will go splendidly .
