

**"YOU DRINK THE CALEDONIA WATERS,
THEY DO THE REST."**

The business of the Caledonia Springs, both the shipping of the waters and the health resort, extending now over the greater part of a century, does not require any forcing at the present day. The waters are never shipped unless on actual order of purchase; the demand for them is created by their genuine merit and adaptability for shipping in bulk, a quality possessed by few other mineral waters, the generality requiring to be bottled at the source, and even then they frequently become unpalatable, if not unsafe to drink. Stored in a cool place, the Caledonia waters, in wood, after eighteen years, have still remained fresh, palatable and efficacious.

Consumers can procure the Caledonia waters in bottles, aerated, from any respectable hotel, grocer, wine merchant, or druggist. There is no monopoly in their sale, any dealer can obtain them for you from the several wholesale agents or by addressing the proprietors, **The Grand Hotel Co.**, at Caledonia Springs, Ont.
