JAS. J. HURLEY

Vol. 18, No. 5.

The last week or ten days very wet and cold, and we number of hives have been heavy brood nests and exhi They were wise bee-keeper little at this time.

\* \* \*

Watch the weather cond during and after the close o The weather gives indicatio ing cold. The bees have l heavily and shortage of stor be a great calamity. Afte there may be absolutely notl for two weeks. This is a c which feeding should be p judiciously resorted to. Not a time, but often. Do n circumstances allow a che rearing at this time. These that will gather your harv are any indications that the moving larvæ apply the fee

\* \* \*

We notice in the Family Weekly Star, Montreal, tha mann, in reply to a questi scribed, makes the unquali that "a large hive (a Langstroth) is much better frame." In view of the fact disputed question, we do n this statement should go There are some experience who think that eight-fra enough; others think the best; others that the ten happy medium, while there few who favor the twelve- not hesitate to take issue wit mann in this statement.
