

### Buy a McCormick Drill

**B**ECAUSE drill-planted seed gets an earlier, more even start—because drill planting saves seed and produces a better grade of grain—because drill planting saves time and work—and because the McCormick drill is one from which you get all these advantages, buy a McCormick drill.

The McCormick comes in single disk and hoe styles, 11 and 13 marker sizes. All have the famous double-run feed which handles accurately both large grain and small, from peas and beans down to flax, planting any desired quantity per acre, planting it evenly, and covering it to just the right depth. Your crop could not get a better start than the one given to it by a McCormick drill.

See the McCormick local dealer when you are ready to buy. He will show you all the details of construction that put the McCormick drill at the head of its class. Or, if you write the nearest branch house below, we will send you full information.

## TORONTO SILOS

### See the Hip Roof

It will put money in your pocket. Get tons more ensilage in a Toronto Silo than in any other silo costing about the same to erect. The hip roof lets you tramp down the ensilage right up to the top of the walls.

Now consider the construction of a TORONTO Silo. All woodwork is carefully selected spruce, thoroughly impregnated with hot tar and creosote. The wood cannot rot and is not affected by ensilage acids.

Then Toronto Silos are airtight because the staves are DOUBLE tongued and grooved—double protection against frost as well as air. The Toronto Silo booklet sent upon request. 137
