

MELOTTE CREAM SEPARATORS

have the separating bowl suspended from a hardened steel spindle, which revolves in a socket fitted with ball bearings. It hangs quite freely, and thus is not only practically frictionless, but cannot possibly get out of balance. The gear wheels turn on ball bearings, which are always completely covered with oil. For close skimming the Melotte is unexcelled.

Kemp's 20th Century Manure Spreader.

A CROP-MAKER and A LABOR-SAVER.

Ottawa, April 13th, 1904.
R. King Farrow, Esq., Ottawa:
Dear Sir,—The Kemp 20th Century Manure Spreader I bought from you last year is doing all you claimed for it, in all kinds of manure. It not only saves labor, but it distributes the manure so evenly that it covers more ground. I consider the Spreader one of the most essential of farm implements where there is much manure to handle.
Yours truly, J. G. CLARK.
