

# Special Lawn, Park or Garden Fence

This wonderfully popular fence is made of No. 9 special steel, galvanized WIRE, crimped or corrugated. The uprights are only 2½ inches apart. There are 13 horizontal bars. The fence is usually erected on wooden posts and scantling, but the scantling can be omitted if preferred.

This fence is very durable, neat and serviceable, and surprisingly attractive. It is supplied in any lengths wanted. When desired we paint it white without extra charge. Further particulars on application. If local dealers cannot supply you, we will.

## FREE TO THE WEAK

**I**F YOU are weak I want to help you. I want to show you the way to future happiness, and I offer you free my beautiful book, illustrated with photographs of fully developed men, showing how many begin to break down as a result of overwork and dissipation, and how they recover the vigorous fire of youth in a few weeks' application of electricity. This book contains a lot of information which explains many points they want to know.

It is written in plain language, and the illustrations are of the highest type of art, showing the best developed specimens of manly strength. No man who feels any doubt as to his physical powers should be without this book. I send it closely sealed, without marks, free, if you will send the coupon below.

### MY WAY OF RESTORING STRENGTH IS DIFFERENT FROM ALL OTHERS.

It's easy to be cured my way. You put my appliance on when you go to bed; you feel a glowing warmth passing through your body and the electric power gives you new life. When you wake up in the morning you feel bright, lively and vigorous, and you wonder where your pains and aches have gone. My Belt has removed the cause and they will never return. That's a better way than making a drug store of your stomach. And who ever saw anybody actually cured by drugs? I tell you drugs don't cure, and if you have tried them you know it. Nearly all my patients tried drugs first.

### I CURE WHERE OTHERS FAIL.

I want to talk with those who have tried every other known remedy; those who have about given up trying and think that there is no cure for them. I don't think you do justice to yourself to fill your poor stomach with drugs day after day, when you don't see anything but temporary stimulation in them. (If you want stimulation, take whiskey; it is alcohol, like the drugs, and does less harm taken the same way.) I want to explain how vital power is restored by electricity, and I can prove to you that vital power is nothing but electricity. Then you can see that your trouble can be cured by electricity and can understand why drugs don't cure you. Come and let me show you the only road to health, strength and happiness. No healthy person was ever unhappy, because a heart full of vitality is light and joyous, and quickly shakes off the gloom and depression which is called grief. Some people are unhappy without cause. That is depression due to weakness.

#### Cured of Sour Stomach, Backache and Pain in Chest.

Dr. McLaughlin,

Dear Sir: I now write with pleasure to you, having used your Belt for some time. I may tell you I have not had a sour stomach, neither backache nor pain in my chest, since I have used your Belt, therefore I cannot recommend it too highly. I am well pleased with it and will recommend it, and do my best for you. Yours respectfully, JOHN NEWCOMBE, Goderich, Ont.

#### Kidney and Bladder Trouble Cured.

Dr. McLaughlin,

Dear Sir: On June 9th, 1903, I was discharged from Netley Hospital, Southampton, Eng., as unfit for further service in the army, as I was suffering from kidney and bladder trouble contracted in South Africa. After I left the hospital I got one of your Belts, and after six weeks' use of it was able to go around, and am now able to work. I attribute the cure to the use of your Belt, as when I left the hospital I never expected to be able to work again. Yours truly, WILLIAM F. BROADSTOCK, Clarkson, Ont.

### Rheumatism, Kidney Troubles, Lame Back, Solatioa, Stomach Troubles, Nervous Debility, Lost Health, and Every Indication That You Are Breaking Down Physically. I Can Cure You or Will Forfeit \$1,000.

I don't think there is any case of weakness, failure of vitality or of any trouble resulting from the imperfect action of any organ of the body that I can't cure. Of course I do not cure all cases, but I have such confidence in my treatment that I will pay \$1,000 for a case that comes in my line of treatment which I can't cure with my recently perfected appliance. I am curing troubles which I would not touch before.

**COME AND SEE ME.**—Let me show you how many thousands have been cured by my methods, and how simply I overcome the most aggravated cases. Be just to yourself, to your family and, friends and make yourself a man among men in the easiest way and at the least cost. Call and I will give you evidence that will convince you. If you can't call, then write to me for my book, which is full of the things that inspire you to regain health. It is free, sealed, if you will enclose the coupon and tell me about your trouble.

### THE SPICE OF LIFE.

A school board official called at the home of a pupil whose absence had extended over a week, and inquired of the lad's mother the cause.

"Why," she said, "he's past his thirteenth year, an' me and his father think he's after having schooling enough."

"Schooling enough! Why, I did not finish my education until I was twenty-three."

"Be that so," said the mother, "but that lad of ours has got brains."

Dr. Zugertort, the celebrated chess player, was walking in the street one day when an idea struck him with regard to a certain chess opening, and he began carefully to think it out with a view to playing it in his next game with the equally well-known player, Mr. Steinitz. Lost in thought, he stood at the corner of a street for a long time, until a policeman, suspecting him, went up and told him to move on. "Beg pardon," replied the little doctor, absently, without looking up, "it's your move."

An action was once brought before Judge Morris against a veterinary surgeon for killing a man's horse:

Lord Morris knew something of medicine, as he did of most things, and asked whether the dose given would not have killed the devil himself.

The veterinary drew himself up, pompously, and said:

"I never had the honor of attending that gentleman."

"That's a pity, doctor," replied Morris, "for he's alive still."

Mrs. Mellen does not wish to offend her new cook. "John," she said to the manservant one morning, "Can you find out, without asking the cook, whether the tinned salmon was all eaten last night? You see, I don't wish to ask her, because she may have eaten it, and then she would feel uncomfortable," added the good soul. "If you please, ma'am," replied the man, "the new cook has eaten the tinned salmon; and if you was to say anything to her, you couldn't make her feel any more uncomfortable than she is."

A shipbuilder tells of an Irishman who sought employment as a diver in the service of one of the shipbuilding companies.

The first job to which the Irishman was assigned was to be performed in comparatively shallow water. He was provided with a pick and told to use it on a ledge below.

Mike was put into a diver's suit, and, with his pick, was sent down to tackle the ledge. For about fifteen minutes nothing was heard from him. Then came a strong, determined, deliberate pull on the signal rope, indicating that Mike had a very decided wish to come to the top. The assistants hastily pulled him to the raft and removed his helmet.

"Take off the rist of it," said Mike. "Why, what's the matter?" asked they.

"Take off the rist of it," doggedly reiterated Mike; "I'll wur-ruk no longer on a job where I can't spit on me hands."

The will is the motive power in character building.

The will is needed to bear the ideal in memory.

The will is needed to put on the new man.

The will is needed to put into practice the purposes of the mind.

The will is needed to embrace the opportunity to express in deed or word the thought or feeling entertained in heart and head.

The will is needed to spur on the flagging interest.

The will is needed to-day. "I have set out to do it, and it shall be done."

A wise man defined character as a perfectly-fashioned will.

To fortify the will nothing is more effectual than to associate with those of like purpose and to read clever, helpful books on character.

A well-stocked book-store is sure to have some reading on character building. Just one book handy for a ten minutes or half-hour perusal at a time is a good aid.

But, first and last, the building of character is the cherishing of an ideal.
