New ORLEANS PRIVATEERING.—It appears by our latest advices from New Orleans, that Northern ships are daily arriving there, in utter ignorance of the existing war, and that they are seized at the bar by armed vessels, prize crews put on board, and then sent up to the city. There are many valuable vessels now bound to danger incurred. It is unaccountable why an armed vessel was not sent a month ago, to warn away the vessels bound into New Orleans.—Am. Traceller.

Messrs. PALMER & Co., Boston.—Gentlemen, —It is thought by those unacquainted with the operation of artificial legs, that those who wear them are incapacitated for the "rough and tum-ble" of life. My experience does not confirm that conclusion. Being something of a military man, I "enlisted," hoping my loss would not be discovered. The officers of the corps to which I belong, the "Marine Artillery," did not drilled cover that I was lame, although I had drilled merry night for a fortnight. I succeeded so well cover that I was lame, sithough 1 had arised every night for a fortnight. I succeeded so well that I was selected as orderly sergeant, but on inspection by the physician, my wooden limb was covered, to their great astonishment, and I was covered, to their great astonishment, and I was obliged to retire. But it shows the great na-turalness and wonderful efficiency of your inven-tion. I go hunting quite frequently, and am on a steady tramp from 5 o'clock in the morning till 9 o'clock at night. These are literal facts, which I think should be read and known to all who require the "Palmer Artificial Leg." Yours. truly. J. P. BLAKE.
