PROHIBITION IN KANSAS.

Edited by the Temperance Committee-

The manufacture and sale of intoxiing liquors shall be forever prohibited in this State except for medical, scientific and manufacturing purposes.

In favor of the amendment 91,874 votes were polled, and against it 84,037. In the following year the Legislature enacted a prohibitory law.

In 1893 the Canadian Royal Commission on he Liquor Traffic visited several cities of Kansas and examined sixtyfive witnesses. They learned that it was difficult to enforce the law in Kansas City, Kan., which is only separated by a river from Kansas City, Mo., where license law is in operation; and that similar difficulty was experienced in Leavenworth on the Missouri River, which is a military post, and has a large foreign population. Notwithstanding these unfavorable conditions, many witnesses testified that even in these cities the law had done very much good. In other parts of the State the beneficial effects of the law of prohibition were strikingly manifest. More than three-fourths of the witnesses examined unhesitatingly testified to the good effects of the law, A number of persons who had opposed the adoption of prohibition, declared that they had been led to change their views by its satisfactory working, and now strongly favored it. The following extracts from the evidence taken are merely samples of many similar state-

ments that were made: Hon. Mr. Gains, State Superintendent of Public Instruction, said: The effect is the same by proving property and pay grand. In Dickenson County I stood inge xpense s. before one of the high schools and asked how many of the pupils had never seen a saloon. We have a four weeks term of special training for teachers in the summer months in each county, and I have asked as many as 140 or 150 teachers at these assemblages how many had never seen a saloon, and in answer the majority of hands went up. This shows that we have driven the saloon from the State.

Congressman Kelly.—No law ever passed has added so much to the comfort and happiness and contentment of thre people as has the prohibitory law in Kansas, and the people of Kansas know it. Of all the legislation ever passed in Kansas-and much of it has been good -prohibition is the brightest jewel in

Herbert McCormack, youngest son of Mrs. McCormack, now of Toronto, formerly of Orangeville, was one of the young Canadians who joined Uncle Sam's army when the Spanish-American war began and was sent to the front. He escaped the Spanish bullets at Santiago, only to die of fever on his way home to New York last Thursday on the transport steamer Olivette.

The little two-year-old daughter of Wm. C. Cook, a well known farmer, living on the outskirts of Georgetown, is in a precarious condition as the result of a fierce attack made on her last week by an infuriated sow. The little one was playing with her brother in the yard and amused herself in chasing some young suckling pigs, the sow being confined in an adjoining pen. Finally the child caught one, and when it began to squeal the old one broke out of the pen and charged at the baby. The little tot attempted to run, but stumbled and fell, and in a moment the sharp teeth of the sow were buried in her neck and shoulder. Her little brother screamed and the child's mother came to the rescue, but so fierce was the sow by this time that when the mother did rescue the child it dragged the baby out of her hands again. When finally rescued the little one scare, neck and body were terribly lacerated, and it is not sure as yet whether on not she will recover.

Raw From Her Toes to Her Knees

Dr. Chase Makes a Wonderful Cure.

Mrs. Knight, 17 Hanover place, Tomakes the following state-

ment:—

My mother, Mrs. Wright, who lives at Norval, near Doncaster, suffered a summer and winter with Eczema in her feet. She could not walk, and very seldom got any sleep. It became so bad that she was perfectly raw from the toes to the knees. After trying every available remedy without receiving any benefit, and almost hopeless of relief, she was advised to try Dr. Chase's Ointment. She has altogether used 8 boxes since commencing, but with the happlest results, for she is now completely cured. There is but one scar on one of her feet, a memento of her fearful suffering condition. Any person desiring further testimony in this case is at liberty to communicate with Mrs. Wright at her address, Norval P. O. Mrs. Knight says after such a grand success, is it any wonder we recommend Dr. Chase's Ointment?

W. H. De Long, Civil Engineer, ex-Warden, and County Councillor, New Germany, Lunenburg Co., N. S., Oct. 28th, 1897, says:—"I had itching piles for thirty years, and have tried various kinds of pile cures, but none gave me' permanent relief until I used Dr. Chase's Ointment. I have recommends ad it to others with the same result."

Having the experience, possessing the tacilities, incurring the expense, justified by volume of business, and inspired with an ambition to construct THE WORLD'S GREATEST BICYCLE, accounts for the extraordinary increase of Clevelland sales in every civilized country.
