

# CITY NEWS

BORN—  
To the wife of G. A. Sharrn, a son.

**NOT TRUE—**  
A rumor was widely circulated yesterday to the effect that a miner had been badly beaten while coming from work in the Centre Star mine. The police looked into the matter thoroughly and claim the yarn had no foundation in fact.

**ALL OFF—**  
The January thaw has effectively put an end to curling and hockey for the present. A message from Trail is to the effect that similar conditions, or worse, exist there and that the game talked of for this week must be indefinitely postponed. When the weather stiffens up again hockey practices will be recommended and games arranged.

**SHIPPING STARTED—**  
The True Blue mine in the Kaslo camp, managed by J. C. Dewry, of Roseland, has started shipping, the first consignment of high grade copper ore having been rawhided down for shipment to the Hall smelter on the first of the year. Further consignments will follow as long as the rawhiding continues. The development of the property is being continued meantime with excellent results.

**TO TRAIL—**  
The statement is volunteered that the Was Eagle and Centre Star mines are likely to resume shipments on or before February 1. The installation of the new crusher at the Trail smelter has caused the present inactivity in the shipping line, and as the improvements to the smelter are to be finished within thirty days at the outside it is naturally expected that the mines will then commence sending out ore on the scale in force prior to July last.

**HOTEL CHANGE—**  
A change has taken place in connection with the C. P. R. hotel, whereby the management of the place will be taken over by Harry Bell, well and favorably known in the Golden City. Mr. Bell the owner of the land and buildings comprising the hotel property and personally conducted it with marked success for some years. It will be known hereafter under its original name—the Bellevue. The buildings are being thoroughly renovated, re-papered and carpeted, while the bar has been entirely reared and the dining room brought up to its former pitch of excellence.

**THE REFINERY—**  
The statement is made that the Canadian smelting works, having decided to go ahead with the refinery in connection with their plant, will push the construction of the refining plant as rapidly as possible and that they have expressed their intention of having the refinery in readiness to commence operations by May 15 of this year. As all the machinery and apparatus has to be ordered from the manufacturers and the buildings erected at a season of the year when building is no easy task, the company is undertaking a good-sized contract in announcing that their refinery will be open for business at the date specified, but they will undoubtedly deliver the goods.

**THE GRANBY—**  
In view of the reports in circulation with regard to the smelter and mines of the Granby corporation at Grand Forks and Phoenix it may be stated that while in Roseland a day or two since on his way from Spokane to Phoenix, William Yolen Williams, superintendent of the Knob Hill and Old Ironside mines, made the statement that a breakdown of any duration was not contemplated by his company, and that on the contrary it was their intention to increase the output of the mines immediately from 700 tons per day to 1,000 tons daily, and that a further increase in the tonnage might be expected shortly. Mr. Williams remarked that the increased production would entail a comparatively small increase in the force at the mines because of the excellent shape into which the surface workings had been brought. This means much to the company, particularly in view of the copper slump. The production of an additional 300 tons or ore per diem with no appreciable extra cost of mining should mean that the company will net practically the entire sum represented by the cost of mining the quantity specified.

**BOXING MATCHES—**  
Local sportsmen are concluding arrangements for a card of sparring matches at the International on the 20th inst. The last affair of this nature in the same premises drew such a large house and afforded such an excellent night's sport that the promoters feel quite justified in putting on another similar entertainment. The question of the men who will be billed to appear has not been settled finally. Duke Lewis, of Spokane, will undoubtedly be given another engagement, and the choice of an opponent rests between Morton Freeman and Oscar Rudd. Freeman is a Portland man who is well known in Spokane; he has been in the ring more or less continuously for the past ten years, and is now about 35 years old. He would fight at about 145 to 145 pounds, and in this respect would have somewhat of an advantage over Lewis, although the latter's youth and superior science would be a fair offset. In height and reach the men are evenly matched. Rudd, of Phoenix, wants to meet Lewis, but his talk is believed to be strongly tinged with bluff. Mr. Lewis is ready to meet anyone in his class. A fast preliminary or two will be put on before the principal event and this with the first-class variety should bring out weekly at the International should attract another bumper house.

**HOT AIR—**  
Yesterday's Spokesman-Review Nick Burly of Seattle hands out a quantity of "hot air" in reply to Charlie Goff's deft recently published. The outstanding feature of Burly's communica-

tion is that he makes no move toward covering Goff's deposit of \$200 to bind a match, confining himself to a general declaration of his willingness to meet Goff in Spokane or anywhere else that may be agreed upon between British Columbia. If Burly desires sportsmen to take him at his word it would have been good policy to put up the coin to bail out Goff's hard cash.

**IS JANITOR—**  
Percy White has been appointed janitor at the Cook avenue school by the trustees board. The position is filled pending the action of the new board. The school is now in readiness for occupation on Monday.

**A TON OF ORE—**  
In reply to "W. G. W., Westaskin," it may be stated that in the Roseland camp 12 cubic feet of ore in place is figured as one ton, while 17 cubic feet of broken ore is required to make up a ton. The data for the Boundary ores are not available in this office.

**"ENGAGED"—**  
The posters for the production of "Engaged" by the Roseland Amateur Dramatic club are out, and the plan for the entertainment opens at Roll's drug store tomorrow. As very considerable interest is manifested in the attraction the demand for seats is certain to be lively.

**POSTOFFICE—**  
The work on the new postoffice now consists of getting in the windows on the lower floor, a number of those on the west side of the building being already in position. In addition the fireproof ceiling of the main office is being placed, and other minor work is under way at various points in the building.

**MINSTRELS—**  
The rehearsals of the Roseland minstrels were interrupted by the holidays, but the members of the company will now resume practice regularly. On Wednesday night the entire circle portion of the entertainment will be gone through and other features rehearsed. The Harmony Club's entertainment will be excellent.

**NOMINATIONS—**  
The official announcements as to the nominations and polling places for the approaching municipal elections have been distributed throughout the city. The nominations take place a week from tomorrow between 12 o'clock noon and 2 p. m., the city clerk presiding. Candidates must be named in writing, and the names of two voters attached as movers and seconders. The election takes place on the following Thursday at the time and places already detailed in the Miner.

**A MUSICAL EVENT—**  
Mr. W. Rist Hedley, violinist, and Miss Jean Robinson, pianiste and vocalist, are announced to give a musical recital in the studio on Friday evening next, followed by a matinee on Saturday afternoon at 4 o'clock. Mr. Hedley is en route to Seattle, where he will establish his studio for the immediate future. A limited number of tickets for the recitals may be had at Roll's drug store. Price 50 cents. For the benefit of St. George's church.

At the regular meeting of the Local Pythians, Deputy Grand Chancellor Proctor Joiner, of the Knights of Pythias, installed the following officers for the ensuing term: William McNeill, chancellor commander; Thomas Graham, vice chancellor; J. J. Wright, prelate; Thomas Shipley, master of the work; A. J. McDonald, master of finance; W. R. Beatty, master of excise; P. Joiner, keeper of records and seal; George Knudson, inner guard, and George Schott, outer guard. At the conclusion of the ceremonies an impromptu social was held at which a number of visitors were present and a most enjoyable evening was spent.

Mayor Lafonde is in receipt of a neat card bearing the holiday greetings of the McGill University professors and students, a delegation of whom were extended the city's hospitality while here last summer in connection with the summer course of the practical science department. In addition His Worship received an invitation to attend the banquet given at Port Arthur in honor of the driving of the last spike in the Port Arthur-Winnipeg section of the Canadian Northern railroad, at which the guests of honor were the members of the firm of MacKenzie & Mann.

When school resumes on Monday morning, the high school pupils and those belonging to the classes taught by Mr. McTavish and Misses Walker and Taylor will assemble at the Cook avenue school. The other teachers will assemble at the Central school. All pupils in the fourth grade or higher will gather at the Central school with the exception of the high school students. Principal Tait's work in connection with the entrance class is being commended generally. He only had charge of the class for a portion of the term and only expected to pass seven of the class, instead of which ten got through without difficulty.

## COLDS, HEADACHE, CATARRH

Relieved in Ten Minutes by Dr. Agnew's Catarrhal Powder.

Rev. W. H. Main, pastor of the Baptist Emanuel church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder. He has tried many kinds of remedies without avail. "After taking Dr. Agnew's Catarrhal Powder I was benefited at once," are his words. It is a wonderful remedy and will relieve any form of head pain in ten minutes and eradicate catarrh.—16. Sold by Goodvee Bros.

Chilled to the bone? A teaspoonful of Pain-Killer in a cup of hot water sweetened will do you ten times more good than rum or whiskey. Avoid substitutes, there is but one Pain-Killer, Perry Davis', 25c and 50c.

# SOCIAL AND PERSONAL

Mrs. A. S. Goodeve entertained a party of friends on New Year's eve. Cards and refreshments were the order of the evening.

Mrs. Rolls, Le Roi avenue, was the hostess at a pleasant whist party on Thursday evening.

Mrs. Charles A. Jackson has returned from a visit to Nelson friends during the holiday week.

Mrs. Louis Blue left on Wednesday for Spokane, where she will visit relatives for the next three months.

Alderman Charles R. Hamilton is visiting at the coast.

Will Kinneer, who spent the holidays with his parents here, has returned to Portland to continue his studies there.

Mr. and Mrs. Thornton Langley are visiting at the coast.

The dance at Mosaic hall on New Year's eve under the auspices of the Enlace Nove club was quite successful. The attendance was large and the music excellent. The members spent a delightful evening, dancing the old year out and the new year in.

Mr. Edmund B. Kirby manager of the Centre Star and War Eagle mines, was the host at a pleasant dinner party on Saturday, the 28th ult.

A number of Roselanders perpetuated the time-honored custom of New Year's Day calls by sending cards to city friends.

The Vancouver World of Thursday gives the following report of a New Year's day matrimonial event of general interest in Roseland: At high noon yesterday the residence of Mr. and Mrs. James M. MacGregor, 826 Hornby street, was the scene of an exceedingly pretty wedding, when his eldest daughter, Maude, was united in marriage to Andrew Wallace Fraser, a rising young business man of Roseland. The cosy little home never looked more enchanting. The drawing room in which the ceremony was performed was beautifully decorated with flowers and potted plants, while the walls were trimmed with wreaths of ivy. Only the immediate friends of the contracting parties were present at the ceremony, which was performed by Rev. Dr. Grant, pastor of the First Baptist church, of which Miss MacGregor was a prominent member. Mr. Teiford presided at the piano, and as the bride entered the room the exquisite wedding march from Lohengrin was played. The bride looked very pretty in a becoming traveling suit of blue broadcloth, with trimmings of blue silk and duchesse lace; she carried an immense spray bouquet of bridal roses and maidenhair ferns. The maid of honor was the bride's sister, Miss Jessie MacGregor, who was attired in a pretty gown of white silk, with blue touches of black velvet, and carried a bouquet of pink carnations and maidenhair ferns. The bridesmaid, Miss Marjorie Sloan, was gowned in pearl grey broadcloth with trimmings of chiffon and pink silk. She, too, carried a bouquet of pink carnations. The groom was fully supported by his brother, James Fraser. After the ceremony the guests repaired to the dining room where a wedding luncheon was served. The table was decorated in pink effect, and was greatly admired. The luncheon was under the direction of the Toronto Candy Co., and they certainly carried out their part of the program in a most satisfactory manner. It required a large table to hold the many remembrances received by the bride from her legion of friends, several of which were sent from acquaintances out of the city. The young couple also received a number of telegrams of congratulation, one of which was from Mr. and Mrs. Harry MacGregor, of San Francisco. Mr. and Mrs. Fraser left on the eastbound express for Roseland. A large crowd were at the station to see them off, and as the train pulled out, they were showered with rice and given three hearty cheers.

## RE CITY FINANCES.

To the Editor: Something must be done, and at once. We cannot keep on increasing our expenses at the rate we have been for the last two years. Look at the statement published—taxes collected, including three years of arrears, \$26,000; public servants' salaries, including clothes, near \$30,000. A city with less than 7,000 inhabitants paying \$20,000 for their servants! It is simply robbing the tax-payer, take out city and government taxes, water rates, with heavy insurance rates, it is hard to realize how we pay it all and live. Then our assessments are away above its value in vacant property. Our fire department cost last year over \$14,500. We all admit we have a splendid chief and assistants, but could not expenses be reduced? I understand it costs as it stands today over \$25,000—to have cost \$11,000; and now our schools are to be provided for by the tax-payer. Are they, too, to be increased at the same rate? If so let us know at once. When last year's council went out of office the chief clerk of the bureau works left a deficit of over \$10,000; and I understand that it is increased very largely this year. I know it is easy to find fault, which I do not propose to do; but what do the men who are seeking office intend doing to reduce expenses? I would suggest as a starter to reduce the mayor's salary to \$1,000 and the aldermen to \$500 each. Let them meet every alternate week, paying only when they attend, and have part of the money that comes from the taxes applied to what people pay taxes for, and not for men in office to live on. A RATE-PAYER.

## COLOMBIAN REBELS.

More Serious Operations Undertaken Recently.  
NEW YORK, Jan. 4.—A cablegram today from General Varkas Santos, chief of the Colombian rebellion, to Dr. A. J. Restrepo, diplomatic agent of the rebels of this country, announces that General Rafael Uribe Uribe has effected an entrance into Colombia from Venezuela. General Uribe Uribe has for some time past been at Tacahira, Venezuela, with an army of 2,000 men. He has tried time and again to get past the Colombian government forces, but always without success. In these attempts he was assisted by troops of the Venezuelan army. He has now accomplished his end with a force composed only of Colombian Liberals. The entrance was gained in the department of Santander and there will soon, it is expected, be some severe battling. Other advices received by Dr. Restrepo are that the insurgents under General Artilha have captured the city of Bucaramanga, which is one of the most important towns in the country, and the capital of Santander. Another attempt to take Panama is now planned by the insurgents. The news is confirmed that their fleet, consisting of the gunboats Darien, Padilla and Gaitan and a few sailing vessels, are in the vicinity of Panama. It is even reported that some of these have already landed. General Benjamine Herrera is the commander of this expedition. Dr. Restrepo said today that he expected to hear in a few days of the renewal of hostilities at Panama. COLON, Colombia, Jan. 4.—It is reported from Panama that General Alban has chartered the Pacific Steam Navigation company's steamer Chiriqui and the Pacific Mail company's steamer Isabel and that with these vessels and the gunboat Boyaca and a canal boat, he will leave shortly to attack the fleet of the revolutionists.

## COMMUNICATIONS

A RECIPE FOR PROSPERITY.  
To the Editor: The old adage "God helps those who help themselves," and that in its broadest and best sense, is worthy of the serious consideration of Roselanders at the present time. The prosperity of the community means the prosperity of the individual; but it is only in exceptional instances that great prosperity is enjoyed without the manifestation of properly directed public spirit on the part of the individual. Signs are not lacking to show that many of us have got into a very indifferent, not to say narrow and slothful, frame of mind. This is so contrary to what used to be the case in Roseland that there is good need for speedy reformation. Can it be that Roselanders have been spolt by their exceptionally good fortune in the past? There was a time in this camp when a few enterprising men did all that was necessary. The pioneers who, not waiting for railways or local smelters, hauled their ore in wagons to the Columbia river and marketed it in Montana and on Puget Sound, and the Helness, the Mackintoshes, and the Corbines, made the camp a believe of activity; hence there was no crying demand for concerted effort on the part of the balance of the community to promote prosperity. But it is too much to expect that this sort of thing can go on forever. Let us, rather, be thankful for the great benefits derived from the exploitations of these captains of industry and forthwith proceed to make the most of them by a fixed determination on the part of everybody to work in unison to bring about additional

benefits—an ever increasing prosperity. Since 1896 Roseland has had a board of trade which has spasmodically attempted to do the right thing, but as it never was really representative of the general public it has failed to promote much good that might otherwise have resulted. The fault does not lie with the present members; they deserve considerable credit for their efforts to advance the town and surrounding district. The great difficulty has been to induce the aid and co-operation of a large number of merchants and nearly all the wage-earners. There is really no excuse for this lack of public spirit by many of our merchants. They would be the first to benefit by additional prosperity. This also applies to an equal extent to those who are earning comfortable salaries, and, as for the man receiving less, he, at least, could be represented by delegation from the union or society to which he may belong. It would be well for us to bear in mind the fable of the Bundle of Fagots. So long as different elements of the community work at cross-purposes, so long will there be a likelihood of business stagnation. For the present our mottoes should be "Get together" and "Help one another," to the end that the greatest possible good may result. In conclusion permit me to direct attention to a little of what may be accomplished if this were done:

- 1. A systematic and thorough advertisement of our splendid natural resources by local contributions.
- 2. A persistent attempt to place Roseland in first class communication with outlying mines in the Trail Creek division.
- 3. The encouragement of local concentration and other economic works for the treatment of our enormous wealth of low grade ore.
- 4. The financial assistance of the provincial government to establish such works.
- 5. The reduction of railway rates on general merchandise.
- 6. The exploitation abroad of the camp and district by the provincial and Dominion governments. I think, at least, that if even this much were done there would be no lack of prosperity in Roseland, and as this is but a little partial list of our possibilities, surely there is good reason for us all to work together to that end. O. E. R.

## THE WONDERFUL VICTORY OVER A TERRIBLE DISEASE VOUCHERED FOR BY ONE OF OUR PROMINENT DRUGGISTS.

If you are a sufferer from rheumatism in any of its terrible forms—muscular, inflammatory or sciatic, be assured of the glorious truth that Paine's Celery Compound will work for you a permanent and happy cure. The thousands of letters received from people who have thrown off their burdens and agonies prove conclusively that Paine's Celery Compound is the one great specific for this awful disease. The following letter from Mr. J. Leverington, Yarden, Man., and endorsed by Mr. J. W. Higginbotham, druggist, of the same town, should convince all sufferers that the immediate use of Paine's Celery Compound is their only hope. Mr. Leverington says: "For more than a year I was suffering from the agonizing pains of sciatica, and after trying all that medical skill could devise, and using many remedies, patent and otherwise, I concluded to try the Hot Springs at Banff, under the superintendence of a medical man. I took the treatment thoroughly and carefully for six weeks, and came home at the end of the time racked with pain and weighing 43 pounds less. At this juncture, when hope had almost fled, I heard of Paine's Celery Compound. It seemed suited to my case, and I sent to my druggist, Mr. J. W. Higginbotham, of this place, and asked about it. He recommended it to me, and I took a bottle. I soon began to feel better, and after taking the second bottle I was a cured man and threw away my crutches. I have always been a farmer, and am able to do hard work now as ever I was."

## IN THE MATTER OF THE COMPANIES ACT AND AMENDMENTS THERETO, AND IN THE MATTER OF CHANGING THE NAME OF THE "ST. LOUIS MINES, LIMITED."

NOTICE  
Is hereby given that the Company intend to apply to the Lieutenant-Governor-in-Council to change the name of the "St. Louis Mines, Limited," to the name of "Consolidated Green Mountain St. Louis Mines, Limited."  
WM. B. TOWNSEND, Agent for the Company.

## NOTICE TO DELINQUENT CO-OWNERS.

To Edna Landsberg and E. G. Parker, or any person or persons to whom they may have assigned their interests in the Violet mineral claim, situated on the north side of the Dewdney trail, on the west side of the Northport wagon road, in the Trail Creek Mining Division of West Kootenay and located the 30th day of July, A. D. 1896, and recorded at Roseland, B. C., on the 10th day of August, A. D. 1896. You and each of you are hereby notified that I have expended in assessment work for the year ending August 10th, A. D. 1901, on the said Violet mineral claim the sum of \$102.50, in accordance with the provisions of the Mineral Act, and if within ninety days from the first publication of this notice you fail to contribute your share of the above expenditure, together with all costs of advertising, your interests in said claim will become the property of the subscriber under Section 4 of the Mineral Act, Amendment Act 1900. Dated at Ymir, B. C., this 13th day of November, 1901. SPENCER SANDERSON.

## SCHOOL EXPENSES.

Problem of Finance Under the New System of Control.  
Among the problems that will confront the new city council and school board will be that of financing the public schools of the city, which passed into the control of the corporation on the first day of the year. This proposition promises to be a serious matter, in view of the fact that the strictest economy must be the watchword of the city fathers. When the new school board assumes office it will have before it a statement of the estimated expenditure for the new year, together with the estimate of the probable receipts from the government per capita tax.

Based on an estimate on last year's figures, it may be said that unavoidable expenditure on account of salaries, fuel, etc., will be \$12,000. In addition there is an item of \$1000 for grading and fencing the Cook avenue grounds. The latter is not imperative, but it is most desirable if the fine new school building is to present the neat and finished appearance it should. To offset these expenditures the corporation will receive in per capita grants \$7,500, estimating that the average attendance will not fall below the 500 mark. Further the department makes a grant of \$300 for the high school, bringing the total to \$7,800. It may be safely figured that the sum of \$500 will be required to be levied locally to ensure the proper conduct of the city schools along the lines followed last year.

A business school board may see various quarters where money can be saved, and in this work the assistance of one or more members of the old board would be of special value because of the fact that they already have a thorough grasp of the local system.

## A HAPPY DELIVERANCE FROM THE AGONIES OF RHEUMATISM.

Paine's Celery Compound EFFECTS A CURE AFTER FAILURES OF PHYSICIANS, PATENT MEDICINES AND MEDICAL SPRINGS.

## THE WONDERFUL VICTORY OVER A TERRIBLE DISEASE VOUCHERED FOR BY ONE OF OUR PROMINENT DRUGGISTS.

If you are a sufferer from rheumatism in any of its terrible forms—muscular, inflammatory or sciatic, be assured of the glorious truth that Paine's Celery Compound will work for you a permanent and happy cure. The thousands of letters received from people who have thrown off their burdens and agonies prove conclusively that Paine's Celery Compound is the one great specific for this awful disease. The following letter from Mr. J. Leverington, Yarden, Man., and endorsed by Mr. J. W. Higginbotham, druggist, of the same town, should convince all sufferers that the immediate use of Paine's Celery Compound is their only hope. Mr. Leverington says: "For more than a year I was suffering from the agonizing pains of sciatica, and after trying all that medical skill could devise, and using many remedies, patent and otherwise, I concluded to try the Hot Springs at Banff, under the superintendence of a medical man. I took the treatment thoroughly and carefully for six weeks, and came home at the end of the time racked with pain and weighing 43 pounds less. At this juncture, when hope had almost fled, I heard of Paine's Celery Compound. It seemed suited to my case, and I sent to my druggist, Mr. J. W. Higginbotham, of this place, and asked about it. He recommended it to me, and I took a bottle. I soon began to feel better, and after taking the second bottle I was a cured man and threw away my crutches. I have always been a farmer, and am able to do hard work now as ever I was."
