Generally. A last (Friday) night's London cable says: In the Burns of Commons this attennoon, Lord George Hamilton, First Lord of the Admiralty, replying to interro-gations, denied that any agent of the United State, had access, through the firm of William Armatrong & Co., to the designs for naval vessels under confidential con-sideration by the Bflish Government. Lord Randolph Churchill moved that precedence be given to the Supply Bills. Mr. Dillon moved Mr. Parnell's amend-ment urging that the consideration of the situation in Ireland admitted of no delay. Sir Wm. Vernon Harcourt pointed out Generally.

Site Wm. Vernon Harcourt pointed out that if the amendment should be carried it would be useless, as the Ofposition was powerless to compet the Government to introduce new measures now; therefore he would support Lord Ratdolph Churchill's measures

Mr. Parneli said he did not blame Sir Wm. declaring that Lord Randolph Churchill's speech in Balfast was estenlated to provoke breaches of the law, and ought to be with drawn. He insisted that Lord Randolph Churchill was morally answersbie for the killing and wounding of so many percens in Belfast.

Lord Randolph Churchill desorated the amendment as a vain attempt to set a het in the eight of the bird. He treated with contempt, and flatly refused to respond to stempt, and flatly refused to respond to

the challenge. Major Saunderson moved an amendment to Mr. Labcuchere's amendment denunc-ing the presence of British subjccis at the recent Irish Convention in Chicago, calling attention to the statement freely made that some Commoners avowed that they had if this statement were true the members in question should be saverely consured. Mr. T. P. O'Connor attacked Lord Ran-

When there was danger of a war with Russia, continued Mr. O Connor, the was not softened by the prospects of a sacrifice of thousands of lives, and he did verything in his power to thwart the efforts of the Government, which was striving to maintain peace. He'll lay down, and sometimes there'll be more than a hundred men come round in less than 10 minutes — all the town officers and candi-dates and members of the Sonool Board dates and members of the Sonool Board and other prominent citizens—and we'll all stand round and talk 'bout what's best to do, and try one thing and another thing, and I'll let some of my warmest friends hold his head up while I go down to the drug store. I tell you that hoffe has made me popular in this town. I don's care any-thing about selling him, and 'less you want to give me my price you can't have him. I guess we can't deal any way, as I see you're one of those kind of men that don't care whether they make friends or not."— Estelline Bell.
