\$100 Reward \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case it fails to cure. Send for list of testimonials.

Great General Activity
in Western Canada

Prosperity attracts Merchants; Farmers are springing out the land

The greatest wheat producing areas in the world today are served by Canadian Northern lines. Here the incoming farmer or merchant looks for the greatest development and prosperity. Low fares, and a scenic route through New Ontario's immense forest reserve and colonization lands, add interest and enjoyment to the journey. Comfortable trains leave Toronto at 10:00 p.m. Mondays, Wednesdays and Fridays, connecting at Winnipeg for all points West.

For information, literature, tickets and reservations, apply to nearest C.N.R. Ticket Agent, or write General Passenger Department, 65 King Street East, Toronto.

Like the Sound of a Bell.

One stroke of a bell in a thick fog does not give any lasting impression of its location, but when followed by repeated strokes at regular intervals the densest fog or the darkest night can not long conceal its whereabouts. Likewise, a single insertion of an advertisement—as compared with regular and systematic advertising—is in its effect not unlike a sound which, heard but faintly once, is lost in space and soon forgotten.

I find the tablets a harmless and efficient cure for all kinds of headache." 25 cents per box—at all dealers.

Ten Gallons of Liquor.

Under a recent amendment to the Ontario Temperance Act, a practising physician is allowed to have in his office or private dwelling forty times as much whiskey as he was allowed under the provisions of the original act. In permitting the doctors to have such an increased quantity of liquor on their premises, the same restrictions that governed its possession under the act will hold good under the amendment. Why the physicians are permitted to have the increased quantity on their premises is not stated, but it is presumed that it is owing to the difficulty of obtaining the liquor under the Dominion prohibition law.

In Italy only one-third of the army is being maintained on the battle lines, the official explanation being that there is not sufficient food. The strong Austrian army facing the Italians is said to have received large supplies from Russia.

The shortage of wheat in France has become so serious that the bread ration of the French soldiers has been reduced. 18,000,000 bushels of wheat were promised Europe from North America per month. Since January 1st, the shortage has been 36,000,000 bushels, according to the Hon. Everett Colby, Senator for New Jersey, in his speech delivered at Ottawa the other day.

A Ford Car Takes the Place
of all These Things

WHEN you own a Ford you can do away with many articles that are a source of continuous expense to the man who still drives a horse. For instance, not only your driving-horse and buggy, but the single harness, blankets, whips, currycombs, brushes, horse-shoes, pitch-forks, feed-bins, etc.

In their place you have a speedy, dependable, dignified, roomy Ford Car—complete in itself. It is vastly superior to the narrow, cramped buggy that travels so slowly. And when a Ford is standing idle it does not eat three meals a day, and it requires no "looking after."

A Ford will save you time, trouble, and money. It is the utility car for the busy farmer and his family.
