

THE GROWTH OF CULTURE

The day is past when culture and true social enjoyment were confined to the few—to the privileged classes. We live in a day of enlightenment and democracy. Equal educational advantages, equal opportunities for culture and enjoyment of those things in life that are best worth while.

The luxuries of yesterday are the necessities of today, and in the musical world nothing is more noticeable than the demand of all classes for the highest possible grade of piano. The piano manufacturer who meets this demand is never-slack for want of orders.

It is here, quality, construction and architectural beauty are unexcelled. For good music or chorus of song, great artists all over the world are loud in its praises. And yet it is a Canadian instrument—perhaps the highest exponent of Canadian industry.

Banks and His Horse.

Animal trainers of the old days led adventurous lives. In 1600 all London was talking of a man named Banks, who had taken his horse to court and performed a number of feats, including mounting to the top of St. Paul's cathedral, while "a number of asses," as the historian puts it, "brayed below." Sir Walter Raleigh in his history says of Banks that he "would have shamed all the enchanters of the world, for whatsoever was most famous among them could never master or instruct any beast as he did his horse." When Banks took his horse to Rome both were burned for witchcraft.

EVER HAVE CRAMPS?

Kind of fierce to be tied up in a knot at midnight with cramps. Keep Nerviline handy. Ten drops quiets cramps in a minute. Used occasionally Nerviline prevents this trouble entirely. From Stratford, Ont., Wm. Dee writes: "Nothing I know of will give such quick relief to cramps, colic or pain in the stomach as Nerviline. If you feel queasy or sick, just ten drops of Nerviline in water and you're well next minute." Think of the protection and comfort contained in a 25c. bottle of Nerviline, and get it today.

Ottawa Traveler Suicides.

Utica, N.Y., Nov. 23.—M. T. Hal-dane of 37 McKenzie avenue, Ottawa, Ont., was found dead in his room at the New Central Hotel last night. He was a traveling salesman and left a note asking that his wife be notified. It was clearly a case of suicide, death being due to morphine poisoning.

Viscount Hampden's Death.

London, Nov. 23.—Henry Robert Brand, second viscount of Hampden, is dead. He was born in 1841, and was from 1895-1899 governor of New South Wales.

FALL MILLINERY.

Black Taffeta Hat Trimmings—Eagle and Vulture Feathers Popular.

A great deal of black taffeta trims many of the fall hats. Stiff little kitted trills and "organ" plaits of this silk are important adjuncts in autumn millinery.

The vogue for eagle and vulture feathers is very pronounced. The plumes are laid flat on the crown of the hat and spread out in the form of a fan.

Soft French felts and beavers are the first hats of the season, but later

MODERN WALKING HAT.

on will come hats of velvet, cloth and fancy combinations of braid.

The unlucky peacock feathers, together with the sad, bedraggled, uncurled ostrich plume, are in evidence. But the peacock feathers are not in natural colorings, and the ostrich plumes take on a more cheerful mien than those of last year.

Enormous roses trim many of the stunningest hats, mingled with huge bunches of grapes.

The helmet is a new shape that is extremely chic. The crown is spoon shaped, and the back of the hat is cut off in a queer square fashion. It is worn flat on the head and tilted slightly over the face.

The all gray hat is to share honors with all black models. The large picture black hat is trimmed with an ostrich feather, often fifteen inches long, that curls gracefully down to the shoulder. A smart jet, or cut steel buckle is the only other trimming.

The hat illustrated is a charming creation for morning wear. It is of olive green felt. A band of darker green velvet encircles the crown, and shaded green ostrich plumes are arranged at the side.

WHAT TO WEAR.

Spanish Influences Dominate Fashions—Every Shade of Blue Worn.

Spanish influences are dominant in the millinery world just now. Milliners are showing quite a number of small, round toques and hats distinctly recalling the forehead and matador models popular a dozen years ago. They are fashioned in the softest of

LACE BLOUSE.

French felts and trimmed with natural quills and cabochon rosettes of the felt itself.

Paris is sending over hats, gowns and wraps, together with accessories in every conceivable shade of blue. Browns are also to be much worn, with beguiling shades of green, apricot, mode and champagne in cloths, silks and crapes, but even with this wide color selection blue loses none of its favor.

Charming bridesmaid dresses are made of printed chiffon showing large designs of roses scattered over the surface or merely forming a wide border. With these frocks are worn girdles of plain colored silk of the most prominent shade in the color scheme.

In a head shop is a double string of dark red beads that, catching the light, sparkle and flash like real rubies. It is well worth the dollar asked for it.

Black is to be very fashionable, but for women to whom this color is not becoming there are innumerable other shades that are quite as modish. Among them are marine, czar, gazelle, garnet, rose and myrtle, not to mention plaids and stripes of mingled coloring.

The dainty lace blouse seen in the cut is suitable for wearing over a lingerie shirt waist. The V yoke is outlined with a pale blue velvet.

A CRIPPLE CURED

Helpless and Bent with Rheumatism—Cured by Dr. Williams' Pink Pills.

"I was a helpless cripple. I was bent in form and could not straighten up. Crutches were my only means of moving about. I tried many medicines, but they all failed until I began using Dr. Williams' Pink Pills—they cured me." George Schaw, of Short Beach, N. E., made the above startling statement to a reporter a few days ago. Mr. Schaw is now a well-built man, strong and broad shouldered. Like thousands of other Nova Scotians, he is a fisherman, and is consequently exposed to all kinds of weather, just the conditions to set the rheumatic poison in the blood at work. Mr. Schaw adds: "It is impossible to overrate the severity of the attack. The trouble was located in my back and right hip. I had to quit work and was mostly indoors. There was a time when I never expected to stand erect again, but Dr. Williams' Pink Pills straightened me up again, not only that, but they made me the strong, hearty man you see me to-day. I never describe the awful pain I suffered before I used these pills. I tried many medicines and had a treatment from several doctors, but to no avail. My legs became so stiff that in order to move at all I had to use crutches. Finally the doctors decided that I was incurable, and told me they could render no further assistance. I continued to suffer day and night, and then came the turning point in my life. A friend from a distance came to see me and it was from him I learned that Dr. Williams' Pink Pills were a great cure for rheumatism. At once I got a supply and began to use them. The first indication that they were helping me was when the pain grew less severe. In a few weeks more the swelling in my legs and hips began to leave, then my joints seemed to loosen up, and then it was not long until my crutches were thrown aside and I could straighten up. Then I began to go outdoors and soon was able to resume my work as well as ever. Since that time I have never been troubled with rheumatism, or lame back. I can tell you my neighbors were all astonished at my cure; they had all thought: I would always be a cripple."

FACE OF YOUR WATCH.

You Think You Know What It Looks Like, But Do You?—Some Curious Watch Lore.

"I will wager," said a prominent watchmaker the other day, "that you cannot correctly put down the number of the dial plate of your watch."

"Done," said the other. And he wrote down I, II, III, IV—

"Wrong," interrupted the watchmaker.

"How wrong?"

"Put out your watch and look at the figure four."

"Sure enough the figure was IIII, not IV."

"All clocks and watches made that way," asked the customer, as he put his watch back in its fob.

"All that have Roman figures on their dial."

"Why?"

"Well, there is a tradition which accounts for the custom. The first clock that resembled the ones now in use was made by a famous French jeweler named Henry Vick in 1370. He made a present of it to King Charles V, surnamed the Wise. Now Charles was wise in many ways, but he did not know everything, though having a reputation to sustain he pretended to omniscience. When Vick brought him the clock he examined the works very attentively, seeking a flaw somewhere.

"You are right," said at last, 'the clock works well, but you have not put the figures on the dial wrong.' Surely not your majesty," demurred the jeweler. "Yes, that should be four ones. 'You are wrong, your majesty.' 'I am never wrong,' thundered the king. 'Take it away and correct the mistake.' Vick did as commanded. The fashion was followed by others. And so to this day we have IIII instead of IV."

"But suppose my watch had Arabic and not Roman numerals?"

"I think the chance, of course, because the larger proportion of watches have the Roman numerals. But even then I'd have had you in all probability. For there is another peculiarity in the figures which is almost universal in watches. But I will show you. Go on writing the rest of the figure."

So the customer continued and wrote down V, VI—

"Wrong again," interrupted the watchmaker.

"Pull out your watch and see," calmly retorted the other.

Once more the watch dial was exposed to view. There was no six on it. The space where it should have been was occupied by the second hand.

"The second hand," continued the jeweler, "is to be found in exactly the same place in almost every watch that is made. Whether your dial was registered in Arabic or Roman numerals there would be no six on it. It is only on a few of a very cheap sort of watches that the second hand is omitted and the 6 or the VI stands revealed."

Wasteful Economies.

Mr. Sidney Webb, an English economist, has brought up a question that must often have occurred to many other people. He points out that while children are vital to the welfare of the State, the work of motherhood is of no account. When a workman with a family dies or is killed his widow is left to struggle as if she and her family were of no account to anybody. Yet in that day's papers jeremiads will be printed about the decline of the birth rate. But aside from the value of children to the State our present method is as wasteful as could be. For instance, a derrick falls and kills a man who has a wife and four small children. The proposal that the State or the municipality should give that woman say \$300 per year to bring up her home and go out washing or scrubbing to earn say \$200 per year the city or philanthropic institutions will take her children in. This is done every day. There is probably not an institution in Toronto where it costs less than \$200 per year to keep a child. Thus deducting the mother's earnings it costs the citizens of Toronto \$600 per year to bring up that family, whereas the widow would have made a better job of it for \$300. Yet we think we are economical, says the News.

Her Other Irons.

An amateur authoress, who had submitted a story to a magazine, waited for several weeks without hearing from the editor concerning it. Finally she sent him a note requesting an early decision, because, as she said, she "had other irons in the fire."

Shortly after the editor's reply: "Dear Madam: I have read your story, and I should advise you to put it with the other irons."—London Tribune.

The Same Old Message.

Hamilton, Nov. 23.—As regular as the night comes, Mayor Biggar emerges from the negotiations with his cheerful message, "The strike will be settled by to-morrow at noon." That was all he had to say last evening. The company and the men have both been asked to submit propositions in writing to the two members of the Railway Board who are in the city, Andrew Ingram and H. N. Kittson.

SKIN DISEASES

Salt Rheum, Pimples, Erysipelas, Ringworm, Shingles, Scald Head, Itching Sores.

All diseases of the skin are more or less directly caused by a bad state of the blood, which produces acid humors and corrupts the secretions.

No one can expect to have a clear, bright skin when the blood is in a disordered condition, and the stomach, liver and bowels acting feebly in consequence.

All the above skin diseases, in fact, any disease arising from a bad condition of the blood, are curable by

BURDOCK BLOOD BITTERS

through its wonderful cleansing, purifying powers on the blood, and its renovating action on the system.

Mr. A. Squire, Dominion, N.S., tells how he was cured of Salt Rheum. He writes: "For years I suffered with Salt Rheum, and was unable to find a curable remedy out of all the medicines I took, and Physicians consulted. Finally I was urged by a friend to try Burdock Blood Bitters, and after a very short space of time I was completely cured. I shall always recommend B.B.B. for such cases, as I consider it an indispensable remedy."

Shot While Proposing.

London, Nov. 23.—(C.A.P.)—Dr. Herbert, the victim of a murderous attack near Paris, is in the hospital with wounds more serious than at first thought. He cannot speak. The Mail alleges that Dr. Herbert is an associate of Guerres' Matrimonial Agency, and states that the woman under arrest declared that Herbert was making a declaration of love to her when Cesbron fired. She is extremely stout, and is known as "Madame Centkilo."

NO WOMAN CAN BE STRONG AND HEALTHY UNLESS THE KIDNEYS ARE WELL

When the kidneys are ill, the whole body is ill, for the poisons which the kidneys ought to filter out of the blood are left in the system. The most important it must be to see to it that this system of sewerage be not clogged up. Those who have never been troubled with kidney trouble know not the misery and suffering which those afflicted undergo.

Doan's Kidney Pills

are a specific for all kidney troubles. They begin by healing the delicate membranes of the kidneys and thus make their action regular and natural.

They help the kidneys to flush off the acid and poisonous impurities which have collected, thus clearing out the kidneys, and making them the urinary passages.

Doan's Kidney Pills are entirely vegetable, and may be safely taken by young and old.

Let Doan's Kidney Pills do for you what they have done for thousands of others, that is, cure you. Mrs. John Young, Harwood, Ont., writes: "I was troubled with my kidneys for some time and my back was so lame I could scarcely get around. After using two boxes of Doan's Kidney Pills, I am completely cured. I find there is nothing like them for the cure of all kidney troubles."

Doan's Kidney Pills are 50 cents per box or 3 boxes for \$1.25 at all dealers or mailed direct on receipt of price by The Doan Kidney Pill Co., Toronto, Ont.
