Ayer's Cherry Pectoral C. O. Leppet, Druggist, Fort Wayne, Ind., writes: "Mylittle sister, four years of age, was so ill from bronchitts that we had almost given up hope of her recovery. Our family physician, a skilful man and of large experience, pronounced it useless to give her any more medicine, saying he had done all it was possible to do, and we must prepare for the worst. As a last resort, we determined to try Ayer's Cherry Pectoral, and I can traiy say, with most happy results. After taking a few doses she seemed to breathe easier, and, within a week, was out of danger. We continued giving the Pectoral until satisfied she was entirely well. This indisputable evidence of the great merit of Ayer's Cherry Pectoral has given me unbounded confidence in the preparation, and I recommend it to my customers, knowing it cannot disappoint them."

point them."

"Ayer's Cherry Pectoral cured me of a bad cough and my partner of bronchitis. I know of numerous cases in which this preparation has proved very beneficial in families of Young Children,

so that the medicine is known among them as 'the consoler of the afflicted.'"—Jaime Rufus Vidal, San Cristobel, San Domingo.
"A short time ago, I was taken with a severe attack of bronchitis. The remedies ordinarily used in such cases failed to give me relief. Almost in despair of ever finding anything to cure me, I bought a bottle of Ayer's Cherry Pectoral, and was helped from the first dose. I had not finished one bottle before the disease left me, and my throat and lungs were as sound as ever."—Geo. B. Hunter, Altoona, Pa.

WHAT "ST. NICHOLAS" HAS DONE FOR BOYS AND GIRLS.

Victor Hugo calls this "the woman's century," and he might have added that it is the children's century as well, for never before in the world's history has so much thought been paid to children—their schools, their books, their pictures, and their toys. Childhood, as we understand it, is a recent discovery.

Up to the time of the issue of the St. Nicholand Magazine seventeen years ago literature and children's magazines were almost contradictory terms but the new periodical started cut with the idea that nothing was too good for hildren; the result has been a juvenile magazine genuine with conscientious purpose.—the greatest writers contributing to it, with the best artists and engravers helping to beautify it,—and everything tuned to the key-note of outh.

It has been the special sin of St. Nicholant.

It has been the special aim of St. Nicholas to supplant unhealthy literature with stories of a living and healthful interest. It will not do to take ascinating bad literature out of boy's hand and give them in its place Mrs. Barbould and Peter Parley, or the work of writers who think that any "good-y" talk will do for children, but they must have strong, interesting reading, with the blood and sinew of real life in it,—reading that will waken them to a closer observation of the best things about them. It has been the special aim of St. Nicholas to

In the seventeen years of its life St. Nicholas has not only elevated the children, but it has also elevated the tone of contemporary children's literature as well. Many of its stories, like Mrs. Burnett's "Little Lord Fauntleroy," have become classic. It is not too much to say that almost every notable young people's story now produced in America first seeks the light in the pages of that magazine.

The year 1891 will prove once more that "no The year 1891 will prove once more that

The year 1891 will prove once more that "no household where there are children is complete without St. Nicholas." J. T. Trowbridge Noah Brooks, Charles Dudley Warner, and many wellknown writers are to contribute during this coming year. One cannot put the spirit of St. Nicholas into a prospectus, but the publishers are glad to send a full announcement of the features for 1891 and a single sample copy to the address of any person mentioning this notice. The magazine costs \$3.00 a year. Address The Century Co., 32 East 17th St., New York.
