The entire work of the editon was done in our own office, by our regular staff, and the kind reception and words of praise from the press, as a whole, and hosts of our readers are greatly appreciated. This is the first time such a publication has been issued from any office in the Maritime Provinces, and although financially it was not a success, otherwise it has been, and the publishers do not reget the loss of a few do lars, in an enterprise which has done the Miramichi some good, as we are convinced this issue has. In parting we may add that with a

new press for fine illustrated and general work, and a large assortment of the latest type styles, this office can turn out a class of work second. to none in the province, and at fair prices. Give us your orders. 5 **ANSLOW BROS.**, Printers and Publishers,
