Washington, March 25.— Eastern States and Northern New York—Much colder this p. m. and to night with snow; Friday snow, follow. ed by clearing, high northwesterly winds. Cor. James and Main Note the address: HOTEL DENNIS (Special Despatch to the Times.) Ottawa, Ont., March 25.—Mr. Biggar, K. C., counsel for the Grand Trunk, was Mme.Hainsworth K. C., counsel for the Grand Trunk, was before the Senate Railway Committee this morning. He stated that the need of the Grand Trunk was that the Lan-custer bill would be against the interest of both the public and the railroads. The Senate had amended this bill last year so as to make it more reasonable, and should amend it again. The Lancaster bill would on the first of January com-pel the Grand Trunk to reduce the speed of its trains so that the time of passage between Toronto and Montreal would be almost doubled. The road would not be able to comply with the crossing protec-tion requirements of the bill in so short a time, even if it could raise the money. thy to the owner and rates. WALTER J. BUZBY. 297 James St. North 'ou wouldn't believe the number of in the fall or are burned." Dr. Reaume informed the committee. To the Mayor of every municipality in Ontario the Toronto Star sent the following query: In view of public alarm in the moth-erland, should Canada do anything for Imperial navy defence? If so, what and when? Stand by Your Own informed the committee. The rent of a boat from Purvis Bros. to patrol Lake Huron and Georgian Bay for poachers, a sum of \$5,243, pro-voked another question from Mr. Ross as to why the Government hadn't boucht the boat Western New York—Snow to-night with colder in extreme portion; Fri-day snow flurries. **ARE VERY DILIGENT** Rock Candy Made in ON KINRADE CASE. 10c. Lb. as to bought "KEV." O'NEIL HERE Pickles Sauces to why the ight the boat. Mayor McLaren replied as follows: ought the boat. "We didn't advertise for a boat, but we examined several," said the Minister, "You need a good-sized boat to stand the seas, and this one carried a launch that could go into bays and shallow water to look for nets." "Could you not get service chean. No doubt Canadians are willing to d their part honorably, but which will at tain the object quicker, the spending c our money and energy to develop ou resources in order that with increase (Continued from Page 1.) 3 Lbs. for 25c (AGAR'S) AFTER N.Y. ROBBERY When it is anything in the line of ugh Syrups, Cough Drops or Thron. tion requirements of the bill in so short a time, even if it could raise the money. The passage of the bill would mean that the legal liability of the company would be increased. Wherever there was an accident the railroad, whether it had complied with the protection requirement or not, would have to prove to the jury that the crossing was "properly pro-tected." or the verdict would go against the railroad company every time, as jury verdicts always did. There was an idea in some quarters that the railroads would disregard the laws and continue to pass unprotected crossings at greater speed than ten miles an hour. placed on the market just at the be-ginning of this year." Mr. Bond then produced, this newer gun, which is known as the Savage automatic pistol. It is very easily car-ried on the person, its length over all being six and one-half inches, and its weight nineteen ounces. The cart-ridge is .32 calibre, rimless, and charged with smokeless powder. The magazine has a capacity for ten shots, of course, and the pistol has the blued finish. The action is automatic, except that the trigger must be pulled to fire each (Continued from Page 1.) HAMILTON have t Park Por par "Could you not get service cheap-er?" Mr. Clark asked. "Seems to me you could get a preity good boat for \$10.000. # **DIVORCE BILL**

### Guilty Party Should be Prohibited From Remarrying.

Ottawa, March 24 .- In the Upper House, on motion of Senator Clorar the second reading of the bill to restrict the evils of divorce by forbidding the guilty party to marry again, was defer-red to give further time for the religious organizations, to whom the bill has been sent, to send in their opinions. He said he had received large numbers or opinions, all in support of the bill.

**PASSED SPECIFICATIONS.** 

**TROJED STECHFICATIONS.** The plans of the new Y. W. C. A. have been finally handed over to Mr. Charles Mills, architect, and it is expected ten-ders will be called for next week. The Y. W. C. A. Board met this morning, and settled every detail that was not settled at the previous meeting, so everything is ready for the work to go on, as far as the Y. W. C. A. is con-cerned.

### British Water Power.

British Water Power. The growing industry of extracting aluminum has stimulated the search for water-power in the British Isles, be-cause the extraction of aluminum is so expensive that only low-cost power can be economically employed. In this res-pect Scotland, with its mountains, is coming to the front. The water-power plant at the falls of Foyers, in Scot-land, has hitherto been the largest in Great Britain; but now a still larger

land, has hitherto been the largest in Great Britain: but now a still larger plant, at Kinlochleven, utilizing the rainfall over a tract of 55 square miles, is about to be put into operation for the production of aluminum. Its nine hydraulic turbines, each of 3,200 brake horse-power, are the largest water-wheels in the British Isles.

Many a man who is stoop-shouldered takes his whiskey straight.
