Charlottetown.

TT has become an established fact that accidents I will happed notwithstanding the care and attention which may be paid to the safety and convenience of travellene. Explosions will take place, bridges will be left open, and cars run off the track as usual. It is well enough for the public and legislators to caution, companies to "beware," and "take head," yet these causualities will occur, which result in severe contusions, broken limbs, burns, brules, &c.

will be left upon, and cars ran of the mack as usual. It is well-snough for the public and legislators to contine companies to beware, and take head, yet these casualties will occur, which to the malt in eaver contusions, broken limbs, barns, bruicas, &c.

The Mexican Mustang Limiment,
Ugos such occasions, is invaluable! The wooderful effects of its southing and healing propurties have induced many, who have teaching to always carry a bottle of h with these will be a creaved ling.

Fragment tests have proven it have efficacious in corria, thesematism, Piez, Geordichos discusse, Cancers, Ulcers, Old Sores, Neuralpie, Roothache, Eardehe, See, Alec Sparin, Ring-bean Beratches, Cracinal Haste, Chafins, Galle, &c., on series and other animals. It is expersal in its application, and we ULARANTER if to the PREMERENTY is every class for which we recontinued it.

Many Physicians are it because they can depoid upon firms on their patients.

Firmers and Layery stable Seques.

Say they with, here is, and will not be autisfied without it, after giving it a fair trial. Therefore we say to travellers upon highways and by-ways use the Missing Language and the ways as the Missing Language and the processions, and Was Indies, that it is almost impossible to step off the cars at any Station without beholding the gay barner of the "Mustangs."

The prices are a slice as a fair trial. Therefore we say to travellers are shoupest.

The prices are a sloce as a fair trial in the same as a sign as the 50 cent being three times as large as the 25 cent being three times as large as the 25 cent being three times as large as the 25 cent being three times as large as the 50 cent being three times as large as the 25 cent being three times as large as the 25 cent being three times as large as the 50 cent being three times as large as the 50 cent being three times as large as the 50 cent being three times as large as the 50 cent being three times as large as the 50 cent being three times as the same of the cent of the cent of the cent of the cen

JUST RECEIVED, at Garages T. White he's Bookstore, in various bildings. The above is the Edition of Wattac Hymne spec in the Bagaist Chapel Charl statewn.

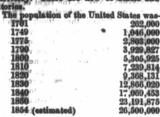

UNITED STATES STATISTICS.

Mr. De Bow, Superintendent of the United States Census, has just issued a new volume, of which a very heavy edition was printed by Congress. It is a most complete cyclopedia of new and interesting statistics. The following facts are digested from it, but the whole volume is worthy of study and reflection:

The cost of the census of 1790 was \$44,377; of 1840, \$533,370; of 1850, \$1,362,500, axelusive of final printing. Upwards of 3,500 persons were employed in collecting and digesting the facts.

The area of the United States has increased from \$29,628 square miles, in 1783, to 2,963,666 in 1854, being more than a third of the area of North America, and equal to the Roman empire or that of Alexander in their palmiest days: 1,217,562 miles of this territory is in the Mississippi valley, and 766,002 on the Pacific. The main shore line of the Union, including hays, sounds, &c., is 12,609 miles, of which 6,861 miles are on the Atlantic, 2,281 on the Pacific, and 3,256 south of Virginia (inclusive:) 1,764 are on the gulf; 1,343 on the Pacific. The distance from New York to New Orleans is equal to that from London to Rome; from New York to Astoria by water equal to that from Liverpool to Canton by the way of Cape Hope. The total length of shore of navigable rivers is 49,065 miles. The frontier line of the Union on the British possessions is 3,303 miles; on Maxico, 1,456 miles. Nebraska constitutes one-ninth of the Union; Texas, one-twolfth; Virginia, one-fitieth; Rhode Island, one-two-thousand-three-hundredth. The States and Territories have about an equal area. The slaveholding States have 861,508 square miles; non-slave-holding, 612,507; 1,970,077 miles are oneith, and 966,689, south of latitude 36 30. Six States and Territories are larger, as large, or a little less than either of the powers of France, Great Britain, Austria, Prussia, Spain, or Turkey. Eight of the largest States are equal to the 23 others in territory.

The States should be classed as—1, castern, or Pacific. The northeast

of the slave properties are in a single slave, and nearly one-half in less than 5 slaves.

New-York has about one-sighth of the population of the Union, Pennsylvania one-tenth, Delaware one-two-hundred-and-sixty-third part. In the last ten years Vermont gained 886 per cont.; in 60 years Delaware gained but 54 per cont.; in 60 years per cont.;

persons were means or idotte in the non-slave-holding States, and 1 in 1821 in the slaveholding.

Connecticut, South Carolina, and Vermont have more than half as many native born residing in other States as remain at home; North Carolina, Tennessee, Kentucky, and Virginia nearly one-half; Massachusetts, Maryland, and New-Jersey one-third. The largest proportion of foreigners is in Wisconsin and Minnesota, being about one-third of the whole; the least proportion is in North Carolina, being 1 to 229 native; in South Carolina, 1 in 32; in Arkansaa 1 in 98; in Mississippi, 1 in 62. More than a quarter of the free persons born in the South have left for other sections; only one-sixth have left the castern or middle States; only one-tenth the South-west. 726,450 persons born in the free States, now live in slave States; whilst 232,112, born in the slave States reside in the free La800,000 foreigners reside in the free States, and less than 400,000 in the slave States.

There are in the Huited States 901,719 persons

in 56 in South Carolina, 1 in 198 in Michigan, cultivate less than ten acres each.

The value of the agricultural products of the United States in 1854 may be estimated at \$1,000,000,000.—Thirty-three millions acres of land are in meadows; 11 millions in wheat, 31 millions in corton, 2 millions in notates.

millions in corn., 5 millions in wheat, 31 millions in oorn.,5 millions in cotton, 2 millions in potatoes, &c., &c., &c., —113 millions in all crops. There are 64,000 planters, producing over 5 bales of cotton each; 2,681 magar planters; 551 rice planters, growing over 20,000 lbs. each; 15,745 tobacco planters, raising over 3,000 lbs. each; 8,327 hemp planters.

PACIFIC MILL AT LAWRINGE.—The Largest in the World!—The largest and most comprehensive mill in the world is the Pacific at Lawrence. The floor surface of this immense structure is sixteen acres.—The largest mill in England has eleven and a half weres. There are now in operation 40,000 octon spindles and 10,000 worsted spindles; and these are to be increased to 60,000 and 20,000 respectively. There are 1,200 looms in operation, to be increased to 60,000 and 20,000 respectively. There are 1,200 looms in operation, to be increased to 2,400. These with 2,000 hands, produced 300,000 places of cloth per annum, one-half delaines. The weekly consumption of coton is 20,000 lbs. eay 1,500,000 lbs. per annum, and 500,000 lbs. eay 1,500,000 lbs. per annum, be at the cashier's office, were Mr. Clapp payout \$500,000 to them for wares, appropriating to each one the exact amount she has earned.—Loyell Courier.
