PATENTS

obtained for mechanical devices, medical or other compounds, ornamental designs, trade-marks and labels. Caveats, Assignments, Interferences, Infringements and all matters relating to Patents, promptly attended to. We make preliminary examinations and furnish opinions as to patentability, free of charge and all who are interested in new inventions and Patents are invited to send for a copy of our "Guide for Obtaining Patents," which is sent free to any address, and contains complete instructions how to obtain Patents, and other valuable matter. During the past five years we have obtained nearly three thousand Patents for American and Foreign Inventors, and can give satisfactory references in almost every county in the Union.

**Spheroidal
Spectacles**
AND
EYE GLASSES
ARE the best for the preservation of
the sight, and took the medal at the
Centennial Exhibition.

The lenses are made of the best ma-
terial, uniform in density, and of high
refractive power, their perfect polish
and spheroidal shape adapt them to ease
and improve the sight of the wearer.
The eye being the most delicate or-
gan great care should be exercised in
selecting spectacles; it is not enough
that the glass be of the right focus, but
the lenses must be perfectly centered
and in many cases perfect relief is only
given by having each eye fitted separate-
ly. To effect this the lenses are made
interchangeable, and having an Opto-
meter to measure the sight, a perfect
fit is guaranteed.
Call and examine before purchasing
any other kind.
