A SPEED CURE

Kentville, N. S., Jan. 1st, 1910
Messrs. C. Gates, Son & Co.,
This is to inform you that I have been a sufferer for the last fourteen years from Kidney and Stomach trouble, brought on by severe colds, having been laid up every winter during that time. Last year I was laid up seven months so that I could not go out of the house. Dropsy set in and my stomach swelled so that I was six inches larger than my usual size, had two doctors in attendance but I grew worse and they were going to tap me. My friends despaired of my life. At this time I was recommended to use GATES' LIFE OF MAN BITTERS and INVIGORATING SYRUP and in one week after commencing their use my size was reduced two inches, and in four weeks was reduced to usual size so that I went to work in my mills, and have been able to continue it ever since. By continuing the use of your BITTERS and SYRUP I hope to get a cure of the kidney and stomach trouble so far as it is possible as it always helps me when I take it. You may make these truths known for the benefit of sufferers. Yours very gratefully,
JOHN W. MARGESON.

REPORT OF THE SWINE COMMISSION

The report of the Commission sent last year by the Dominion Government to Europe to study the swine rearing industry has been issued. It consists of a pamphlet of sixty pages of printed matter and a large number of striking illustrations.

The countries visited were England, Scotland, Ireland, Denmark and Holland. Denmark and Ireland, being the strongest competitors of Canada in the British market, received most attention. The report described clearly how the hogs are bred and reared, and the various steps taken to develop the export bacon trade. The far famed co-operative system, as applied by the Danes to the breeding and rearing of the swine, the packing and marking, is fully described. Co-operative feed buying, which involves the purchase of over six hundred million pounds of grain, oil cake, etc., a year, is fully dealt with.

A FASCINATING DRAMA

The peopling of the great Canadian West is a fascinating drama whether we view it from the large or the small end of the telescope. It is, from the point of the great railroad builder throwing a steel spine across the continent, or from the point of one little family unit finding its tree farm under the aegis of this transportation line.

The line of the Grand Trunk Pacific across Canada is essentially the belt of homes. Who is it that answers the call of the wheat? The young, the brave, the hopeful, the helpful, says Miss Agnes Dean, in the March issue of the "Magazine of Commerce." The writing tools to write the drama are the strong arms of men and of faith-possessed women. It is a good play for the world to watch. The first scene is enacted on the prairie farm where the virgin sod is turned under to a crop of wheat for the first time since creation's dawn. The second scene is the grain elevator, set against the setting sun, and the waiting wheat train of Grand Trunk Cars. Our drama closes with the loaf of bread clutched in the eager grasp of the little child in some crowded city of the old world. "Manchester (Eng) City News" March 19, 1910.
