

NEW CHAMPION RANGE

A GREAT BAKER

Fawcett

Ranges are wonderful bakers because the oven is always just right. The heat is evenly distributed at all times around all sides of the oven, and a steady temperature results.

An oven thermometer tells you the temperature of the oven instantly, and the perfect regulation of heat enables you to have any temperature you want at any time. Fawcett Ranges are the handsomest, most economical, durable, and satisfactory, as well as the best bakers.

Send for our booklet explaining why. It contains facts about ranges that you, as a housekeeper, ought to know.

Canada Has 125000 Men at the Front

Besides Those in England And 20,000 Who Have not yet Left Home

The Canadian troops now in France, if up to establishment, mean a force of approximately the following numbers:

Infantry divisions and a cavalry brigade	78,000
Fighting corps, troops	11,000
Total fighting troops	89,000
Army Service Corps and medical services	8,000
Railway, forestry, labor, etc. services	28,000
Total lines of communication	36,000

Grand total 125,000. This is not a statement of actual numbers in the field. Regiments may not be up to their establishment and in addition, there may be in France at some given moment a considerable number of recruits who have been brought over from England and are either being given their final training, or are waiting to be moved up to the corps for which they are destined.

The Canadian army is short in infantry and to remedy this the Military Service Act was enacted. In Canada there are about 20,000 officers and men of whom only about 8,000 are in the front. It is proposed that in future men enlisted will be kept in the same battalion as their immediate neighbors and friends.
