APRIL EXAMINATIONS AT COLLEGIATE

Lower School Only
Below we give the results of the Easter examinations at the Collegiate Institute. Individual reports have already been sent to parents and these show in greater detail the standing of the pupils. The standard for promotion in June is 40 on each paper with an average of 60 on the total. In all cases where a pupil's standing is lower than this on this report special attention should be paid to the weak subject or subjects from now on with the object of making good the defect by June. From now until June pupils should make faster progress as much of the work will be a review of what was taken earlier in the year. There is, however, a strong tendency as young people to take things easy as Spring comes on. This will be fatal to those seeking promotion. If parents and pupils consider promotion a desirable thing every effort should be made towards that end now, as it will be too late at summer. The teachers are anxious to co-operate in every way in order that those who are weak may overtake their work, but the greatest need from now on is for earnest and concentrated study on the part of each pupil. The principal will be pleased to confer with parents at any time. Those in Class II are not graded owing to absence from all or part of the examinations. Those in Class I are in order of merit.

1,000 DUSKY MAIDS SHOW CHARMS OF ZEALAND TO PRINCE

Do Their Languorous Dances for British Royalty to Tune of Native Music.
ROTORUA, New Zealand, April 30—The picturesque celebration arranged by the Maori tribesmen, enemies of the British in the Maori war, in honor of the Prince of Wales on the shores of Rotorua lake today furnished one of the striking features of the prince's tour. A thousand native warriors, clad only in oil cloths and armed with spears, performed fierce war dances while a thousand garbeful Maori maidens in brilliant Maori costumes did their languorous dances to the accompaniment of soft native music.

The strike of locomotive engineers and firemen continues and the prince, with his party, has arranged to return to Auckland tonight instead of continuing to Wellington by rail.

FIGHT PLAGUE AMONG CATTLE IN CANADA

Tuberculosis among cattle is reported to be greatly on the increase and preparations are being made by stock men for a Dominion-wide educational campaign to help fight the plague. At the conference in Ottawa on May 5 and 6 between representatives of the producers, packers and the Dominion Department of Agriculture, it will likely be recommended that the charge of one-half of one per cent, levied on all animals entering the stockyards be diverted in so far as it affects animals which are not slaughtered, and the proceeds used to combat the tuberculosis among animals.
Fast motorcycles have been furnished to the Windsor unit of the Royal Canadian Mounted Police.

Royal Commission Favors to Women W

OTTAWA, May 1.—Dominion-wide application of the principle of a minimum wage and a forty-eight hour working week for all women and girls, excepting those engaged in domestic or agricultural employment was strongly favored by the Royal Commission on the Unification of Labor laws at the session here yesterday.
Other important items at the session included the adoption of a motion that a committee of five be appointed to report upon the unification and harmonizing of law on industrial disputes within Canada, and a further recommendation that all laws at present existing in any province dealing with the improvement of sanitation or the protection of life should be made general to such other industries as may be possible throughout the Dominion.

Hamilton Aldermen Conv Won't Be Started

HAMILTON, May 1.—Continued from what Premier Drury told them yesterday that the Port Credit-Hamilton Hydro Radial would not be started for at least a year or two, members of the City Council will ask for the return of their \$6,000,000 bonds deposited with the Hydro Radial Association that the city has guaranteed. Controller Jutten thinks that Sir Adam Beck would have conferred a favor on Premier Drury if he had remained away from yesterday's meeting, and he thinks that an effort is being made to sidetrack Sir Adam on Hydro radial matters. Sir Adam Beck assured Ald. Tope yesterday that the Hydro would have to take over the Dominion Power & Transmission Company, but that it could not be done in a minute. Ald. Tope, who is chairman of the Street Railway Committee, does not know whether, under the circumstances his committee should seek a better service from this company.

Oleo Just As Good As Some Butter Sold

OTTAWA, May 1.—Oleomargarine has had a large sale in Canada since restrictions on its sale were removed on December 10, 1917. Up to the present 18,358,046 pounds of this butter substitute have been manufactured in Canada, while 12,071,287 pounds were imported up to the end of February last. These figures were given the house tonight by Hon. S. F. Tolmie, minister of agriculture, when a resolution was under discussion providing for extending the time during which oleo may be manufactured and imported into this country to August 31, 1921, and for sale until March 1, 1922.
Before the house adjourned only one opponent to the sale of oleo in Canada had registered his protest. That was Dr. J. W. Edwards of Frontenac. He explained that he spoke on behalf of a dairy constituency. He denied that there was a scarcity of butter; "I don't think there is any real ground for the argument that there is a scarcity of butter," he said.
